III. Statement of works costing Rs. 5,000 and upwards sanctioned in 1884-85.	Ai	249—250
Railways.		
I. A comparative statement of commodities carried during the year 1883 and 1884 on His Highness the Gaekwar's State Railway ...	Aj	251
Medical Department.		
I. General statement of expenditure incurred on account of the Medical Department... ...	Ak	252—253
II. Statement showing the number of patients treated at each hospital and dispensary ...	Al	254—260
III. Statement of the diseases treated and deaths from each disease	Am	261
Revenue Department.		
I. Land revenue for the year 1884-85, as compared with that of 1883-84	An	262—63

	Alphabetical order.	Pages.
II. Statement showing the realizations and outstanding balances of land revenue for 1884-85, as compared with those of 1883-84	An	264
III. Statement of taxes abolished in 1884-85 ...	Ap	265—270

Revenue Survey and Settlement.

I. Statement showing the villages measured during the year 1883-84 and 1884-85	Aq	271—288
II. Statement giving the details of the Boundary disputes decided by the survey Kamdars during 1884-85	Ar	289
III. Statement showing the villages classed during 1883-84 and 1884-85	As	290—294
IV. List of villages settled during the year 1884-85.	At	295—296

MEMORANDUM.

Relations with the British Government, &c.

There was nothing remarkable to note as regards the relations between this State and the neighbouring British Districts and Native States. These relations were in the year under report as cordial and satisfactory as before.

2. Mutual extradition of offenders and co-operation in Police matters between this State and the neighbouring British Districts and Native States were also satisfactory.

3. As in the last five years, no mail robbery occurred during the year in these territories.

4. The Raja of Rajpipla appealed to the Government of Bombay against the decision of the Special Settlement Officer regarding the village of Charni, and that Government decided that the decision of the Special Settlement Officer was final.

5. The Radhanpur Durbar preferred an appeal to the Secretary of State for India against the decision of the Government of India in the boundary dispute between the Radhanpur village of Aritha and the Baroda villages of Paloli and Jassamao. The Secretary of State concurred in the decision of the Government of India, and declined to interfere.

6. The Junaghar Durbar's claim to the reversion of the village of Jamanwada of the Korinar Pergannah of this State was negatived by the Government of Bombay.

7. An arrangement was made between His Highness' Government and the Political Agent, Kattyawar, on behalf of the Kattyawar States about the reciprocal service of summonses on defendants free of Court fee charges.

8. An arrangement was entered into between this State and the Mahi Kanta, by which it was agreed to allow batta, &c., to witnesses who might be summoned in connection with the execution of commissions in Civil cases.

9. The Government of India decided that the Mahi Kanta Bhayad (who it was contended by this Sarkar were not entitled to the British guarantee) were not as a class excluded from the guarantee or from the benefit of the rules passed for the settlement of Giras and Wanta rights, and Mr. A. Crawley-Boevey was again appointed as Special Settlement Officer in the early part of the year 1885-86.

10. Thakor Mulsingji of Hadol having died, and his son and successor being a minor, the Government of Bombay placed the Thakor's estate in the Mahi Kanta under the management of the

Political Agent. It was arranged that no payments on account of the Thakor's rights in Baroda territory should be made to any other person than the Agency Thanadar at Hadol.

11. His Highness' Government had invested the Thakor of Bhaderwa with certain limited Criminal and Civil powers in his Wantas situated in these territories. According to the Sanad by which the powers were granted to him, the Thakor was to exercise them in subordination to His Highness' Government and according to the laws and rules of this State, and also to render returns, &c., to the superior Courts in the usual way. As several instances came to notice in which the Thakor persistently disregarded the conditions of the Sanad, His Highness' Government was constrained, in the interests of good government, to withdraw the powers which had been conferred upon him.

12. It was decided that His Highness' Government was entitled to *Nakraman Sakraman* and interest on Hundis received on account of tribute if they be dishonored.

13. The important question of the commutation of His Highness the Gaekwar's Contingent Force was finally decided, and steps were taken for withdrawing the Force from the tributary Mahals.

14. As the district of Okhamandal has been tranquil for a long time past, the company of Bombay Native Infantry stationed at Dwarka since the suppression of the rebellion in 1859-60 was withdrawn with the concurrence of His Highness' Government.

15. The branch of the Thuggee and Dacoity Department at Baroda was abolished during the year.

16. The observance of the important principle that Girassias, &c., should, as a general rule, first exhaust local remedies before applying for the interference of the Agent to the Governor-General was insisted upon in some instances, with a view to avoid needless correspondence and consequent delay and vexation.

17. It was decided to construct a Railway on the metre gauge from the Mehsana Station of the Rajputana-Malwa Railway to our town of Wadnagar in the Kadi Division, a distance of 21·03 miles, at an estimated cost of Rs. 6,39,770. Steps were also taken for entering into an agreement with the B. B. and C. I. Railway Company for the working of the line when constructed.

18. About 176 square miles were topographically surveyed during the year under review by the Trigonometrical Survey Department at the cost of this State.

19. In all about 5,378 square miles of Baroda territory were surveyed up to the end of the year.

20. A Committee was appointed by His Highness' Government in connection with the Royal Indian and Colonial Exhibition, London, and a sum of Rs. 30,000 was placed at the disposal of the Committee for collecting exhibits.

21. His Highness' Government contributed a sum of Rs. 1,000 to the Agricultural Show which was held at Neriad in March 1885.

22. The total number of Post Offices in these territories at the close of the year was 67 against 61 in the last year and 54 in the year before the last. Four of the offices shown as newly opened were due to a change in classification. One of the main lines was closed and a new one was opened instead; thus the number of mail lines remained the same. At the end of the year there were 146 letter boxes as compared with 135 in the previous year. Other facilities were also given to the Postal Department by His Highness' Government.

23. The working of the Post Offices in these territories continued satisfactory.

Visit of H. E. the Governor of Bombay to Baroda.

24. On the 28th of November 1884 His Excellency Sir James Fergusson, K.C.M.G., C.I.E., Governor of Bombay, arrived at Baroda on a private visit to His Highness the Maharaja. This was His Excellency's second visit to Baroda. During His Excellency's stay here, visits were exchanged and due hospitality was shown to the distinguished guest.

His Highness' Tour in the Baroda Division.

25. As His Highness the Maharaja visited the Kadi Division in 1882-83 and the Nowsari Division in 1883-84, so the Baroda Division was selected for the tour in the year under report. It is scarcely necessary to say that these royal tours are productive of much good to the people, since the Ruler is thereby enabled to come into a closer contact with, and to ascertain the wants and redress the grievances of, the ruled. Local wants are promptly and readily supplied by personal inspection rather than through official medium.

26. The tour in this Division was not continuous as those in the other two Divisions, but was done by four instalments or sections, His Highness returning to Baroda after finishing each section. These sections were Chandode, Saoli, Petlad, and Choranda.

27. The tour commenced on the 2nd of December 1884, when His Highness left for Chandode in a special train under the usual military honors from the British and State troops. At Chandode the local officers and the Rana of Mandwa and the Thakor of Sanore were present at the Railway station to pay their respects to His Highness and to receive him. On staying for some days at Karnali, His Highness visited Sinore, and thence returned to Baroda on the 8th December.

28. His Highness next visited the Saoli Mahal on 2nd January 1885. The ceremony of turning the first sod of the Ajwa Water Project, noticed elsewhere, was performed during this trip. Her Highness the Maharani Chimnabai Saheb joined the Maharaja's Camp on the 7th, and on the 9th they returned to Baroda.

29. On 24th January His Highness left for Padra. He then visited Dabka, and thence went to the Petlad Mahal. At Dabka His

Highness went as usual a hunting. In the Petlad Mahal His Highness received a visit from His Highness the Nabob of Cambay at Sojitra on 26th February and returned it. Presents as usual were exchanged on the occasion. *En route* to Baroda *viâ* Nariad His Highness was cordially received by the leading members of the community at Nariad, and an address was presented to him at the time. On the 10th His Highness returned to Baroda by a special train.

30. The tour in the Choranda section commenced on the 20th February, when His Highness visited Karjan. The Talukas of Choranda, Dabhoi and Sankheda were visited on this occasion. His Highness returned to Baroda from Bahadarpore by a special train on the 27th February.

31. As usual the Taluka towns and other places of interest were visited during the tour, and the working of the different departments and offices examined, and the condition of the country and the rayat observed and inquired into.

32. Everywhere His Highness was received with demonstrations of loyalty and joy.

33. During the tour most of the tributary Thakors came to pay their respects to His Highness, and were shown the consideration due to the rank of each. They presented Nazars to His Highness, and were in return given dresses of honour.

34. There were Durbars held in Taluka towns for the reception of the officials and the people.

Opening of Ajwa Water Works.

35. One of the greatest events in the year under report was the turning of the first sod of the Ajwa Water Works.

36. Baroda, the capital city of His Highness the Maharaja,—a city teeming with a population of over a hundred thousand souls,—has long felt the want of a sufficient supply of pure drinking water. This want it had been the ambition of His Highness' worthy sire, Maharaja Khanderao, to fulfil. Various were the schemes that were presented to His Highness Maharaja Khanderao for approval. Some would pump out the waters of the Narmada, about forty miles to the south of the city; others would resort to the Mahi River for the purpose of a water-supply. The schemes were costly and elaborate. The late Mr. Forde, Civil Engineer, was specially engaged for the purpose of proposing a water-supply scheme for Baroda by His Highness Maharaja Khanderao in 1865-66. But the matter did not take a definite shape, and Maharaja Khanderao passed away. His successor in the short *régime* that was allowed him scarcely found time to devote his attention to this subject. Raja Sir T. Madava Row's administration succeeded, and the subject of the water supply was again taken up. The old schemes were again examined. A Water Works Engineer was imported from the distant provinces of Upper India. He tried his best to alight upon some suitable scheme, but failed. His last recommendation was the sinking of a few artesian wells in the vicinity of the city to pump

out water therefrom and store it in a large tank, to be filtered thence into other tanks for distribution throughout the city. This scheme also was set aside as being rather uncertain of the yield of water supply and involving a current expenditure of over a lac of rupees per annum. Another scheme to supply water by gravitation from Powagarh was proposed, and Mr. Little, C.E., Executive Engineer, Panch Mahals, was requested to examine it. He visited Powagarh and pronounced the scheme not feasible. The subject was in this state when His Highness the Maharaja assumed the reins of Government.

37. His Highness' keen interest in the welfare and comfort of his subjects served to lend a healthy stimulus to the promotion of the long desired scheme. A trip to the Saoli Mahal and a visit to the Muwal Tank, about two miles from Saoli, were productive of results fruitful beyond anticipation. His Highness ordered the survey of the tank with a view to fully utilizing its contents for irrigation. The services of an experienced Engineer, Mr. Jagannath Sadashivji, Asso. M.I.C.E., then in the employment of the Cutch State, were retained for the purpose. He examined the Muwal Tank and its surounding localities, and prepared a detailed scheme for the supply of potable water. This was examined by Mr. P. Reynolds, M.I.C.E., then Irrigation Executive Engineer, Ahmedabad, and now Chief Engineer here. Mr. Reynolds inspected the tract of country in the vicinity of Muwal, and proposed another scheme. This was the Meni Lake scheme. This, too, was ultimately given up in favour of the Surya scheme, which presented itself to Mr. Jagannath Sadashivji as the best suited under the circumstances. Surveys were thereupon taken, and the whole scheme was prepared and submitted to Mr. Reynolds for consideration. He visited the localities, went carefully into details, examined it in all its bearings, and pronounced favourably upon it. The whole was then submitted for the opinion and advice of the Hon'ble General C. J. Merriman, C.S.I, R.E., Secretary to the Government of Bombay, Public Works Department, and he also gave a favourable opinion. The scheme was thus sanctioned, involving a total expenditure of Rs. 25,23,090, exclusive of establishment and land compensation.

38. The 8th of January 1885 will long be gratefully remembered by the inhabitants of Baroda as the day on which the first sod of the dam of the reservoir of the long-cherished water-supply was turned.

39. This first turning of the sod was done with great *eclat* and ceremony. A large camp was pitched for the accommodation of the Sirdars, Darakdas, officers and other *elite* of the city, who were specially invited to witness the ceremony. The Agent, Governor-General, General (now Sir John) Watson, K.C.B., V.C., and his Assistant and the officers of the station were accommodated in another camp hard by. The Durbar tent was pitched near the spot selected for the performance of the opening ceremony. The Durbar was held in the afternoon. After the arrival of His Highness at the Durbar tent the leading citizens of Baroda presented an address, in which they expressed their gratitude to His Highness for the interest manifested and for His Highness' solicitude for their welfare and for the supply of the long-felt want.

40. After the reading of the address was over, the party rose and

proceeded to the spot in front of the Shamiana selected for the performance of the ceremony. At His Highness' request Lady Watson turned the first sod, after which the Durbar was again resumed, and His Highness gave the following reply to the address from the citizens:—

GENERAL WATSON, LADIES AND GENTLEMEN,—It is with hearty pleasure that I welcome all who have come here from Baroda to-day to witness the start of the most costly and most important work of public utility that has been devised since my accession. It will be with still heartier pleasure that I shall summon you again at no distant date, for, in this work, I shall not suffer that there should be any delay to watch the pure stream reach the centre of my capital. For, then Baroda will be blessed with an abundance of wholesome drinking water, and the greatest of the measures, I am designing for the benefit of its inhabitants, will be an accomplished fact. Of the town, which is the centre of Government, I cannot make a commercial centre, though I may be able to introduce some manufactures into it, of which the existing cotton mill is the first sign. But I can and shall improve its condition, and we may look forward to the time when the drainage of Baroda will be satisfactory, when its markets and main streets will be broad and pleasant, when its public buildings will be spacious, when the approaches to it from the surrounding country will be numerous and easy. But no undue haste will be allowed to vitiate real progress. This scheme, of which we are witnessing the start to-day, has been deliberately elaborated, and you have mentioned how His Highness Khanderao Maharaja thought of going south to the Narbudda for water; how the late Minister thought of going north to the Mahi; how he searched high on Powaghad and low in the bowels of the earth; how, finally, the country side was ranged till the modest and useful Surya was found able to satisfy our wants. It has, therefore, been with deliberation, but without loss of time, that the greatest of all the measures I can adopt for the improvement of Baroda has been taken. And this, I may add, the gradual amelioration of the condition of the capital will not be allowed to retard the development of the resources of the State, throughout which large public works have been or will shortly be started in the same spirit of haste with deliberation and utility, with economy, and to those projects the precedence will be given, which promise the most solid, if not the most showy, results. The Engineers, Mr. Reynolds and Mr. Jagannath Sadashivji, will have cordial support as they have our thanks for all that has been well considered so far.

41. His Highness having concluded his address, General Watson rose and replied as follows:—

YOUR HIGHNESS—For the past three years I have watched with great interest the development of this scheme, and I have very great pleasure in offering you my congratulations on the commencement of the work. At the same time I offer your Highness on behalf of your European friends their hearty congratulations. It is also my duty to congratulate you on behalf of the British Government, who spend so much on works of public utility, and who can feel no greater pleasure than to find Rulers of Native States following their example in the same direction. In the name of the ladies and gentlemen here

present, I thank your Highness for having invited us, and though we may not drink of the water, we fully sympathize with the benevolent feelings to which your Highness has thus given effect. I am, indeed, rejoiced to see this great scheme on the verge of realization, and I am sure that we all sympathize with the proud feelings of Mr. Reynolds and Mr. Jagannath on this memorable day. In conclusion, I wish to all engaged in the work, down to the humblest coolie, health and strength to achieve a successful termination to their labours. I believe that the word *bhisti* means one who gives water to the thirsty, and it is said that such a one will, by so doing, gain a place in *Behisht* (or heaven) hereafter. I trust that your Highness, who to-day gives water to lakhs of your thirsty subjects, may enjoy their gratitude and blessings in this world, and the reward of good works in the world to come.

42. Dinner and fireworks in the evening closed the ceremony for which the guests had been invited.

Settlement Department.

43. The work in the Department during the year under report consisted principally of the disposal of claims of the following descriptions:—

1. Claims to Devasthan;
2. Do. Varshasana;
3. Do. Asami and Nemnook;
4. Do. Vatan;
5. Do. Kothli Santh;
6. Do. Sayar Kotha;
7. Do. Villages;
8. Do. Abkari;
9. Do. Land;
10. Do. Land given for Railway purposes; and
11. Do. Giras and Wanta.

44. Compared with the previous reports, it will be seen that claims to Abkari (No. 8) and claims to Land given for Railway purposes (No. 10) have during the year been added to the list of descriptions of claims in the previous year.

45. The following table shews the number of claims under each of the above descriptions disposed of during the year under review:—

No.	Name of Branch.	No. of Claims decided.	Amount claimed.		Amount awarded.		Amount disallowed.		Compensation awarded	Remarks.
			Annual.	Arrears.	Annual.	Arrears.	Annual.	Arrears.		
			Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a.

[a] Of the annual amount awarded, compensation to the extent of Rs. 2,297 was partly granted in disposing of some claims. Out of the arrears awarded, accounts were adjusted for Rs. 99,802-11-0 for advances made to and for certain Kapats due from claimants. The village of Matab under Patan yielding a revenue of Rs. 6,648-8-0 was continued to the Patan Muzumdar.

* Rs. 600 of the village of Matarwadi, ordered to be made Khalsa, have been continued to Maheshwar Mahadev Temple in Patan Mahal. The other village, Sajakuva, has been ordered to be discontinued.

† Rs. 36 and 8 have been allowed to two Devasthans for lands held by them, viz. Bighas 22-12-9 and 9-15-8 respectively made Khalsa.

‡ The Abkari Hak has been purchased by granting compensation to claimants.

46. As special arrangements were made for greater despatch of work in the Giras and Wanta branch of this Department, that portion of the work has been separately noticed.

47. The following table compares the work done during the year with that of the preceding year: —

No.	Name of Branch.	Year.	Number of Claims disposed of.	Ratio of amount awarded to claimed.	
				Annual.	Arrears.
1	Devasthan	1883-84	313	80·04	55·91

		1884-85	793	.....	.....

48. Thus it will be seen that the number of claims decided during the year under notice exceeds those decided during the

preceding year by 129. This improvement is chiefly due to the measure of defining and regulating the powers of the Settlement Commissioner and his Assistants, noted in the last year's report.

49. Rules in connection with the following subjects were passed by His Highness the Maharaja during the year:—

1. In regard to claims on Sayar Kotha (customs revenue).
2. In regard to cash claims in Bighoti villages enjoyed by Zamidars, &c. of Mahals.
3. In regard to claims to compensation for lands ceded for the purposes of the Rajputana-Malwa Railway.
4. In regard to claims by Vatandars to lands and cash allowances.

Giras and Wanta.

50. As mentioned in the last year's report the office of the Special Settlement Officer was closed in April 1884, and a special machinery invested with special powers with a view to induce greater despatch, was organized at the close of the last year for executing the awards of the Special Settlement Officer.

51. The total number of decisions passed by the Special Settlement Officer from the opening of the office in 1878 to its close, amounted in all to 6,765. Of these, 4,113 related to cash and 265 to Wantas and lands; and, according to the practice of issuing orders to Taluka Revenue Officers for the execution of these decisions, 6,043 orders were issued by the Settlement Department before 31st March 1884, thus leaving 722 decisions, for the execution of which orders had remained to be issued.

52. Of the 6,043 decisions ordered to be executed, 5,500 were, after inquiry and verification by the Giras Assistants, found to have been completely executed, and the rest, *viz.* 543, had remained to be given effect to by the Revenue Officers.

53. Thus out of the 6,765 total decisions passed by the Special Settlement Officer, 5,500 decisions were completely executed before 31st March 1884, leaving a balance of 1,265, *viz.*, 722 in which orders for execution had remained to be issued and 543 ordered to be executed but which had remained to be executed.

54. Besides these there were 1,671 decisions passed by the former Settlement Officers, the execution whereof, it was found, had been left untouched under the impression that they had been already executed, and these added greatly to the number of awards for execution.

55. There were thus in all 2,936 awards pending disposal on 1st April 1884.

56. At the commencement of the year under report, however, there were 2,905 decisions for execution. Of these, 1,508 were executed

during the year, thus leaving a balance of 1,397 decisions for the next year. To ascertain, however, whether a particular award was completely executed or not, the Giras Department had to verify each decision, the order issued to give effect to it, and enquire from the Sarkar records and from the claimants themselves whether full effect had been given to the awards passed in their favour. This took up no inconsiderable portion of the Giras Assistants' time.

Boundary Settlement.

57. In the early part of the last official year, Colonel G.L. Warden left on furlough for England, and as he had decided nearly all the cases on the list, the post of the Boundary Commissioner was abolished, and his services were replaced at the disposal of the Military Department of the Bombay Presidency. The strength of the establishment of the Boundary Commissioner was also reduced, and the reduced establishment was placed under the charge of Captain J. H. Sadler, the Assistant to the Agent to the Governor-General, for finishing such work as was left by Colonel Warden.

58. The establishment of the Boundary Agent was also reduced and reorganized,

59. At the commencement of the year under report there was a balance of one undecided case standing over from the last year. Eight new cases were received during the year. There were thus in all nine cases for disposal, and they stood distributed as follows:—

With Khandesh	1
Do. Kaira	1
Do. Palhanpur Agency	7
Total.....	9

60. Of these the case with Kaira was disposed of during the year, and the one with Khandesh—namely, between Songarh and Nawapura—was partially settled.

61. The seven cases with Palhanpur for the settlement of boundaries in dispute between Surwal and the surrounding Baroda and Radhanpur villages were awaiting the decision of the special appeal preferred by this State for jurisdiction over Surwal.

62. No appeals were preferred in the year under report by Baroda or by the opposite parties.

63. The special appeal in the Surwal case preferred to the Government of India in the last year was decided during the year in favor of Baroda.

64. Two boundaries were demarcated during the year by erecting masonry pillars.

65. The settlement of the Runn boundary, between Okhamandal and Navanagar, reported on by Messrs. Kennedy and Harrison last

year, was found not to be in accordance with the line agreed upon as the basis of the settlement. Steps have been taken to get the line settled by those officers amended.

66. The cost of the Boundary Commissioner's establishment, inclusive of the allowance of Rs. 5 per diem sanctioned for him, amounted Rs. 5,484. Baroda's share of this cost amounted to Rs. 4,950.

JUDICIAL.

67. The Judicial tribunals at work during the year were:—

Designation.	Number of Tribunals.	Number of Judges.
Varisht Court	1	3
Sardar Court	1	3
District Judges' Courts, including the Courts of the City Judge, Special Judge, and the Assistant Judge	7	7
Munsiffs' Courts	16	16
Division Subhas	4	4
Magistrates	97	97
Total	126	130

68. The number of tribunals last year was 123. The three additional tribunals consist of the 2nd class Magistrate's Court at Kathore newly established owing to Kathore being made a Mahal by itself, and of the Courts of two probationers posted to the Kadi and Baroda Divisions respectively.

69. The total number of cases decided by the Civil and Criminal tribunals was 33,866 against 28,830 last year. Of these the Civil cases were 19,496 against 15,250 and the Criminal cases were 14,370 against 13,580 last year. It would thus appear that the Civil branch decided more than 4,000 and the Criminal branch about 800 cases more than in the preceding year.

Civil Justice.

70. The following figures will give a comparative idea of the file, disposal, and pending balance of original Civil suits in the year under report and in the year preceding it:—

	1884-85.	1883-84.
Number of Civil Suits pending at the commencement of the year	5,169	4,268
Filed during the year	15,739	12,966
Re-admitted	326	309
Received by transfer or by remand	169	152
Total for disposal	21,403	17,695
Disposed of	16,397	12,526
Pending at the end of the year	5,006	5,169

71. It will be observed from the above figures that the pending balance at the commencement of the present year was greater than at the commencement of the last year by about 900 suits. The file this year is greater than that of the last year by more than 2,700 suits, and the total for disposal by about 3,700 suits. The number of cases disposed of has been nearly 3,900 more than in the last year, so that, notwithstanding the large pending balance and the increased file, the number of pending suits at the end of the year is less than it was at the end of the last year. This is a satisfactory result, and it has justified the hope expressed last year, that the Munsiffs being settled in their new places after the general transfers, which affected the last year's disposal, would show better results in the year to follow. The file of Civil suits has shown a continuous increase since the year 1876-77, but there was a falling off of about a thousand cases last year, for which no special reason was apparent. The result of the present year shows that the falling off was quite accidental, and that the tendency towards a continuous increase has not yet abated. The increase in the file of this year over that of the last year is 21 per cent., whereas the decrease last year was chiefly in the Baroda Division; the increase this year has been general in every division of the State. This increase may to some extent be attributed to good crops and the consequent prospects of easy recovery of debts from agriculturists.

72. Out of the total number of 15,739 suits filed, 14,524 were filed in the Munsiff Courts and 1,215 were filed in the Judges' Courts; that is out of 100 suits filed about 92 were filed in the Munsiff Courts and 8 in the Judges' Courts. The proportion last year was the same.

73. The total value of the suits filed was about 27 lacs of rupees against 19½ lacs last year. The average value of a suit this year comes to about 171 rupees against 149 rupees last year. Out of the total value of about 27 lacs of rupees the 8 per cent. of suits filed in the Judges' Courts show an aggregate value of about 12¼ lacs of rupees, whereas the 92 per cent. of suits in the Munsiff Courts show an aggregate value of about 14¾ lacs of rupees. Last year the value of suits in the Judges' Courts was about 7½ lacs of rupees, and that of the suits filed in the Munsiffs' Courts was about 12 lacs of rupees.

74. Out of the total number of 16,397 suits disposed of, 2,229, *i.e.* about 14 per cent., were struck off the file; the ratio last year was 16 per cent., and in the year previous to it 15 per cent. With regard to the reasons why so many cases were struck off the file, most of the Courts intimate that in a large proportion of these cases the parties really come to an amicable settlement, but they do not give a regular Razinama, as the same is required to be on a stamp paper. It appears that at least about two-thirds of the suits struck off the file are really suits of amicable settlement, and several of those which are struck off owing to the plaintiff's absence, may also be attributable to the same cause, as evidenced by the fact that the number of suits re-admitted is very small.

75. The number of suits decreed on oath was 114 against 70 last year, and those amicably settled, that is withdrawn by Razinama, or compromised, or decreed on confession or by reference to arbitration,

were 4,905, or 30 per cent. of the suits decided; or, in other words, one-third of the suits were amicably settled.

76. The number of suits decided *ex-parte* was 4,096, that is 25 per cent. to the total number of suits disposed of. The ratio last year was 23 per cent. The Munsiff Courts that show a higher ratio in this matter than the average of 25 per cent. are the following:—

	1884-85.	1883-84.
Kadi Munsiff	41	35
Visnagar Munsiff	33	25
Baroda Mahal Munsiff	31	27
Dabhoi ,,	30	36
Patan ,,	28	27
Sinor ,,	27	18

77. Every endeavour is made to reduce the percentage of *ex-parte* decisions as they are passed without hearing the defendant. Nevertheless it has been uniformly found that their ratio comes to about one-fourth of the whole number decided, and there is no doubt that in a very large number of these cases the defendants allow the decree to be passed without appearing in Court, as they have nothing to say against the claims advanced. In 4,028 of such cases the decree was for the plaintiff, whereas in only 68 cases the plaintiff's claim was rejected.

78. The number of contested suits decided during the year was 4,959, that is about 30 per cent. of the total number decided. The ratio last year was 26 per cent., and in the year before the last 25 per cent. This is satisfactory. The Baroda City Munsiff Court had 57 per cent. and the Dabhoi Munsiff Court had 42 per cent of these cases. Out of the contested suits decided, 4,394 were for the plaintiff, while 565 were for the defendant, *i.e.* in 89 per cent. of such suits the plaintiff's claim was awarded, whereas in only 11 per cent. it was found fit for rejection. The proportion last year was 88 and 12 per cent. respectively.

79. The total pecuniary value of the suits disposed of was about 21½ lacs of rupees against 19¼ lacs last year.

80. The average duration of contested suits was 213 days against 212 days last year, and for other than contested suits the average duration was 98 days against 92 days last year. In the Judges' Courts the average duration for contested suits was 218 days against 231 days last year and 266 days in the year before the last, and of other suits the average duration was 94 days against 82 days last year. In the Munsiff Courts the average duration for contested suits was 212

days against 210 days last year, and for other than contested suits 99 days against 93 days last year. It thus appears that the average duration of suits was nearly the same as in the last year. The attention of the subordinate Courts has been drawn to the desirability of using greater despatch in the disposal of cases, justice without undue delay being one of the main objects aimed at by the Department.

81. It may be useful to review the course which these averages have taken in successive years and the other facts connected with them, as they may perhaps suggest the true cause of the increased average durations. The following figures may be studied with advantage in this respect:—

Years.	Number of Cases filed.	Total number for disposal.	Total number disposed of.	Pending balance at the end of the year.	Those which were pending for more than a year.	Average duration.	
						Contested Suits.	Other Suits.
1877-78 ...	8,159	11,344	9,366	1,978	389	230	76
1878-79 ...	9,622	11,947	10,043	1,904	318	180	67
1879-80 ...	10,059	12,264	10,127	2,137	234	191	71
1880-81 ...	12,617	15,171	12,529	2,642	193	159	68
1881-82 ...	13,165	16,252	12,776	3,476	373	163	82
1882-83 ...	13,868	17,781	13,513	4,268	575	186	87
1883-84 ...	12,966	17,695	12,526	5,169	1,149	212	92
1884-85 ...	15,739	21,403	16,397	5,006	1,116	213	98

82. It will be observed from the above figures that in the year 1877-78 the average was very high, *i.e.* 230 days for contested decided suits; but it was remarked in that year's report that the high average was owing to many old suits of the past *régime* pending decisions. In that year there were 389 pending suits of more than one year's standing. The next three years show a vigorous effort to reduce the long pending suits simultaneous with overtaking, as far as possible, the current work which was also increasing. And the result of it was that at the end of the year 1880-81 there were only 193 pending suits above one year's duration, and the decisions of fresh suits being also pretty commensurate with the increased current work, the average duration of contested suits came down to 159 days. In the year 1881-82 the total number of suits for disposal increased by about 1,100 suits over the number for the previous year, whereas the total number disposed of was only about 250 suits more than the number decided in the previous year. This increased the general pending balance and also the number of suits above one year's duration. The next year showed a still further increase by about 1,500 of suits for disposal, whereas the total number disposed of did not keep

pace with the increased work. This resulted in an increase of the average duration of contested suits, and an increased balance of the general pending arrears and of the suits of more than one year's duration. The years 1883-84 and 1884-85 show a very great increase of the general pending balance and of the suits above one year's duration; and although in the year under report the arrears under both heads have been reduced somewhat in addition to overtaking the increased current work of the year, viz., about 3,800 additional suits for disposal, the result, as was to be expected, is that the average duration of contested suits shows no improvement. On the other side it has to be borne in mind that the work of the Courts has nearly doubled during the last 8 years, the file having increased from 8,159 suits in 1877-78 to 15,739 suits in the year under report. The expected result of this increase is observed in the increase of the average duration of other than contested suits. The lowest average was 67 days in 1878-79, and this year shows the highest average 98 days. These figures make it pretty plain that until the increased pending balance, and especially the suits of more than one year's duration be cleared off, the average duration of contested suits cannot be expected to materially diminish.

83. It may be here noted that in the Bombay Presidency the reduction of average duration of suits disposed of stood in 1882 at 209 days for contested and 98 days for uncontested suits, including under that heading the suits in the Subordinate Judges' Courts and the possessory suits in the Mamlatdar Courts. In 1883 the averages were perceptibly low, being 126 and 63, but again in 1884-85 there were 67·12 days for contested suits and 36·23 for uncontested ones.

84. Out of the 1,116 pending suits of more than one year's duration 737 are of under two years' duration. Out of the total of 5,006 pending suits, 2,084 are under three months' duration and 790 above three months' and under six months' duration, so that the two together make 2,874 as the number of suits under the average period of six months' duration. Those above six months come up to 2,132.

85. Proceeding to the classification of suits filed, those relating to money, of course as usual, preponderate. There were 14,737 of these suits out of a total of 15,739, thus giving a ratio of 94 per cent., the same as in the last year. Out of these money suits 7,188 were on written obligation, *i.e.* 48 per cent. against 54 per cent. last year; those on account stated were 4,922, *i.e.* 33 per cent. against 29 per cent. last year; and those on running account were 1,894, *i.e.* 13 per cent. against 12 per cent. last year,—so that 94 per cent. of the money suits were evidenced by bonds or accounts stated or running. The number of suits relating to immoveable property was 770, *i.e.* 5 per cent. to the total number of suits filed. The ratio last year was the same. The other suits numbered 232, *i.e.* about 1 per cent., the same as in the last year.

86. The classification of suits filed according to their pecuniary values shows that there were 12,315 suits each under Rs. 100. This gives a ratio of 78 per cent. to the total number of suits filed. The ratio last year was the same. Out of these, 4,413 suits, *i.e.*

about 28 per cent of total number were under Rs. 20 each. The number of suits each above Rs. 100 and not exceeding Rs. 3,000 was 3,354, *i.e.* about 21 per cent. against 22 per cent. last year. Suits belonging to the pecuniary jurisdiction proper of the Judges' Courts, *i.e.* each above Rs. 3,000, number only 56 out of the total number of 15,739 suits, but they represent a total pecuniary value of about 11 lacs of rupees, while the remaining 15,683 represent a total pecuniary value of about 16 lacs of rupees. Last year there were 35 suits, and their total pecuniary value was about 6¼ lacs of rupees. The number of suits each above Rs. 1,000 and not exceeding Rs. 3,000 was 154, thus justifying the observation made last year that the increased pecuniary jurisdiction of the Munsiffs from Rs. 1,000 to Rs. 3,000 has not realized the expectation of increasing the suits of this class. Though the number is greater than in the last year, it is smaller than in the year 1881-82.

87. The Sardar Court comes first as regards the total pecuniary value of suits filed, it having filed suits of the value of Rs. 5,81,541 against Rs. 4,14,707 last year. Two suits filed in that Court are valued at Rs. 4,30,447, but the payment of stamps in the first instance has been excused in these suits. The City Munsiff Court comes next in this respect, the total pecuniary value of the suits filed in it being Rs. 2,99,991. The Kadi District Court comes third in this respect, it having filed suits of the total pecuniary value of Rs. 2,63,956. One suit filed in that Court in *formâ pauperis* is valued at Rs. 2,05,908. The City Judge's Court filed suits of the total value of Rs. 1,84,621, and the three Courts in the city, viz., the Sardar Court, the City Judge's Court, and the City Munsiff Court, give a total pecuniary value of Rs. 1,066,153, *i.e.* about 40 per cent. of the aggregate pecuniary value of the suits filed in the whole State. The ratio last year was 42 per cent. The Kadi District comes next to the Baroda City this year, whereas the Baroda District, which usually stands second, takes the third place this year. The Nowsari Division comes fourth this year, and the Amreli District comes last.

88. As regards the number of suits filed, the first place is taken this year by the Kadi District, it having filed 5,487 suits against 4,033 last year. Every Court in that district, except the Dehegaum Munsiff Court, shows an increase of file over that of the last year.

89. The Baroda District, which comes second, filed 4,419 suits against 4,044 suits last year. The Baroda City stands third, it having filed 2,561 suits against 2,090 last year. The Amreli District, which comes fourth, filed 1,651 suits against 1,500 last year, and the Nowsari District, which comes last, filed nevertheless 1,621 suits against 1,299 last year. There has thus been an increase of file everywhere over the last year.

90. The details of the number, nature, and values of the suits disposed of during the year will be found in the tabular statements (Civil Nos. 8 and 5) in the Appendix.

91. As regards the execution of decrees there were at the beginning of the year 2,551 Darkhasts pending disposal against 2,061

last year. These Darkhasts referred to 2,468 decrees, the unrealized value of which was about 20½ lacs of rupees. Last year the corresponding figures were 2,011 decrees and about 24 lacs of rupees. The total number of Darkhasts filed during the year was 11,720 against 10,041 last year, and they referred to 10,907 decrees against 9,326 last year. The unrealized value of the said 10,907 decrees was about 16¾ lacs of rupees against 16 lacs last year. Including the Darkhasts received by transfer there were in all 14,280 Darkhasts for disposal, referring to 13,384 decrees, the total unrealized value of which was about Rs. 37½ lacs. Last year the corresponding figures were 12,128 Darkhasts, 11,355 decrees, and about 40 lacs of rupees unrealized value. The total number of Darkhasts disposed of was 11,272, *i. e.* about 79 per cent. of those for disposal. The ratio last year was the same. These disposed of Darkhasts referred to 10,412 decrees against 8,887 decrees and 9,572 Darkhasts last year. The total amount realized was Rs. 5,64,508 against 3,87,800 last year. This gives 16 per cent. as the ratio of actual relief obtained by the decree-holders to the unrealized value of the decrees sought to be executed. The ratio last year was 10 per cent. The realizations in the Judges' Courts were about 13 per cent. and in the Munsiffs' Courts 18 per cent. against 6 and 17 per cent., respectively, last year. The average duration of Darkhasts disposed of was 143 days against 100 days last year.

92. The number of Darkhasts pending disposal at the end of the year was 3,008, and they referred to 2,972 decrees, the unrealized value of which stood at about 17¼ lacs of rupees. The corresponding figures for the last year were 2,551 Darkhasts, referring to 2,468 decrees, the unrealized value of which stood at about 21 lacs of rupees. The balance of pending Darkhasts is greater by about 500 than the balance last year, but the number for disposal was greater by more than 2,000 than that in the last year. It is also noticeable that, notwithstanding the greater pending balance, the unrealized value of the pending decrees is less by about 3½ lacs of rupees than that in the last year, the realizations this year having been proportionately greater. Of the pending Darkhasts at the end of the year, 2,533 were under one year against 2,056 last year. Those above one year and under three years were 397 against 404 last year, and those above three years were 78 against 91 last year. The greater portion of the 78 Darkhasts is in the Courts situated in the Capital City. The reasons why the execution of decrees takes a very long time in the Capital City have been explained in the previous reports (para. 94 of the Report for 1880-81) The average duration of the disposed of Darkhasts has increased this year. With regard to delays the Courts state the following as the principal reasons thereof, viz.: (1) Appeals and special appeals allowed against the order for raising or continuing the attachment made in execution, cause the execution proceedings to be suspended till the decision of the appeals. (2) Many decrees are executed by instalments or from the monthly portion of the salaries attached, and the Darkhasts consequently continue long on the file undisposed of. (3) Long correspondences ensue owing to the requisitions made by the Sarkar authorities to pay, out of the sale proceeds of a judgment debtor's property, the sums that he might owe to Government. The

time has probably come when appeals against orders in attachment matters may be dispensed with to a certain extent.

93. The City Munsiff Court comes first as usual as regards the number of Darkhasts disposed of, it having disposed of 1,616 Darkhasts againsts 1,590 last year, the value satisfaction of the decrees obtained thereby being Rs. 43,500 against Rs. 30,476 last year. The Patan Munsiff Court comes next, it having disposed of 1,457 Darkhasts and realized Rs. 36,986. The Petlad and Kadi Munsiff Courts executed each Darkhasts above 1,000, the figures in the other Courts being much smaller than that number. The highest amount realized was in the City Judge's Court, being Rs. 1,02,222.

94. Looking to the details of execution, it appears that out of the 11,265 Darkhasts disposed of finally, 3,408, or about 30 per cent., were struck off the file; 2,840, *i. e.*, about 25 per cent., were disposed of under Razinama; and 3,017, *i. e.* about 27 per cent., were disposed of as the decree-holders applied for stay of execution. The ratios last year were about 30 per cent. for Darkhasts struck off the file, 27 per cent. for Darkhasts disposed of under Razinamas, and 24 per cent. for Darkhasts disposed of under application for stay of execution. Coercive process in the shape of imprisonment was resorted to in the case of 164 Darkhasts, which gives a ratio of about 1½ per cent. against 1⅓ per cent. last year, and the coercive process in the shape of auction sale of immoveable and moveable property was resorted to in the case of 440 Darkhasts, which gives a ratio of 3 per cent., the same as in the last year. The sales of immoveable property realized Rs. 48,378 against Rs. 34,259 last year, and the sales of moveable property realized Rs. 21,825 against Rs. 5,622 last year. The auction sales of immoveable property realized about 81 per cent. and of moveable property about 87 per cent. of the estimated values of those properties, the ratios last year being respectively 60 and 53 per cent.

95. Turning to the Appellate work of the various Courts, it appears that the total number of appeals from decrees filed during the year was 1,011 against 884 last year and 762 in the year before the last. Of these 1,011 appeals, 796 were regular and 215 special appeals. The corresponding figures last year were 677 regular and 207 special appeals. The total number of appeals for disposal, including those that were pending, readmitted, and transferred, was 1,660 against 1,374 last year. Of these 876 were disposed of against 767 last year. It will thus be observed that both the file and the disposal have been greater than in the last year.

96. The Varisht Court decided 217 appeals against 128 last year. Among the Judges' Courts the greatest number (196) was decided by the Baroda District Judge's Court against 228 last year. Of these, the District Judge himself disposed of 127 and the Special Judge 69. Next to the Baroda District Judge's Court, the Kadi District Judge's Court decided 172 appeals against 193 last year. Of these, the District Judge himself disposed of 91 appeals and the Assistant Judge 81. In the Baroda City Judge's Court the number of appeals disposed of was 163 against 141 last year. Out of this

number the Judge himself disposed of 158 appeals and the Special Judge 5. The Nowsari District Judge decided 98 appeals against 63 last year, and the Amreli District Judge decided 30 appeals against 14 last year. The following table will show the aggregate amount of work in the shape of decided cases, either Civil or Criminal, Original or Appellate, done by each of the above Courts:—

Designation of Courts.	Number of Cases decided during the year.									Result for the previous year.	Remarks.
	Civil.				Criminal.						
	Original.		Appeals.		Original.		Appeals.		Total.		
	Suits.	Miscellaneous Cases.	From Decrees.	From Orders.	Offence Cases.	Miscellaneous cases.	From decisions in Offence Cases.	From decisions in Miscellaneous Cases.			
Varisht or High Court...	...	11	217	154	30	2	464	121	999	834	Besides this, the Varisht Court disposed of 1,305 petitions, Civil and Criminal, presented to it for interference with the action of the lower Courts. It also disposed of 67 appeals, Civil and Criminal, summarily, as there appeared no *prima facie* grounds for admitting them.
City Judge	18	58	158	111	18	6	26	28	423	359	
District Judge, Baroda...	4	14	127	64	30	1	38	63	350	262	
Special Judge, Baroda...	8	6	74	11	26	...	8	28	161	267	
District Judge, Kadi ...	4	7	91	29	40	2	128	29	329	308	
Assistant Judge, Kadi...	1	7	81	24	31	...	...	...	144	243	
District Judge, Nowsari.	5	19	98	40	25	3	30	20	248	171	
*District Judge, Amreli	1,055	45	30	7	19	...	8	9	1,173	944	

97. The total value of the appeals filed during the year was Rs. 3,72,887 against Rs. 2,42,337 last year.

98. The number of appeals pending at the end of the year was 784 against 607 last year. Although the disposals have been greater than in the last year, the pending balance has increased owing to the greater file of the year. In every Court, except the Amreli District Court, the pending balance has increased more or less. The principal increase is, however, in the Varisht Court and the Baroda District Court. In the Varisht Court it has increased by 75 appeals, and in the Baroda District Court by 63 appeals. As a third Judge has been already temporarily appointed in the Varisht Court, it is hoped that the next year's result will show a considerable diminution in the pending balance. Some special arrangements will have to be made for clearing off the arrears in the Baroda District Court. The arrears in the other Courts are not heavy.

99. Out of the 784 pending appeals, 618 are of less than one year's duration against 475 last year, 131 against 110 last year are of more than one and less than two years' duration, 33 against 20 last year are of more than two and less than five years' duration, and two are of more than five years' duration. In all there are 166 pending appeals above one year's duration against 132 last year. Out of these,

* It files suits of the pecuniary jurisdiction of Munsiff Court from the Amreli, Damnagar and Dhari Mahals.

102 appeals are pending in the Varisht Court and 64 in the Judges' Courts against 59 and 73, respectively, in the last year.

100. The average duration of decided appeals was 266 days for contested and 189 days for other appeals against 218 and 138 days, respectively, last year.

101. As in the disposal of original suits, so also in the disposal of the appeals, the general average duration has increased considerably. One principal reason of the frequent adjournments in appellate cases is the pressure of criminal work. In the District Courts the Sessions work frequently interferes with the prompt disposal of appeals, as it is always uncertain as to how many Sessions cases will come up in a month and what time they will occupy. They have, as a rule, to be conducted continuously from day to day till they are finished, and they not unfrequently disturb the board of Civil appeals. It may be noted here that in the year 1883-84 the average duration of appeals in the Bombay Presidency was 279 days, and in 1884-85 297·93, so that the Courts there are labouring under the same disadvantage as the Courts here, and probably for one and the same reason.

102. There were 730 appeals filed from the decisions of the Munsiffs, who decided 15,103 original suits during the year, which gives a ratio of about 5 per cent. between appeals filed and the original suits decided by the Munsiffs during the year. The ratio last year was the same. The total number of appeals decided by the Judges was 641 against 633 last year. Of these, in 350 appeals, *i.e.* in about 55 per cent., the decrees of the Munsiffs were confirmed, that is were left unaltered; whereas in the remaining 45 per cent. the decrees of the original Courts were either modified or reversed absolutely or by remanding the suits. The proportion last year was 54 and 46 per cent. respectively. The average duration of contested appeals decided by the Judges was 224 days against 186 days last year. For other appeals the average duration was 173 days against 132 days last year.

103. The proportion of regular appeals preferred to the Varisht Court from the original decrees of the Judges to the total of original suits decided by them comes to about 5 per cent. against 6 per cent. last year. As to disposal, about 69 per cent. of the decrees appealed from were confirmed, *i.e.* left unaltered; whereas in the remaining 31 per cent. they were either modified or reversed absolutely or remanded. The proportion last year was 57 and 43 per cent. respectively. The average duration of regular appeals disposed of by the Varisht Court was 464 days for contested and 467 days for other appeals against 269 and 333 days, respectively, last year.

104. The proportion of special appeals filed in the Varisht Court to the number of regular appeals decided in the Judges' Courts comes to about 34 per cent. against 33 per cent. last year.

105. As regards disposal, the decrees of the lower Appellate Courts were confirmed in about 77 per cent. of the special appeals decided, while in the remaining 23 per cent. they were either modified or reversed absolutely or by remanding the appeals. The proportion last year was 82 and 18 per cent. respectively. The average duration

of decided special appeals was 331 days for contested and 245 days for other appeals. The figures for the last year were 275 and 185 days respectively.

106. The following statement presents in one view the Civil work done by the various tribunals:—

Designation of Court.	Original Suits decided.	Miscellaneous Cases.	Appeals from Decrees decided.	Miscellaneous Appeals decided.	Applications in execution of Decrees decided.	Total.	Remarks.
Varisht or High Court ...	.....	11	217	154	.....	382	Besides this, the Varisht Court disposed of 930 petitions presented to it for *interference* with the action of the lower Courts. It also disposed of 13 civil appeals against 8 appeals last year summarily, as there appeared no *prima facie* grounds for admitting appeals.
Judges' Courts, including the Special and Assistant Judge.	1,230	155	659	236	939	3,269	
Munsiffs' Courts	15,167	1,617	.....	.....	10,333	27,117	
Total.....	16,397	1,783	876	440	11,272	30,768	
Result for the year 1883-1884.....	12,528	1,561	767	394	9,572	24,822	

Criminal Justice.

107. The comparative figures for the year under report and for the previous year, of the total number of original criminal cases for disposal, disposed of, and remaining undisposed of, together with the number of accused persons affected thereby, are as under:—

	1884-85.		1883-84.	
	Number of Cases.	Number of Accused	Number of Cases.	Number of Accused.
Number of original Criminal cases pending at the commencement of the year.	373	1,095	323	847
Filed during the year	9,097	20,080	8,186	18,158
Received by committal or by reference or otherwise	439	973	354	812
Total for disposal.....	9,909	22,148	8,863	19,817
Disposed of.....	9,521	21,211	8,490	18,722
Pending at the end of the year.....	388	937	373	1,095

108. It will be seen from the above figures that the number of cases filed during the year is in excess of that of the previous year by

about 900, and the number of accused persons affected thereby is in excess of the number of the previous year by about 2,000. The total number of cases for disposal was 9,909 affecting 22,148 accused against 8,863 cases affecting 19,817 accused last year. Of these, 9,521 cases affecting 21,211 accused were disposed of against 8,490 cases affecting 18,722 accused last year, *i.e.* about a thousand more cases affecting about 2,500 accused were decided in the year under report than in the previous year. The pending balance at the end of the year was 388 cases affecting 937 accused against 373 cases affecting 1,095 accused last year.

109. The following presents a summary of the Criminal work done by the Varisht Court:—

Description of Cases.	Pending.	Filed.	Total.	Disposed of.	Pending.	Remarks.
Referred Cases	1	31	32	30	2	Besides this, the Varisht Court disposed of 375 miscellaneous criminal petitions presented to it praying for interference with the action of the lower Courts. It also disposed of 54 criminal appeals against 81 appeals last year summarily, as there appeared no *primâ facie* grounds for admitting the appeals.
Regular Appeals	2	35	37	36	1	
Special Appeals	3	24	27	27	...	
Appeals against Acquittals	17	80	97	90	7	
Appeals for enhancement of sentence	...	12	12	12	...	
Revision Cases	10	302	312	299	13	
Miscellaneous Referred Cases	...	2	2	2	...	
Miscellaneous Appeals	19	110	129	121	8	
Total	52	596	648	617	31	
Result for the year 1883-84	47	604	651	599	52	

110. The total number of criminal cases disposed of by the Varisht Court was thus 617 against 599 last year. The average duration of referred cases disposed of by this Court was 44 days, the same as in the last year; that of the regular appeals was 26 days against 35 days last year; and that of the special appeals was 41 days against 38 days last year.

111. The following presents a summary of the work done by the Sessions Courts.

Description of Cases.	Pending.	Filed.	Total.	Disposed of.	Pending.	Remarks.
Original Cases.						
Offence Cases	37	207	244	212	32	
Miscellaneous Cases	4	21	25	21	4	
Appeals.						
From decisions in Offence Cases	27	322	349	327	22	
From decisions in Miscellaneous Cases	51	326	377	346	31	
Total	119	876	995	906	89	
Results for the year 1883-84	106	861	967	848	119	

112. It thus appears that the Sessions Courts disposed of in all 906 cases against 848 last year. The average duration of original offence cases disposed of by these Courts from the date of filing in these Courts to the date of disposal was 63 days against 67 days last year. The average duration of appeals in offence cases disposed of was 42 days against 37 days last year. The average duration of Sessions cases has thus slightly diminished from, while that of appeal cases has slightly increased over, that of the previous year. The average duration in the Sardar Court has fallen from 214 days last year to 195 days this year, and that of the Nowsari Judge's Court from 123 days last year to 53 days this year. The lowest average duration in Sessions cases, viz. 34 days, is in the Amreli Judge's Court. The Kadi Sessions Judge's Court decided the greatest number of Sessions cases. In appeal cases the Nowsari Judge's Court shows an average duration of 77 days, the Baroda District Subha's Court an average of 72 days, and the Baroda District Judge's Court an average of 52 days. With the exception of these Courts the average duration ranges between 17 and 30 days.

113. The number of miscellaneous original criminal cases in the Session's Courts was, as usual, very small, but the number of miscellaneous appeals filed was 326, whereas the number of appeals filed in offence cases was 322. Thus the number of miscellaneous appeals was nearly equal to that of appeals in offence cases. The average duration of miscellaneous appeals disposed of was 70 days against 56 days last year. In the Varisht Court also there were filed 110 miscellaneous appeals, whereas there were only 35 regular appeals and 24 special appeals in offence cases. The average duration of miscellaneous appeals disposed of in the Varisht Court was 68 days.

114. Though the Sessions work showed a continuous decrease till the year 1882-83 it has been steady since that year. The number of cases received by committal in the Sessions Courts in that year was 180, in the following year the number was 179, and in the year under report 181. This is an important fact, when it is remembered that the general file of original offence cases has increased, thus indicating that the increase is not in the heinous crime cases.

115. The cost incurred on account of public prosecutors was Rs. 7,321 against Rs. 3,314 last year. Government also paid Rs. 1,064 to Vakils engaged for persons accused in murder cases wherein the accused were too poor to engage the services of professional gentlemen and yet were anxious to have their cases conducted by them.

116. The following presents a summary of the work in the Courts of the Magistrates:

Description of Cases.	Pending.	Filed.	Total.	Disposed of.	Pending.
Offence Cases	335	9,298	9,633	9,279	354
Miscellaneous Cases	252	3,591	3,843	3,568	275
Total	587	12,889	13,476	12,847	629
Result for the year 1883-84	572	12,148	12,720	12,133	587

117. It will be seen from the above figures that offence cases in these Courts filed during the year were 9,298, whereas last year the number was 8,322, thus giving an excess of 976 cases; the number of miscellaneous cases was 3,591 against 3,826 last year, thus showing a slight diminution. The total number of offence cases for disposal with the Magistrates was 9,633. These involved 21,618 persons as accused against 8,603 cases involving 19,261 persons as accused last year. The number of offence cases disposed of was 9,279 involving 20,747 persons as accused against 8,268 cases involving 18,248 persons as accused last year. Of the 9,279 cases thus disposed of, 192 cases involving 346 accused were committed to the Sessions Courts against 177 cases involving 308 accused last year; 223 cases involving 616 accused were either referred or transferred to other Courts against 161 cases and 398 accused last year; whereas the remaining 8,834 cases involving 19,785 accused were finally disposed of by the Magistrates themselves against 7,930 cases involving 17,439 accused last year.

118. The average duration of offence cases disposed of in the Courts of the Magistrates was 22 days against 23 days last year. The average duration of disposed of cases in the 1st Class Magistrates' Courts was 33 days against 36 days last year. The average duration of cases disposed of by 2nd Class Magistrates was 23 days, the same as in the last year; and the average duration of cases disposed of by 3rd Class Magistrates was 20 days against 21 days last year. The Town Magistrates' Courts show an average of 12 days against 8 days last year. These last mentioned Courts and the Magistrates' Courts in the Baroda City cut a bad figure this year as regards the average duration. The average duration in the City 1st Class Magistrate's Court was 26 days against 7 days last year, and that in the 2nd Class Magistrate's Court was 19 days against 11 days last year. The other Courts show an improvement in the matter of average duration.

119. The general average duration per case for the total number of offence cases disposed of in all the Courts of the State comes to 23 days against 24 days last year. The average duration of disposed of miscellaneous cases comes to 35 days against 25 days last year. The total number of offence cases finally disposed of in all the Courts of the State, *i.e.*, in the Magistrate's and Superior Courts together, was 9,048 involving 20,183 accused against 8,116 cases and 17,839 accused last year. The particulars as regards the disposal of these accused are as follow :—

	Number of Persons.	Percentage. 1884-85.	1883-84.
Let off under Razinama...	7,877	39	36
Struck off the file.....	2,085	10	8
Acquitted or discharged...	4,928	25	26
Convicted	5,210	26	30
Died, escaped, pardoned...	83	...	...
Total.....	20,183		

120. The number of persons let off under Razinama has increased from 36 per cent. last year to 39 per cent. this year, and the number of persons, the cases against whom have been struck off the file, has also increased from 8 to 10 per cent., so that 49 per cent., or nearly one-half of the persons complained against, were let off, because a good feeling was established between the parties concerned, or because the complainants took no steps to prosecute the accused. In what class of cases this mode of settlement is the greatest will appear further on. The number of persons acquitted or discharged has been 25 per cent. against 26 per cent. last year, and the number of convictions has been 26 per cent. against 30 per cent. last year. The net result, therefore, is that nearly three-fourths of the persons accused have come out of the Courts as innocent persons, either because no evidence of their guilt was laid before the Courts on account of the cases having been withdrawn or struck off the file, or because the evidence produced failed to show their guilt. Last year the ratio was 70 per cent.

121. The total number of witnesses examined by all the Criminal Courts of the State was 26,465, which gives an average of about 3 witnesses per case as in previous years.

122. Out of the 20,080 persons against whom complaints of offences were preferred, 5,798 persons, that is about 29 per cent., were arrested by the Police against 30 per cent. last year, the rest having been apprehended on warrant or having appeared on summons or voluntarily.

123. The number of persons committed to the Sessions was 349, while the total number of persons tried was 21,211, which gives a ratio of a little more than 1½ per cent. against about 2 per cent. last year. The number of persons whose cases were referred to the higher authorities was 294, against 240 last year.

124. The classification of cases filed and finally disposed of, according to the principal heads of offences, together with the number of accused persons involved in them, gives the following results.

125. Out of the 9,097 cases filed during the year involving 20,080 persons as accused, 4,022 cases, *i.e.*, 44 per cent., were those against property. The number of cases last year was 3,582, *i.e.*, about 43 per cent. There were 1,791 cases of theft against 1,688 cases last year. This gives a ratio of about 20 per cent. to the total number of cases filed against 21 per cent. last year. The other subheads under the general class of offences against property show nearly the same figures as in the last year. There were 16 cases of dacoity against 14 cases last year.

126. The number of cases referring to offences against the human body was 3,239 against 2,999 last year, and gives a ratio of about 36 per cent. against 37 per cent. last year to the total number of cases filed. The principal subheads under this class of offences show nearly the same figures as in the last year, except those of murder and culpable homicide not amounting to murder. Last year there were filed 17 cases of murder and 14 of culpable homicide not amounting

to murder, but this year the numbers increased to 22 and 24 respectively. The miscellaneous offence cases under this head show an excess of 230 cases over the number last year, which in its turn was in excess of the figure in the previous year by about 500. It is these petty cases that are on the increase.

127. The offences against public tranquility show a file of 88 cases and those by or against public servants 106 against 98 and 104 cases respectively last year. There were 237 cases of offences against public justice, the number last year being 218. There were 27 cases of forgery against 22 last year, and there were 69 cases of enticing away a married woman against 61 last year. The figures under the other heads of offences require no special notice.

128. There was no case of emasculation or of infanticide filed during the year under report.

129. Looking to the disposals, it appears that out of the total number of 9,048 cases involving 20,183 persons as accused finally dealt with, there were 3,946 cases relating to offences against property, which gives a ratio of about 44 per cent. against 43 per cent. last year. There were decided 3,296 cases relating to offences against the human body, which gives a ratio of about 36 per cent. against 35 per cent. last year; 25 cases of murder and 17 cases of culpable homicide not amounting to murder were tried during the year against 17 cases of each kind last year. 179 cases of robbery and 21 of dacoity were tried during the year against 214 and 13 respectively last year.

130. The ratio of convictions to the total number of accused finally dealt with was, as already shown above, only 26 per cent. Last year the ratio was 30 per cent. It has been pointed out in the last year's report that the gradual diminution year by year in the percentage of acquittals is not owing to the increase of the percentage of persons acquitted or discharged, but owing to the increase of the percentage of persons let off under Razinamas or on account of the cases being struck off the file. The reduction in the percentage of convictions this year over that of the last year is attributable to the same cause, for though the acquittals and discharges are less by one per cent. this year, there is an increase of 3 per cent in the number of persons let off under Razinama, and an increase of 2 per cent. in the number of persons let off owing to the cases having been struck off the file, and these account for the diminished percentage of convictions. The relative difference in the percentage of convictions in heinous offences and in those of a minor character will appear further on.

131. In offences relating to property the ratio of persons convicted (2,427) to the total number of persons (7,914) tried for that class of offences comes to about 31 per cent. against 35 per cent. last year; but the principal subheads under this class show the following results: (1) The percentage of convictions in cases of theft comes to 53 per cent. against 55 per cent. last year; (2) that in robbery cases comes to 51 per cent., the same as in the last year; (3) that in dacoity cases comes to 69 per cent. against

60 per cent. last year; (4) that in house-breaking comes to 62 per cent. against 60 per cent. last year; and (5) that in dishonestly receiving stolen property comes to 44 per cent. against 55 per cent. last year. These classes of offences relating to property may be regarded as heinous, and in all of them, except that of dishonestly receiving stolen property, the ratio of convictions is above 50 per cent. The percentage of convictions in the offences of arson comes to about 29 per cent. against 41 per cent. last year. It is always difficult to secure full evidence in these cases. In the offences of criminal breach of trust and cheating, which many a time border on a civil claim, and in which the Magistrates are not interfered with if they accept Razinamas, the percentage of convictions has been 18 per cent. for criminal breach of trust and 15 per cent. for cheating against 23 and 13 per cent. respectively last year. The miscellaneous offences under this head show only 10 per cent. of convictions against 13 per cent. last year. Razinamas are freely allowed in these cases. It is thus clear that the percentage of convictions in the graver offences is fair, and that the very small percentage of convictions in minor offences affects the general percentage.

132. In offences against the human body the ratio of persons convicted (924) to the total number of persons tried (8,031) comes to about 12 per cent., the same ratio as in the last year; but out of these offences the convictions in murder cases come to 33 per cent. against 50 per cent. last year; and those in offences of culpable homicide not amounting to murder come up to 27 per cent. against 63 per cent. last year. The convictions for these offences in the year before the last were 29 and 32 per cent. respectively. In offences of rape, the convictions have been 43 per cent. against 50 per cent. last year. Thus all these three classes of offences against the human body, which are very dangerous to the general society, show far less proportion of convictions than in the last year, though it is to be noted that the proportion shows great fluctuations in different years. The offence of grievous hurt shows 47 per cent. of convictions. The miscellaneous offences against the human body in which Razinamas are freely allowed show 10 per cent. of convictions. In offences by or against public servants the convictions have been about 49 per cent. against 54 per cent. last year.

133. The above results show that in the graver offences against property about one-half of the persons accused have been convicted. In the graver offences against the human body about one-third of the persons accused have been convicted, and that in minor offences only 10 out of every 100 persons have been convicted.

134. The following is a summary of the punishments awarded in the year under report with corresponding figures for the last year:—

	No. of Persons	
	1884-85.	1883-84.
Sentenced to death	7	3
Imprisoned	473	568
Fined	2,780	2,758

	No. of Persons. 1884-85	1883-84
Flogged	60	67
Imprisoned and fined	1,850	1,799
Imprisoned and flogged	23	33
Fined and flogged	1	2
Imprisoned, fined, and flogged	14	31
Bound to security, &c.	2	2
Total	5,210	5,263

135. Out of the seven murder convicts, who were hanged this year, two were hanged in the Baroda District, two in the Kadi District, one in the Baroda City, one in the Nowsari District, and one in the Amreli District. The sentence of life imprisonment was passed on 6 persons against 16 last year; 92 persons against 52 last year were sentenced to periods of imprisonment exceeding two years and not exceeding 7 years. The total number of persons visited with heavy punishment for heinous offences was therefore 105 against 73 last year.

136. Out of the total number of 2,360 persons imprisoned, 295 persons or about 12 per cent. were sentenced to simple imprisonment, the remaining 88 per cent. being sentenced to rigorous imprisonment. The ratios last year were the same. Out of the 2,065 persons sentenced to rigorous imprisonment, 980 or about 42 per cent. of the whole number imprisoned, received rigorous imprisonment under or up to one month; 786 persons or about 33 per cent. above one and up to six months; 201 persons or about 9 per cent., above 6 months and up to 2 years. The corresponding ratios last year were 42, 31, and 9 per cent. respectively.

137. The total number of persons fined was 4,645. Of these 4,312 were fined up to Rs. 25 each, which gives a ratio of about 93 per cent., the ratio last year being 91 per cent. Of these again, 2,943, *i.e.*, about 68 per cent., were fined up to Rs. 5 each, the ratio last year being 62 per cent., and 2 persons were fined each above Rs. 500 and up to Rs. 1,000. The total amount of fine inflicted was in mixed currency Rs. 53,284 against Rs. 62,257 last year. The realized amount, including the previous outstandings, was Rs. 39,652 against Rs. 42,855 last year. Out of the realized amount, Rs. 3,172 against Rs. 5,221 were paid by way of compensation to complainants, &c., and Rs. 4,922 against Rs. 5,486 were refunded, as the sentences were reversed or modified on appeal or revision.

138. The sentence of flogging was passed on 98 persons. This gives a ratio of about 2 per cent., the same as in the last year, to the total number of persons convicted.

139. Out of the total number of persons punished, 4,911 were males and 299 were females, *i.e.*, for every 17 males punished 1 female was punished. The proportion last year was 14 males to 1 female.

140. Proceeding to appeals from the decisions of Magistrates, the total number of appeals filed during the year was 330, which gives

a ratio of about 4 per cent. to the total number of cases decided by them. The ratio last year was 5 per cent. Out of the 327 appeals decided during the year, the Subhas decided 80, and the Judges 247. In addition to these appeals there were filed 318 appeals against the decisions of Magistrates in miscellaneous cases which gives a ratio of about 9 per cent., against 7 per cent. last year, to the total number of these cases decided by the Magistrates. Of these miscellaneous appeals, 170 were decided by the Subhas, and 176 by the Judges.

141. Out of the 9 per cent. of miscellaneous appeals the majority must have been in possession cases, as these form the greatest bulk of the miscellaneous cases in Magistrate Courts. No restrictions have been placed with regard to appeal in such cases, and the result is that the Appellate Courts get considerable work in the shape of these appeals. There is a great temptation for these appeals, as the dispute involved in them is of a civil nature, and the parties try their utmost to avoid, if possible, the expense of a regular civil suit by going in appeal even up to the Varisht Court. On the whole, however, it is doubtful whether the gain to the parties is real, because after undergoing the trouble and expense of prosecuting the miscellaneous possessory case in three Courts, the trouble and expense of having the dispute regarding right or title decided in a regular civil suit still await the litigants.

142. Of the 519 convicted persons, whose appeals were disposed of by the Judges and Subhas, the sentences against 238, *i.e.*, about 46 per cent. were confirmed; those against 99, *i.e.*, about 19 per cent. were modified; and those against 182, *i.e.*, about 35 per cent. were reversed. The ratios last year were 45, 24, and 31 respectively.

143. The proportion of regular appeals to the Varisht Court from the decisions of the Judges and the Subhas passed in the Sessions and other original cases decided by them, exclusive of appeals in those cases in which the accused were acquitted was about 19 per cent. against 22 per cent. last year. In 82 per cent. of the persons affected by these appeals, the decisions were confirmed; in 13 per cent. they were modified; and in only 5 per cent. they were reversed. The reversals last year were 17 per cent. The proportion of special appeals to the Varisht Court from the Appellate decisions of the Judges and the Subhas exclusive of appeals in which the appellants were acquitted, comes to about 7 per cent., the same proportion as in the last year. In about 5 per cent. of persons dealt with in special appeals, the sentences were reversed, in 10 per cent. the sentences were modified, and in the remaining 85 per cent. they were confirmed. The reversals last year were 17 per cent. The percentage of special appeals to the Varisht Court from Appellate decisions in miscellaneous cases comes to about 27 per cent. against 34 per cent. last year.

144. The number of appeals against acquittals was 80, and that for enhancement of punishment was 12. With regard to about 12 per cent. of the persons dealt with in appeals against acquittals, the decisions of the lower Courts were reversed, the rest being confirmed. In appeals for enhancement of punishment the sentences against two

persons only were modified, whereas with regard to six of them they were reversed on the cross-appeals of the accused, the rest being confirmed. The number of appeals under both these heads last year was 113 and 6 respectively, and the ratio of reversals in acquittal appeals was the same as this year, *i.e.*, 12 per cent.

145. In the exercise of its powers of revision the Varisht Court called up or received 302 cases against 310 last year. Of these the Varisht Court itself called up 192 cases, the Baroda Subha and the Kadi Subha sent up each 23 cases, the Baroda District Judge sent up 21 cases, the Baroda City Judge 13, the Nowsari Subha 11, the Nowsari Judge 6, the Amreli Subha 5, the Kadi Judge 4, and the Amreli Judge 2. Two cases were called up for revision at the suggestion of the Huzur. Of the 453 persons dealt with in the 299 revision cases decided, the decisions against 44 persons *i.e.*, in about 10 per cent. were reversed, and those against 49 persons, *i.e.*, in about 11 per cent. were modified. The corresponding ratios last year were 10 per cent. each respectively.

146. The Inamdars filed 56 criminal cases under the powers conferred on them by Sanads. Last year they had filed 30 cases, and in the year before it, 20 cases. There were in all 62 cases with them for disposal, including the last year's pending balance, of which they decided 61 cases, leaving 1 case with one person as accused undecided at the end of the year.

147. The civil and criminal work done by the Subhas located in Military Cantonments at Sadra, Deesa, and Manikwada and by the Saranjami Sar Subha at Baroda was as shown below:—

Description of work.	Pending.	Filed during the year.	Total.	Disposed of.	Pending.
Civil	21	64	85	39	46
Criminal	3	27	30	28	2
Total	24	91	115	67	48

148. The usual statistical statements for the whole Department are appended.

149. As the arrears in the Varisht Court were heavy neither the Chief Justice nor the Second Judge could go out on circuit during the year.

150. The new Registration Act was to come into force from the 1st of August 1885. All the preliminary arrangements of making the appointments of Nondhani Kamdars and the Tapasani Kamdar, of drafting the rules, of printing and distributing the different kinds of

registers and other books had to be performed by the Varisht Court in the year under report, and it occupied a considerable portion of the time of its Judges.

151. The Police and the Registration Acts drafted by the Law Committee have with due modification been passed into law by His Highness.

152. The cost of the whole Judicial Department for the year under report, including the usual proportions of the salaries of Revenue Officers doing Magisterial duties comes to Rs. 439,967. The figure for the last year was Rs. 420,877.

153. The total receipts from Stamps, Fines, &c., amounted to Rs. 385,264 against Rs. 315,512 for the last year. Out of the total of Rs. 385,264, the proceeds of the Civil Branch amounted to Rs. 323,400 against Rs. 245,426 last year. The proceeds of the Criminal Branch were Rs. 61,864 against Rs. 70,086 last year. The increase of income in the Civil Branch over that of the last year was more than three-quarters of a lac of rupees. The decrease in the Criminal Branch is chiefly owing to the amount of fines inflicted as well as realized during the year, being less than that in the preceding year.

154. The number of Vakils and Mukhtyars practising in the different tribunals was 256, the same number as in the last year. No provisional fresh admissions were made by the Varisht Court, as the first regular examination for Vakils and Mukhtyars was to take place shortly after the close of the year under review.

Jails.

155. The number of Jails and Lock-ups in the Baroda Territory in the commencement of the year under report was 43 in all, viz.:—

1 Central Jail.
4 District Jails.
2 Subordinate Jails and
36 Lock-ups.

Central Jail.

156. The following statement gives particulars regarding the prisoners in the Central Jail for the year under review:—

1	2	3			4			5			6			7			8			9		
No.	Class of Prisoners.	Remaining on 31st July 1884.			Received during the year 1884-85.			Total.			Discharged, &c.			Remained at the end of the year 1884-85.			Daily average of each Class.			Total daily average of whole Jail.		
		Males.	Females.	Total.	Males.	Females.	Total.	Males.	Females.	Total.	Males.	Females.	Total.	Males.	Females.	Total.	Males.	Females.	Total.	Males.	Females.	Total.
1	Convicted	524	41	565	519	40	559	1,043	81	1,124	505	46	551	538	35	573	514	39	553	533	39	572
2	Under trial	8	...	8	154	7	161	162	7	169	158	7	165	4	...	4	7	...	7			
3	Lunatics	10	2	12	13	2	15	23	4	27	11	...	11	12	4	16	12	...	12			
	Total	542	43	585	686	49	735	1,228	92	1,320	674	53	727	554	39	593	533	39	572	533	39	572
	Total for 1883-84	494	44	538	694	62	756	1,188	106	1,294	646	63	709	542	43	585	500	43	543	500	43	543

157. The total admissions during the year under report were less than those in the year preceding by 21, and those of convicts alone were less by 63. The increase in the total daily average was 5·34.

158. The following are the particulars with regard to prisoners discharged:—

Convicted prisoners.

Transferred to other Jails	4
Released on appeal	30
Do. on expiry of sentence	296
Do. on payment of fine	198
Do. by Huzur order	2
Escaped	2
Executed	3
Died	16
Total	551

159. The two convicts shown as released by Huzur order were life prisoners. One of them was discharged for uniformly good conduct during ten years of incarceration, and the other was released on the discovery that the man for whose supposed murder he had been convicted was actually living.

160. Two prisoners escaped from the Central Jail during the year under advertence. One of them, who escaped on 12th January 1885, was recaptured on the 14th of that month, and the other, who escaped on the 18th of March 1885, is still at large.

Under-trial prisoners.

Released	7
Convicted and sentenced	18
Transferred to other Jails	140
Total	165

Lunatics.

Released after recovery	4
Handed over to relatives	5
Died	2
Total	11

161. Among the convicts remaining in the Jail on 31st July 1884, 29 were reconvicted prisoners, 21 of whom had been convicted once before, 2 twice and 6 more than twice; and among the admissions during the year under report, 32 males and 1 female, in all 33 persons were reconvicted prisoners, 21 of whom had been convicted

once before, 5 twice and 7 several times. There were thus 62 reconvicted prisoners in all, and the percentage of reconvicted prisoners to the daily average of convicts was 11·21, and to the total admissions 11·09 as against 8·84 in the previous year.

162. The following table shows the number of persons who committed offences against Jail discipline, and the nature of punishments inflicted on them :—

Daily average number of Convicts.	Nature of Offence.	Nature of Punishment.	Number of Persons punished.	Percentage to daily average of Convicts.
1	2	3	4	5
Males.....514	Keeping in possession forbidden articles 6	Stripes	1	24·6
Females 39	Neglect of duty ...124	Other punishment	135	
	Miscellaneous Offences 6			
Total...553	Total...136	Total...	136	

163. The corresponding percentage for the preceding year was 3·97.

164. The subjoined table gives the ages of convicts admitted into the Jail during the year under review :—

1		2		3		4		5		6	
Below 16.		16 to 30.		31 to 50.		51 to 60.		Above 60.		Total.	
Males.	Females.	Males.	Females.	Males.	Females.	Males.	Females.	Males.	Females.	Males.	Females.
23	2	299	28	178	9	14	1	5	...	519	40

165. Thus 4·43 per cent. of the male convicts were below 16, 57·61 per cent. were from 16 to 30, 34·30 per cent. were from 31 to 50, 2·70 per cent. were from 51 to 60, and those above 60 were ·96 per cent. The age from 16 to 30, it will be seen, shows the highest percentage.

166. Similar percentages as regards females are as follow:—

Below 16 years	5·0
16 to 30 „	70·0
31 to 50 „	22·5
51 to 60 „	2·5
Above 60 „	*Nil.*

167. The following is the distribution according to religion of the 559 admissions in the Jail during the year under report:—

1	2	3		
Serial No.	Religion.	Admissions.		
		Males.	Females.	Total.
1	Hindus.....	467	34	501
2	Mahomedans	50	6	56
3	Jains	2	.....	2
	Total.....	519	40	559

168. The previous occupations of the 519 male convicts admitted in the Jail were as follow:—

Serial No.	Occupation.	Number of Convicts.
1	2	3
1	Agriculture	167
2	Trade.....	22
3	Labour and private service	281
4	Government service	43
5	No stated profession	6
	Total.....	519

169. Of the females, 33 were married and 7 unmarried.

170. The subjoined table shows the terms of imprisonment of the convicts admitted into the Jail during the year under retrospect:—

1	2			3		
Term of Sentence.	Admitted during the year.			Remaining at the end of the year.		
	Males.	Females.	Total.	Males.	Females.	Total.
Life imprisonment	1	2	3	90	23	113
Above 14 years	...	...	...	9	...	9
Do. 10 years and not exceeding 14 years.	...	...	...	11	1	12
Do. 7 years and not exceeding 10 years.	2	...	2	51	...	51
Do. 5 years and not exceeding 7 years...	17	...	17	49	..	49
Do. 3 years and not exceeding 5 years .	25	3	28	86	3	89
Do. 1 year and not exceeding 3 years ...	93	3	96	131	4	135
Do. 6 months and not exceeding 1 year...	54	5	59	30	2	32
Do. 1 month and not exceeding 6 months	225	18	243	79	2	81
Not exceeding 1 month	99	9	108	2	...	2
Executed	3	...	3	...	...	...
Total.....	519	40	559	538	35	573

171. The daily average number of convicts was employed in the following manner —

Nature of employment.	Daily average number.	Percentage.
1	2	3
Menial service in the Jail	104	18·81
Jail Garden	28	5·06
Factory Work	175	31·65
Grinding Work	21	3·80
Extra-mural Labour	163	29·47
Hospital service and attendance upon the Sick	4	0·72
Convict Warder	11	1·99
Not working.		
Sick	30	5·42
Infirm.		
By reason of blindness, &c.	6	1·09
Simple imprisonment	11	1·99
Total.....	553	100

172. The number of deaths during the year under notice was 18. Of these, 16 were among convicts and 2 among lunatics.

173. The percentage of deaths to the daily average number of convicts was 2·09, and to the total daily average of inmates 3·1 as against 2·27 last year and 3·06 in 1882-83.

174. The following table shows the nature of the different diseases of which the 18 prisoners died during the year :—

Nature of Disease.	Number died.
1	2
Remittent Fever	1
Diarrhœa	7
Consumption or Phthisis	2
General Debility	1
Pleurisy	1
Scurvy	1
Rheumatism	1
Enlargement of Spleen	1
Fever and Pustules	1
Sunstroke	1
Erysipelas	1
Total.....	18

175. It is satisfactory to note that the inmates of the Jail were, as heretofore, free from the attack of cholera, and there was not a single fatal case under this head during the year under advertence.

176. The following table shows the ages of the prisoners who died :—

Age-period.	Number of Deaths.
1	2
20 to 24	1
25 to 29	3
30 to 34	3
35 to 39	3
40 to 44	1
45 to 49	3
50 to 54	2
55 and over.....	2
Total.....	18

177. The daily average of sick prisoners in the Jail was 30 as against 16·3 in the year preceding. The total number of sick persons treated was 556, and the average number of days each patient remained in the Jail Hospital was 12.

178. The total expenditure during the year under report was Rs. 39,368-9-0 as against Rs. 39,887-8-0 in the previous year. There was thus a decrease in expenditure of Rs. 518-15-0.

179. The average cost per prisoner was as follows :—

Serial No.	Heads of Charges.	1883-84.	1884-85.
1	2	3	4
		Rs. a. p.	Rs. a. p.
1	Diet	34 10 5	33 7 0
2	Establishment and Guarding	33 3 4	30 15 1
3	Clothing	2 12 10	2 13 2
4	Hospital Charges	0 7 9	0 11 2
5	Dead-Stock	1 9 9	0 4 9
6	Contingencies	0 11 3	0 10 0
	Total Rs.	73 7 4	68 13 2

180. It will be seen from the above comparative table that the average cost per prisoner was Rs. 4-10-2 less than that for the previous year.

181. The following are the net profits of the labour of prisoners under different heads :—

		Rs. a. p.
1	Jail Garden	2,176 2 6
2	Grinding Corn	909 11 6
3	Sewing	159 15 9
4	Jail Factory	7,687 12 5
5	Extra-mural Labour	6,918 2 0
	Total Rs	17,851 12 2

182. *District and other Jails and Lock-ups.*—The following table gives particulars of the inmates of the different classes of Jails:—

1	2	3			4			5			6			7			8			9		
Name of Jail.	Class of Prisoners.	Remaining at the commencement of the year under report.			Received during the year.			Total.			Discharged, &c.			Remaining at the end of the year.			Daily Average of each Class.			Total Daily Average of all Jails.		
		Males.	Females.	Total.	Males.	Females.	Total.	Males.	Females.	Total.	Males.	Females.	Total.	Males.	Females.	Total.	Males.	Females.	Total.	Males.	Females.	Total.

183. The total daily average in the District and other Jails and Lock-ups together was 651 (629 males and 22 females) in the year under report as against 743 (720 males and 23 females) in the year preceding.

184. The total average in the different classes of Jails taken separately show that in the District Jails there was a decrease of 55 in the average for the previous year, and in the Subordinate Jails and Lock-ups there was a decrease of 3 and 34 respectively. Thus the net decrease was 92.

185. In the District Jails of Kadi, Amreli and Okhamandal, there was a decrease in the total average, and it amounted to 57. Numerically the highest total average was in the Kadi District Jail.

186. The total admissions into the three classes of Jails during the year under review were less than those in the previous year by 190.

187. The following are the details of the prisoners discharged from all causes:—

Serial No.	Cause of Discharge.	District Jails.	Subordinate Jails.	Lock-ups.	Total.
1	2	3	4	5	6
1	Transferred to other Jails.....	91	159	625	875
2	Released on appeal.....	37	14	30	81
3	Do. on expiry of sentence...	739	163	705	1,607
4	Do. on payment of fine	44	3	211	258
5	Executed	5	.....	2	7
6	Escaped	.....	.....	1	1

188. Out of the two escapes which belonged to the Patan Lock-up one was among convicts and the other among under-trial prisoners. The convict who escaped had been sentenced to three months' rigorous imprisonment on a charge of theft. He remained at large during the remaining portion of the year under advertence.

189. The total number of deaths in the District and Subordinate Jails and Lock-ups during the year under notice was 18. The details are given below:—

Serial No.	Name of Jail.	Class of Prisoner.			Total.
		Convicted.	Under-trial.	Lunatics.	
1	2	3	4	5	6
1	District Jails	13	.....	.....	13
2	Subordinate Jails	1	2	.....	3
3	Lock-ups.....	.....	2	.....	2
	Total.....	14	4	.....	18

190. The percentage of deaths in the District Jails to the daily average number of prisoners was 3·04 as against 1·24 in the previous year. In the Kadi District Jail there were nine deaths, in the Nowsari Jail 1, and in the Amreli Jail 3.

191. One convict and two under-trial prisoners died in the Subordinate Jails during the year under report. This gives a percentage of 5·27 to the daily average of prisoners. There were no deaths in the year preceding in this class of Jails.

192. There were two deaths among under-trial prisoners in the Lock-ups during the year under notice, which gives a percentage of 1·85 to the daily average of under-trial prisoners as against 3·23 in the previous year.

193. The following table shows the nature of the different diseases of which the 18 prisoners died in the District and Subordinate Jails and Lock-ups:—

Nature of Disease.	Number died.
1	2
Head-ache	1
Convulsions from Fever	1
Fever	4
Asthma and Œdema	2
Dysentery and Debility	1
Asthma	2
Fever and Asthma	2
Miscarriage	1
Fever and Cough	1
Enlargement of the Liver	1
Diarrhœa and Dysentery	1
By falling into a well	1
Total.....	18

194. The following were the averages of sick prisoners in the different District and Subordinate Jails and Lock-ups.

Class of Jail.	Name of Jail.	Average number of Sick Prisoners.	Average cost of Sick Prisoners.
1	2	3	4
			Rs. a. p.
District Jails	Kadi	1¼	19 8 8
	Nowsari	4	21 2 0
	Amreli	8	5 13 11
	Okhamandal	2	0 11 10
Subordinate Jails	Petlad	1	12 9 0
	Visnagar	5	6 4 0
	Lock-ups	12	9 11 3

195. The total expenditure incurred an account of District and Subordinate Jails and Lock-ups during the year under review was Rs. 47,779-11-10, as per following details:—

	Rs. a. p.
District Jails	35,467 11 2
Subordinate Jails	5,036 11 0
Lock-ups	7,275 5 8
Total Rs.	47,779 11 10

196. Besides this, an expenditure of Rs. 355-11-7 was incurred on account of previous years in connection with the Kadi Division. This amount is not included in the total expenditure of Rs. 47,779-11-10 in calculating the average cost of prisoners.

197. The total expenditure on the District and Subordinate Jails and Lock-ups in the year preceding was Rs. 55,487-7-3. There was thus a decrease of Rs. 7,707-11-5 in the expenditure in the year under advertence. The following comparative table gives details for each Jail separately:—

Class and name of Jail.	Total Expenditure.		Increase or Decrease.
	1883-84.	1884-85.	
1	2	3	4
	Rs. a. p.	Rs. a. p.	Rs. a. p.
District Jails. Kadi	21,252 6 0	18,679 6 10	—2,572 15 2
District Jails. Nowsari	6,699 1 10	5,961 10 5	— 737 7 5
District Jails. Amreli	9,632 15 1	7,446 7 7	—2,186 7 6
District Jails. Okhamandal	3,403 14 2	3,380 2 4	— 23 11 10
Total	40,988 5 1	35,467 11 2	—5,520 9 11
Subordinate Jails. Petlad	2,224 6 0	2,271 1 3	+ 46 11 3
Subordinate Jails. Visnagar	3,100 12 0	2,765 9 9	— 335 2 3
Total	5,325 2 0	5,036 11 0	— 288 7 0
Lock-ups	9,174 0 2	7,275 5 8	—1,898 10 6
Grand Total	55,487 7 3	47,779 11 10	—7,707 11 5

198. The following table shows the average cost per prisoner in the different classes of Jails:—

Heads of Charges.	District Jails.	Subordinate Jails.	Lock-ups.
1	2	3	4
	Rs. a. p.	Rs. a. p.	Rs. a. p.
Diet	31 5 11	33 10 5	37 13 8
Establishment	15 12 1	8 6 11	2 12 0
Guarding	29 11 5	42 5 1	.....
Hospital Charges	0 15 0	0 12 4	0 11 4
Clothing	2 0 11	1 1 6	0 13 10
Contingencies	2 10 10	2 1 7	1 13 9
Dead Stock	0 2 7	.....	0 0 11
Total.....	82 10 9	88 5 10	44 1 6

199. The total charges are highest with reference to Subordinate Jails owing to the higher amount under the head of *Guarding*.

200. The average cost per prisoner in the year preceding was Rs. 84-11-0 on account of District Jails, Rs. 88-12-0 for Subordinate Jails, and Rs. 46-1-7 for Lock-ups.

201. It will thus be observed that the average cost per prisoner in the year under report was less in the three classes of Jails, respectively, by Rs. 2-0-3, Rs. 0-6-2, and Rs. 2-0-1, than that in the year preceding.

202. The following comparative table shows the variations under the different headings in each class of Jail:—

Heads of Charges.	District Jails.		Subordinate Jails.		Lock-ups.	
	1883-84.	1884-85.	1883-84.	1884-85.	1883-84.	1884-85.
1	2	3	4	5	6	7
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.

Disposed of during the year .	3,451	3,394	4,612	4,526	35	37	8,098	7,957
Remaining at the end of the year	1,110	1,087	201	140	19	17	1,330	1,244

204. In the Appendices will be found the usual statistical details.

POLICE.

205. The subjoined table shows the strength of the Police force in the year 1884-1885:—

Serial No.	Name of Division.	Police Superintendent or Police Naib Subha.	Sar Fouzdars and Fouzdars.	Subordinate Officers and Men.		Other Establishment.	Total.	Vacancies in the Force.	Vacancies in other Establishment.	Actual Strength.
				Foot.	Mounted.					
1	2	3	4	5	6	7	8	9	10	11
1	Baroda City.....	1	8	575	35	30	658	56	3	599
2	Baroda Division	1	14	1,150	138	30	1,333	237	1	1,095
3	Nowsari Division	1	14	713	153	28	909	127	2	780
4	Kadi Division.....	1	17	1,050	208	34	1,910	10	1	1,899
5	Amreli Division.....	1	8	488	78	23	598	3	1	594
	Total.....	5	61	4,676	612	154	5,408	433	8	4,967

206. The reductions, transfers, &c. which took place during the year under report in the City and the different Divisions were as follow:—

Baroda City.—One Fouzdar's post was abolished and three were kept vacant, and a Sar Fouzdar's post was transferred from the Baroda District to the City.

Baroda Division.—The place of Police Naib Subha was vacant during the year, and the work of the post was entrusted to the City Superintendent in addition to his own duties.

Nowsari Division.—Sar Fouzdar Lalubhai Desai, Nowsari Divison, having retired on pension, his post was allowed to remain vacant.

Kadi Division.—The extra Sar Fouzdar in this Division having obtained a regular post the extra post was abolished.

Amreli Division.—One Fouzdar on special duty was appointed in connection with cattle-lifting offences.

207. Thus one out of five Police Naib Subhas' posts, two out of ten Sar Fouzdars' posts, and four out of fifty-one Fouzdars' posts remained vacant during the year.

208. The total expenditure during the year under review was Rs. 7,55,009-11-1 against Rs. 7,89,618-7-7 in the preceding year. The details for each Division are given in the following table:—

Name of Division.	Sanctions (in mixed currencies).	Actual Expenditure (in mixed currencies) 1884-85.	Actual Expenditure (in mixed currencies) 1883-84.
1	2	3	4
	Rs. a. p.	Rs. a. p.	Rs. a. p
Baroda City	1,05,748 14 0	91,116 7 5	96,917 8 4
Baroda Division	2,15,498 8 8	1,57,284 4 1	1,87,446 14 0
Nowsari Division	1,49,829 0 3	1,27,505 10 9	1,28,912 12 9
Kadi Division	3,13,111 12 0	2,61,396 15 5	2,82,935 12 11
Amreli Division	1,04,092 6 10	87,706 5 5	93,355 7 7
Total	8,88,280 9 9	7,55,009 11 1	7,89,618 7 7

209. Thus the expenditure in the year under report was less than in the previous year by Rs. 34,608-12-6. This item of decrease is made up chiefly of Rs. 19,747-11-5 under the head of *Salaries*, Rs. 2,453-1-11 under *Contingencies*, and Rs. 11,618-11-2 under *Dress and Accoutrements.*

210. An item of Rs. 1,855-5-9, which was shown on account of *Pensions* in the year 1883-84, was in the year under report transferred to a separate and independent heading *Pensions*. The charge in this Department was therefore less to that extent. There was a slight increase of Rs. 1,000 and odd under the head of *Dead Stock.*

211. The decrease in the salaries was owing to the savings caused as shown above, and also by holding in abeyance the filling up of vacancies in the ranks, so as to enable a provision being made for the members of the Contingent.

212. The decrease in the contingencies hardly calls for any remark, and that under the the head of *Dress and Accoutrements* was due to the fact that the expenditure incurred under that head in the previous year rendered additional expense on the same account unnecessary in the year under report.

213. The force exclusive of the other establishment, which forms no part of it, was composed as follows according to religion:—

Religion.	Officers.	Men.	Total.	Percentage		
				Officers.	Men.	Total.
Hindus	601	2,030	2,631	63·80	52·33	54·57
Mahomedans	327	1,843	2,170	34·71	47·51	45·01
Parsis and Jews	13	6	19	1·38	0·16	0·40
Christians	1	.....	1	0·11	.....	0·02
Total.....	942	3,879	4,821	100	100	100

214. The following table gives particulars for each Division:—

Name of Division.	Hindus.		Mahomedans.		Parsis, Jews, and Christians.		Total strength of each Division.
	Strength.	Percentage to the force of the Division.	Strength.	Percentage to the force of the Division.	Strength.	Percentage to the force of the Division.	
Baroda City	413	73·36	149	26·47	1	0·18	563
Baroda Division	644	60·41	421	39·49	1	0·09	1,066
Nowsari Division	493	65·38	248	32·89	13	1·72	754
Kadi Division	744	39·87	1,118	59·91	4	0·21	1,866
Amreli Division	337	58·92	234	40·91	1	0·17	572
Total.....	2,631	54·57	2,170	45·01	20	0·42	4,821

215. Thus 54·57 per cent. of the force were Hindus, 45·01 per cent. were Mahomedans, and ·42 per cent. were Parsis, Jews and Christians. The corresponding percentages for the year 1883-84 were:—

55·78 Hindus,
43·85 Mahomedans, and
0·37 Parsis, Jews and Christians.

216. The following table gives particulars regarding the Hindus in the force:—

Name of Division.	Brahmans.		Rajputs.		Marathas		Parbhus and Senoys.		Waghers.		Kolies and Bhils.		Hindus of other Castes.		Total.
	Strength.	Percentage.	Strength.	Percentage.	Strength.	Percentage.	Strength.	Percentage.	Strength.	Percentage.	Strength.	Percentage.	Strength	Percentage.	
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16
Baroda City	73	18·88	64	16·47	181	43·83	7	1·69	...	...	38	9·20	41	9·93	413
Baroda Division	234	36·33	79	12·27	245	38·04	14	2·17	...	...	13	2·02	59	9·16	644
Nowsari Division	83	17·85	6	1·22	240	48·68	10	2·03	...	...	21	4·26	123	25·06	493
Kadi Division	107	14·38	123	16·53	94	12·63	22	2·95	32	2·96	216	29·03	160	21·51	744
Amreli Division	68	20·18	46	13·65	99	29·38	12	3·56	4	1·19	22	6·53	86	25·52	337
Total	575	21·85	322	12·24	859	32·65	65	2·47	26	0·99	310	11·78	474	18·02	2631

217. Out of 100 Hindus in the force 32·65, or a little less than a third, were Marathas; 21·85, or a little above a fifth, were Brahmans; 12·24, or a little over one-eighth, were Rajputs; 11·78, or a little above one-ninth, were Kolies and Bhils. The rest of the castes need not be noticed.

218. Taking the Divisions separately, the Nowsari Division and the City stood highest with reference to the proportion of Marathas to the other Hindu castes, and the Kadi Division the lowest, where the Rajputs and Kolies were employed in larger numbers. The proportion of Rajputs was highest in the Kadi Division and lowest in the Nowsari Division. As regards Brahmans, the highest percentage was in the Baroda Division, but it was less than in the year 1883-84.

219. The above table shows a considerable decrease in the number of Rajputs, mainly in the Amreli Division. The fact is that the Rajputs, as a class, do not take kindly to discipline, and hence probably the decrease.

220. The following comparative table will show that the number of Brahmans, Parbhus, and Senoys and other Hindu castes has increased, while that of Rajputs, Marathas, Waghers, Kolies and Bhils has declined:—

Caste.	Year.		Increase or Decrease.
	1883-84.	1884-85.	
1	2	3	4
Brahmans	570	575	+ 5
Rajputs	401	322	—79
Marathas	867	859	— 8
Purbhus and Senoys	62	65	+ 3
Waghers	39	26	—13
Kolies and Bhils	348	310	—38
Hindus of other castes	458	474	+16
Total	2,745	2,631	—114

221. The following table shows the different classes of duty on which the Police force was employed during the year under review with the distribution of men among them:—

Name of Division.	Guard.				General Police Duty.		Total.
	Jails.		Lock-ups.				
	Officers.	Men.	Officers.	Men.	Officers.	Men.	
1	2	3	4	5	6	7	8
Baroda City	...	...	1	12	76	474	563

Corresponding figures and percentages for 1883-84.	885	729	3,307	288	17·98	14·82	67·20

223 It is to be noted that clerical establishment and menial servants in the force are not included in the above table. The figures represent the effectives only.

224. The following table gives particulars regarding punishments and rewards to the Police force during the year under advertence:—

Name of Division.	Dismissed.		Reduced to lower grades.		Criminally punished.		Total number of Officers punished.	Total number of Men punished.	Rewards by promotion.	Rewards by presents in money.	Total number of Men rewarded.
	Officers.	Men.	Officers.	Men.	Officers.	Men.					
1	2	3	4	5	6	7	8	9	10	11	12
Baroda City	1	37	...	5	...	4	1	46	...	...	...
Baroda Division	1	5	4	1	3	4	8	10	23	13	36
Nowsari Division ...	1	8	4	3	1	2	6	13	46	16	62
Kadi Division	...	23	3	31	...	40	3	94	102	49	151
Amreli Division	...	4	1	...	...	...	1	4	6	1	7
Totals.....	3	77	12	40	4	50	19	167	177	79	256
Totals for 1883-84.	8	135	20	22	8	29	36	186	381	180	561

225. The following table shows the number of resignations, deaths, discharges, and dismissals during the year under report as compared with those for the two previous years:—

Year.	By Resignation.	By Discharge or otherwise.	By Desertion.	By Deaths.	Total.
1	2	3	4	5	6
1882-83.....	132	104	164	55	455
1883-84.....	149	106	164	91	508
1884-85.....	87	94	92	56	329

226. The total number of offences reported to the Police during the year under report was 6,613 against 6,285 in the preceding year. If from this figure be deducted 1,225 cases, in which no offence was found to have been committed, there remain 5,388 as the number of crimes that actually took place during the year under retrospect.

227. The following is a comparative table for this and the preceding five years:—

Year.	Number of Offences.
1879-80.....	7,053
1880-81.....	6,925
1881-82.....	8,428
1882-83.....	6,947
1883-84.....	6,285
1884-85.....	6,613

228. The following comparative table furnishes details relative to crimes in the City and the four Divisions of the State for the year under review and the two preceding years:—

Serial No.	Nature of Crime.	Divisions.												Total.		
		Baroda City.			Baroda Division.			Nowsari Division.			Kadi Division.			Amreli Division.			
		1882-83.	1883-84.	1884-85.	1882-83.	1883-84.	1884-85.	1882-83.	1883-84.	1884-85.	1882-83.	1883-84.	1884-85.	1882-83.	1883-84.	1884-85.

229. Upon the whole, the state of crime is not such as requires any special remarks excepting under one or two heads. There were 7 cases of murder in excess of those in the last year. They are not, however, connected with any offence relating to property, but appear

to be the result of private enmity or jealousy. The increase in thefts and robberies as in other descriptions of crime is due to causes more or less fitful.

230. The following table gives particulars relative to the work of the Police :—

Serial No.	Name of Division.	Cases reported during the year.	Cases of previous years brought under enquiry during the year.	Total.	Cases struck off the Register.		Cases disposed of by Razinamas.		Remained on the dormant file.	Transferred.	Remained undetected.	Result of Cases sent to Magistrates for enquiry.							
					Reported to the Police.	Received by Magistrates direct.	Referred to the Police.	Received by Magistrates direct.				Resulted in acquittal.	Razinamas.	Resulted in convictions.	Remained pending trial at the end of the year.	Total number of cases sent to Magistrates for enquiry.	Percentage of Convictions to Cases sent to Magistrates for enquiry.		
																	1883-84.	1884-85.	
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	
1	Baroda City	478	71	549	73	10	47	4	22	...	134	54	...	143	12	209	65·92	72·50	
2	Baroda Division	2,009	621	2,630	423	42	437	40	218	...	529	242	134	387	78	841	58·86	61·63	
3	Nowsari Division	544	81	625	88	10	28	5	14	...	93	96	23	267	31	417	65·02	73·55	
4	Kadi Division	3,247	740	3,987	499	47	612	30	324	...	775	466	193	956	80	1,700	74·01	67·23	
5	Amreli Division	335	68	403	7	26	18	...	47	...	57	70	24	125	29	248	71·48	64·10	
	Total.....	6,613	1,481	8,094	1,090	135	1,187	79	625	...	1,613	923	379	1,573	230	3,415	68·15	66·63	

231. It will be seen that out of 8,094 cases, including 1,431 of the previous year, 1,225 were struck off the Register. In these cases no offence was found to be committed. In 1,216 cases Razinamfas were given by the complainants before enquiry, 625 remained on the dormant list, 1,643 remained undetected at the end of the year, and 3,415 were sent to Magistrates. Out of these again, 879 were disposed of by Razinamas and 230 were pending before the Magistrates at the end of the year, so that the number of cases affording a test of Police operations was 2,806, out of which 1,878 or 66·93 per cent. resulted in convictions and 928 or 33·07 per cent. in acquittals.

232. In the percentage of convictions the Nowsari Division stands highest, it being 73 per cent.; the Baroda City, the Kadi and Amreli Divisions following in the order, the Baroda Division being the lowest.

233. The number of person arrested during the year under report was 9,624 against 9,466 in the previous year. Of these, 1,711 were released without trial, 3 died, 3 escaped, 20 remained in the custody of Police, and 695 were on bail at the end of the year. The rest, *viz.* 7,192, were sent to Magistrates for trial. Of these, again, 2,298 were acquitted and 3,616 were convicted, 7 died after commencement of trial, 6 escaped, 688 were released on Razinamas, and 577 remained pending trial at the end of the year.

234. The appended table gives figures for each Division.

Name of Division.	Number of Persons arrested.	Disposal of Persons arrested.							Disposal of Persons sent to Magistrates for trial.								
		Died.	Escaped.	Transferred.	Released without Trial.				On bail in cases remaining on the dormant list.	In Police custody.	On bail at the end of the year.	Released after Bazinamas.	Convicted.	Acquitted.	Died after commencement of trial.	Escaped.	Pending trial at the end of the year.	Total.
					By the Police with the permission of Magistrates.	By Magistrates direct.	By the Police after Bazinamas.	By Magistrates after Bazinamas.

235. With regard to the percentages of persons convicted to those sent to Magistrates for trial, the following comparative table will show that the results in both the years were almost identical:—

Serial No.	Name of Division.	Percentage of Persons arrested to				Percentage of Persons convicted to those sent to Magistrates for trial.	
		Persons discharged without trial.	Persons acquitted.	Persons convicted.	Persons on bail at the end of the year.	1883-84.	1884-85.
1	2	3	4	5	6	7	8
1	Baroda City	21·40	18·42	23·14	29·47	54·89	55·66
2	Baroda Division	23·30	22·68	26·32	7·41	47·05	53·71
3	Nowsari Division.....	8·27	25·56	50·99	1·60	50·87	66·61
4	Kadi Division	16·63	24 35	42·42	5·13	69·66	63·53
5	Amroli Division	14·94	30·11	35·82	4·62	63·61	54·33
	Total.....	17·78	23·88	37·57	7·22	61·64	61·14
	Corresponding percentages for 1883-84.	16·17	23·81	38·31	7 ·89	61·64	
	Do. 1882-83.	25·58	20 94	32·46	5·62	56·56	

236. Of persons arrested 17·78 per cent. were discharged without trial, 23·88 per cent. were acquitted, 37·57 per cent. were convicted and 7·22 per cent. remained on bail at the end of the year. The percentage of persons convicted to persons sent for trial was 61·14 against 61·64 for the last year.

237. The following comparative table shows the result of Police operations with regard to the recovery of property alleged to have been stolen, the percentage being 47·38 against 51·45 in 1883-84. The slight falling off is attributed to the tendency of complainants to exaggerate the value of such property, to mixing up of cases of the

nature of civil action with the criminal, and to other similar circumstances :—

Serial No.	Name of Division.	1884-85.				1883-84.				Percentage of Property recovered to Property stolen.		Percentage of Cases in which Property was recovered to those in which it was stolen.	
		Cases in which property was alleged to have been stolen.	Alleged value of property stolen.	Cases in which property was recovered.	Value of property recovered.	Cases in which property was alleged to have been stolen.	Alleged value of property stolen.	Cases in which property was recovered.	Value of property recovered.	1884-85.	1883-84.	1884-85.	1883-84.
1	2	3	4	5	6	7	8	9	10	11	12	13	14
1	Baroda City	213	29,894	116	5,145	239	37,820	138	12,906	17·21	37·37	54·46	50·0
2	Baroda Division	679	61,887	339	35,664	926	80,810	529	43,920	57·05	54·35	49·03	57·13
3	Nowsari Division	176	11,111	145	5,804	120	4,114	82	1,793	47·74	43·58	82·39	68 33
4	Kadi Division	1,209	59,766	847	31,418	1,139	54,946	728	33,644	52·57	61·23	70·11	63·91
5	Amreli Division	158	5,433	110	1,913	178	5,208	137	1,747	35·21	33·54	69·62	77·00
	Total	2,434	1,68,091	1,557	79,644	2,602	1,82,898	1,612	94,100	47·38	51·45	63·97	61·05

233. The total amount of property alleged to have been stolen in the year under report was Rs. 1,68,091 as against Rs. 1,82,898 in 1883-84, and the property recovered was of the value of Rs. 79,644 in the year under report as against Rs. 94,100 in 1883-84, the percentage being 47·38 as against 51·45. The diminution, as observed above, is mainly owing to the lower percentage in the Baroda City.

239. In September 1884 Captain F. Nissen, of His Highness' 2nd Regiment of Infantry, was drafted to the Police Department on special duty with the designation of Special Huzur Police Officer.

240. This post was created as a temporary and tentative measure to collect information in view to effect better organization and secure better discipline and efficiency in the Police force as a body. During the year under report, Captain Nissen, after visiting Bombay, Surat and Ahmedabad to study the existing Police system prevalent there, set to the work which had been specially assigned to him. He has collected valuable information which will be of use to Government in the reorganization of the Department to be effected hereafter.

241. Mr. Manekji Pestonji Tuback, Nowsari Police Naib Subha, retired on gratuity early in the year under report, and Sar Fouzdar Gulabshanker Dayashanker acted for him.

242. The Special Police force at Chandod entertained in lieu of the watchmen, whom the Rana of Mandwa is under the Resolution of the Government of Bombay bound to supply, continued as before in the year under review.

243. In the Amreli Division, an outlaw, named Eval Loma, of Jira in the Dhari Taluka, who had been at large for some time past, was skilfully arrested by the police in the year under report. Another outlaw, named Wala Khema, of Amreli, was also arrested. This man had carried away a carpenter boy as a hostage. He was placed on his trial and convicted.

244. Special measures were taken to effectively check the offence of cattle-lifting referred to in the previous reports. A special Fouzdar was deputed to this duty.

245. Due precautions were taken to prevent the entry into this territory of the Barwatia Mekranies of Junagarh.

Extradition.

246. During the year under report the Baroda Government made extradition demands in 129 cases against 131 last year, and received similar demands in 75 cases from British Districts and Tributary and other Native States against 83 last year, as shown below:—

Demands by Baroda.

British Districts and Native States.	Number of demands made.		Number of demands withdrawn.	
	Cases.	Men.	Cases.	Men.
British Districts	66	184	3	3
Native States	63	185	4	12
Total	129	369	7	15

Demands on Baroda.

British Districts and Native States.	Number of demands made.		Number of demands withdrawn.	
	Cases.	Men.	Cases.	Men.
British Districts	41	65	2	4
Native States	34	104	.....	.....
Total	75	169	2	4

247. During the same period 309 men were surrendered to Baroda in 113 cases, while Baroda surrendered 147 men in 69 cases, as shown below:—

Surrenders to Baroda.

British Districts and Native States.	Number of surrenders on demands made during the year.		Number of surrenders on demands made during previous years.		Total number of surrenders during the year.	
	Cases.	Men.	Cases.	Men.	Cases.	Men.
British Districts	52	126	6	11	58	137
Native States	43	121	12	51	55	172
Total	95	247	18	62	113	309

Surrenders by Baroda.

British Districts and Native States.	Number of surrenders on demands made during the year.		Number of surrenders on demands made during previous years.		Total number of surrenders during the year.	
	Cases.	Men.	Cases.	Men.	Cases.	Men.
British Districts	34	56	3	5	37	61
Native States.....	29	82	3	4	32	86
Total.....	63	138	6	9	69	147

248. During the year 323 extradited persons were tried in 117 cases—234 were convicted and 89 acquitted; and 26 remained to be tried, as shown below:—

British Districts and Native States.	Number of Trials.		Number of Convictions.		Number of Acquittals.		Pending.	
	Cases.	Men.	Cases.	Men.	Cases.	Men.	Cases.	Men.
British Districts	54	122	45	105	9	17	8	20
Native States	63	201	49	129	14	72	4	6
Total.. ...	117	323	94	234	23	89	12	26

249. One man, named Radia Khalpa, surrendered by the Bansda State (Surat) on a charge of murder, on a demand made in the year 1883-84, was sentenced to capital punishment.

250. Certificates for trial in British India were issued in 4 cases involving 11 men.

MILITARY.

251. The strength of the Regular or disciplined force at the end of the year under report was as follows:—

	Effectives.	Non-Effectives.	Total.
ARTILLERY.			
Light Field Battery	69	44	113
Rumi Gunners	24	.....	24
Total.....	93	44	137
CAVALRY.			
The Maharaja's Guard	109	145	254
The F. S. R. Regiment of Cavalry	454	8	462
The Choti Khas Paga 161 / The Chimnabai ditto 205 / The Kadi Paga 153	519	20	539
The Mothi Khas Paga	190	242	432
Total.....	1,272	415	1,687
INFANTRY.			
1st Regiment	698	36	734
2nd ditto	698	31	729
3rd ditto	698	30	728
Dhari ditto	514	26	540
Okha Battalion	491	25	486
Total.....	3,009	148	3,217
Band	111	6	117
General and Staff Officers	6	8	14
GRAND TOTAL	4,551	621	5,172

252. The total strength of Artillery, Cavalry and Infantry compares as follows with the corresponding strength in 1883-84:—

	1884-85.			1883-84.		
	Effectives.	Non-Effectives.	Total.	Effectives.	Non-Effectives.	Total.
Artillery	93	44	137	93	47	140
Cavalry	1,272	415	1,687	301	214	515
Infantry	3,009	148	3,217	3,141	285	3,426
Band	111	6	117	111	5	116
General and Staff Officers	6	8	14	5	7	12
Total.....	4,551	621	5,172	3,651	558	4,209

253. It will be seen from the above that there was a decrease of 72 men in the Infantry, which was owing to the amalgamation of the 5th Regiment with the three local Regiments, the men forming the decrease having been discharged, on account of their physical unfitness, by payment of either pension or gratuity. The increase in the Cavalry was due to the abolition of the Contingent and the consequent absorption in Cavalry Regiments of the men thrown out.

254. The force consists of the following nationalities :—

Nationality.	Number.	Percentage on effective men.
Europeans and Eurasians	13	·3
Muhomedans	975	22·2
Marathas and Konkanis	1,192	27·6
Pardeshis and Hindostanis	1,684	38·7
Kolis, Rajputs, Gosavis and others	193	4·4
Brahmans and Parbhus	40	·9

255. The cost of maintaining the above force during the year under report was as follows :—

	Rupees.
Artillery	40,100
Cavalry	4,31,682
Infantry	4,64,433
Band	27,335
General and Staff Officers	29,789
Store Magazine	2,098
Total	9,95,437

256. Thus the average cost per each effective man in the Artillery was Rs. 431 per annum, in the Cavalry Rs. 339 per annum, in the Infantry Rs. 151 per annum, in the Band Rs. 246 per annum, and taking the whole force together the average cost per each effective was Rs. 218 per annum.

257. This cost compares with that of the preceding year as follows :—

	Cost in 1883-84.	Cost in 1884-85.	Increase in 1884-85.	Decrease in 1884-85.	Net Increase.
	Rs.	Rs.	Rs.	Rs.	Rs.
Artillery	29,910	40,100	10,190	.....	
Cavalry	1,52,712	4,31,682	2,78,970	.....	
Infantry	4,67,149	4,64,433	.....	2,716	
Band	32,726	27,335	.....	5,391	
General and Staff Officers	31,628	31,887	259	.....	
Total	7,14,125	9,95,437	2,89,419	8,107	2,81,312

258. The increase in the expenditure on Artillery is due to large arrears of pay paid to a Rumi Jamadar.

259. Para. 253 explains the increase and decrease under Cavalry and Infantry respectively.

260. The increase in the cost on General and Staff Officers is due to the creation of a new appointment of a Riding Master.

261. The total number of pensioners in the whole Regular and Irregular force was 504, drawing an aggregate amount of Rs. 34,635 in the year under report against 148 and Rs. 11,424 in the last year.

262. Four hundred and thirty-seven men were discharged on payment of gratuity amounting to Rs. 56,507.

263. Several cases of desertion were reported, but very few of the deserters could be apprehended.

264. The rate of mortality in the above force was 10 in a thousand against 14 in the preceding year.

265. The average attendance of sick was 78·14 in the year under review against 93·77 in the year previous.

266. There are no separate Regimental schools, and Regimental children attend Government schools. The number of such pupils receiving instruction in these schools during the year under review was 40 against 85 in 1883-84. Thus the number of children attending Government schools fell off by 45.

267. The Clothing Department, which was placed on a more systematic footing in the year under report, worked satisfactorily, and the system of making and fitting up uniforms, &c., for the Army in that Department was found advantageous to a certain extent to the Sirkar.

268. The Irregular force of the State consists of Horse and Foot. The Horse, or the mounted portion, belongs to four departments, *viz.*, the Silledari, Sibandi, Paganihaya and Khalsa. The first three of these are managed on the Silledari principle, and the last departmentally. The Foot portion consists of two departments, the Sibandi and the Khalsa. The numerical strength of the force belonging to each department is shown below :—

Name.	Number.
Horse.	
Silledari.....	1,260
Sibandi	433
Paganihaya	270
Khalsa (including Huzrat).	397
Total.....	2,360

Name.	Number.
Foot.	
Sibandi	1,139
Khalsa	667
Total.....	1,806
GRAND TOTAL.....	4,166

269. Thus taking all the departments together there were 2,360 mounted effective men and 1,806 foot, total 4,166.

270. A portion of the contingent of 3,000 Horse, which was serving in the Tributary States of Kattywar, the Mahi Kanta, the Rewa Kanta, and Palhanpur, including that stationed at Sadra, Maneckwara, Deesa, and Baroda, was reduced in the year under report.

271. This vexed question of the abolition of His Highness' Contingent, which was pending for several years, came to a settlement in the year under report. The measure of reducing the Contingent was carried out without causing as little irritation, inconvenience, and loss to those who were affected by it as was possible under the circumstances. In setting at rest this long pending question vested interests were properly attended to, and His Highness' Government dealt liberally with those whose interests in any way suffered on account of this reduction.

272. This reduction accounts for the decrease of 2,150 in the number of Horse as given in the last year's report. The number reduced was disposed of in the following manner:—

Number of men pensioned	122
Ditto paid gratuities	363
Ditto drafted into British Police.....	328
Ditto ditto State Police	77
Ditto ditto Cavalry Regiments ...	971
Ditto remaining to be provided for in 1885-86	289
Total.....	2,150

273. The following table shows the expenditure incurred on account of the Irregular force in the year under report:—

Horse.	Rupees.
Silledari	7,86,173
Sibandi	2,29,090
Paganihaya	1,56,331
Khalsa	5,32,669
Godghaste	10,829
Shikar Superintendent	4,534
Contingent Sir Subha.....	1,897
Polo Establishment.....	2,874
Clothing Department	6,005
Veterinary Department	2,534
Total.....	17,32,926

Foot.	
Sibandi	1,17,947
Khalsa	75,322
Total.....	1,93,269
GRAND TOTAL.....	19,26,195

274. A considerable portion of the above expenditure consists of the personal allowances of Sirdars and others charged to the Military Department according to the practice hitherto followed.

275. This cost compares with that of the preceding year as follows:—

	1883-84.	1884-85.	Increase in 1884-85.	Decrease in 1884-85.	Net Decrease.
Horse.	Rs.	Rs.	Rs.	Rs.	Rs.
Silledari	8,49,059	7,86,173	.....	62,886	
Sibandi	2,62,047	2,29,090	.....	32,957	
Paganihaya	1,58,921	1,56,331	.....	2,590	
Khalsa	8,52,775	5,32,669	.....	3,20,106	
Godghaste	81	10,829	10,748	.....	
Shikar Superintendent	4,370	4,534	164	.....	
Contingent Sir Subha	34,818	1,897	.....	32,951	
Polo Establishment	*Nil.*	2,874	2,874	.....	
Clothing Department	1,233	6,005	4,772	.....	
Veterinary Department	*Nil.*	2,534	2,534	.....	
Total.....	21,63,334	17,32,936	21,094	4,51,490	4,30,398
Foot.					
Sibandi	1,26,819	1,17,947	.....	8,872	
Khalsa	55,707	75,322	19,615	.....	
Total.....	1 82,526	1,93,269	19,615	8,872	Net increase 10,743
GRAND TOTAL.....	*2,345,860	19,26,205	40,707	4,60,362	Decrease 4,19,655

276. The decrease in the expenditure on Silledari, &c., was owing to the reduction of the Contingent. The increase in the Clothing Department was on account of a large quantity of clothing having been turned out in the Department. Godghastes' Nemnook and establishment were settled in the year under review, and hence the increase in expenditure.

277. The average figures give an average for each effective mounted man of Rs. 624 per annum in the Silledari, Rs. 529 per annum in the Sibandi, Rs. 579 per annum in the Paganihaya, and Rs.

* The difference of Rs. 4,451 between this and the figure given last year is owing to the items under Godghaste and Shikar Superintendent.

1,341 per annum in the Khalsa force, and taking all the establishments together the average for each mounted man is Rs. 722 against Rs. 469 per annum in the year 1883-84. Considering the condition of these Irregular Troops they ought not to cost so much, but the explanation is that a large portion of the cost consists of personal allowances and perquisites of the Sirdars and others under whom the establishments are placed.

278. As regards the Foot, the average per man in the Sibandi is Rs. 103 per annum and in the Khalsa establishments Rs. 113 per annum, or taking both together the average is Rs. 107 per annum in the year under review.

279. Two of the Pagas which were given uniforms and placed under drill instruction came to be regarded as Regular Cavalry Regiments in the year under report.

280. The cost of the whole force, Regular and Irregular, for the year 1884-85 and the previous year is shown as under :—

	1883-84.	1884-85.
	Rs.	Rs.
Regular	7,14,125	9,95,437
Irregular	23,45,860	19,26,205
Total	30,59,985	29,21,642

281. These figures show a decrease of Rs. 1,33,892 in the last year's expenditure, the reasons for which have been briefly explained in the foregoing paras. It is to be remembered that there was an increase of Rs. 93,011 last year as compared with 1882-83.

Public Works Department.

282. The following statement shows the total outlay of the Department in the year under report as compared with that of the previous year :—

Heads of Service.	Expenditure 1883-84.	Expenditure 1884-85.	Increase.	Decrease.
	Rs.	Rs.	Rs.	Rs.
Original Works	8,18,723	10,43,899	2,25,176	.....
Repairs	1,22,548	1,70,151	47,603	.....
Establishment	1,04,531	1,04,564	33	.....
Tools and Plant	1,289	10,954	9,665	.....
Stock Purchase	9,708	7,402	.....	2,306
Pension Allowance	.....	1,371	1,371	.....
Total	10,56,799	13,38,341	2,83,848	2,306

283. The outlay during the year under the heads "Original Works and Repairs" may be classified as follows:—

Heads of Service.	Original	Repairs.	Total.
	Rs.	Rs.	Rs.
Military	1,18,418	9,398	1,27,816
Civil Buildings	7,28,364	1,22,110	8,50,474
Communications	91,863	15,058	1,06,921
Public Garden, Baroda	12,824	15,941	28,765
Miscellaneous Public Improvements	20,765	7,644	28,409
Baroda Water Supply	71,665	.....	71,665
Total.....	10,43,899	1,70,151	12,14,050

284. The increase under the head "Original Works" is mainly owing to some costly works being started this year, such as the construction of a reservoir at Ajwa for improving the water supply of the City of Baroda, the construction of a Bungalow for His Highness at Umrat on the sea coast, and the construction of the Survey Commissioner's Office at Baroda.

285. The increase under the head "Repairs" is owing to final payments on account of extensive repairs executed to the Nowsari Thana buildings.

286. The increase under the head "Tools and Plant" is due to the purchase of books and mathematical and drawing instruments.

287. The expenditure on account of pension allowance to Mr. Hill, the late Chief Engineer, at Rs. 100 (British) per mensem, was heretofore charged under the head of "Establishment." This year it has been separately shown.

288. The ratio of the cost of establishment to the total outlay was 8 per cent. in the year under report as against 11 in the last year. This falling off in the ratio was not due to any reduction in the establishment, which, in fact, received some increase. It was due partly to the payment last year under this head of certain arrears of salary to the late Chief Engineer, Mr. Hill, and partly to more works being executed this year

289. The following statement shows the expenditure of the Public Works Department for the last five years:—

Heads of Service.	1880-81.	1881-82.	1882-83.	1883-84.	1884-85
	Rs.	Rs.	Rs.	Rs.	Rs.
Original Works	10 15,000	10,25,600	9,85,400	8,18,723	10,43.899
Repairs	1,10,100	1,23,000	1,76,200	1,22,548	1,70.151
Establishment	85,000	92,000	85,900	1,04,531	1,04,564
Tools and Plant	2,500	2,500	3,400	1,289	10,954
Stock purchase	32,400	40	30	9,708	7,402
Profit and Loss	.....	.....	1,300	.....	.....
Pension Allowance	.....	.....	.....	.....	1,371
Total	12,45,000	12,43,140	12,52,230	10,56,799	13,38,341

290. The following are the principal works which were completed in the year under report:—

Works.	Sanctioned Amount—Babashai.	Amount Expended—Babashai.
ORIGINAL WORKS.	Rs.	Rs.
Military.		
Substitution of Gateway for Bastion at Amreli	6,894	6,669
Constructing Lines for 3rd Regiment	1,02,420	96,560
Making Porebunder stone flooring in the Verandas of Wards and Medical Store Depôt in Sayaji Rao Military Hospital at Baroda	5,109	5,110
Constructing Military Hospital at Dwarka	18,577	12,847
Do. Quarter-Guard for Dhari Lines	5,925	5,643
Do. New block of Lines at Dhari	9,341	8,591
Do. a Paga to accommodate 70 horses of amalgamated small Khas Paga and Chimnabai's Paga	11,758	10,440
Civil Buildings.		
Constructing Munsiff's Court at Kodinar	11,041	10,501
Sirkar Wada at Kavalana	66,377	55,302
Rebuilding front portion of old Sirkar Wada	8,730	9,708
Do. south side Veranda do.	6,995	9,544
Bungalow for H. H.'s Private Secretary	5,005	4,191
Constructing Municipal Office at Baroda	56,606	53,667
Do. Raopoora School	62,097	62,081
Do. Sirdar School	16,674	15,166
Do. School at Petlad	30,452	29,909
Do. Girls' School at Petlad	13,080	12,205
Do. School at Savli	18,861	18,104
Do. School at Chansama	12,590	9,337
Compound-wall and Porters' Lodge, &c. to new College	10,766	10,394
Communications.		
Road from Baroda to Padra, 1st Section	7,832	4,574
Road from Dwarka to Runn	20,600	18,019
Constructing an iron Top-Bridge of 30' span on Dastoor-wadi, Jamalpoora Road	6,705	5,109
Miscellaneous Public Improvements.		
Constructing Library at Petlad	8,416	8,413
REPAIRS.		
Civil Buildings.		
Repairs to Sirkar Wada at Poona	11,412	7,733
Thorough repairs to Fattesing Maharaja's Haveli	12,075	11,304

291. The following works costing Rs. 5,000 and upwards were under progress at the close of the year under report:—

Works.	Sanctioned Amount — Babashai.	Amount Expended— Babashai.
ORIGINAL WORKS.		
Civil Buildings.	Rs.	Rs.
Wahiwatdar's Kutcherry at Kalol	49,340	20,361
Office for Survey Commissioner	83,909	45,877
Wahiwatdar's Kutcherry at Dhari	28,313	9
Do. do. Sinore	28.313	33
Reconstructing Fouzdar's Kutcherry at Kadi	6,623	5,194
Planking Roofs of Wards in Central Jail	19,661	16,704
State Hospital at Baroda	1,76,697	1,32,440
Dispensary at Gandevi	8,635	3,528
Do. Kathor	8,635	3,449
Do. Damnagar	9,237	4,287
New Laxmivilas Palace	23,90,065	13,29,029
Bungalow for Chief Medical Officer	20,816	19,197
Do. H. H. Jamnabai Saheb	32,347	25,674
New Palace at Makarpoora	1,07,910	37,682
Bungalow for His Highness at Umrat	84,416	47,788
Constructing a single storied Building with Record Shelves behind Kothi	29,000	13,161
Converting Dabhoi Jail into Public Offices	6,350	11
School House at Damnagar	9,906	8,675
Workshop	11,428	1,453
Constructing Dharamshala at Messana	5,767	1,903
Do. do. Oonza	7,351	5,096
Do. do. Sidhpore	14,762	10,926
Converting Peons' Lines into Dharamshala at Kalol	13,094	11,751
Communications.		
Constructing Road from Motibag to convenient point on Makarpoora Road	23,930	83
Constructing Road from Kadi to Kalol	24,817	12,050
Do. do. Baroda to Padra, Section II.	35,810	4,672
Do. do. Maroli to Umrat	76,777	11,524
Widening Vishwamitri Bridge on Railway Station Road.	14,560	16,438
Bridges and Culverts on Sion Kathor Road	12,225	8,226
Miscellaneous Public Improvements.		
Iron work for building the Vishwamitri River	8,400	378
Club House at Bhutadi Zampa	15,996	6,057
Baroda Water Works.		
Surya Water-supply Project	27,26,187	71,665
REPAIRS.		
Civil Buildings.		
Repairs to Bhadar Buildings	31,964	27,773

292. In addition to the works executed through the Public Works Department, some petty works which did not require professional skill were executed by the Revenue and other Departments of the State, and they have not been included in the outlay of the Public Works Department. The aggregate cost of such works was about Rs. 82,755.

293. Amongst the works completed during the year will be found 6 Schools in the Baroda and Kadi Divisions, the Municipal Office in the Baroda City, one Library in the Baroda Division, one Bridge in the Nowsari Division, and one Civil Court, one large road and one Military Hospital in the Amreli Division.

294. The progress of the Laxmivilas Palace was accelerated, the walls having been raised about 7¼ feet during the year and a good commencement having been made with the ground works of the interior decorations. The laying out of the grounds has been retarded owing to the required land not having been yet obtained.

295. The work of the new Palace at Makarpoora made fair progress.

296. At Umrat, on the sea coast, near Nowsari, a small palace, estimated to cost about Rs. 85,000, was begun for the occupation of His Highness the Maharaja in the hot season. To give easy access to that place a road is being made from the Maroli Station of the B. B. & C. I. Railway. In connection with this road, there is a prospect of the reclamation, at small cost, of large areas of land which are now rendered useless owing to occasional flooding by the sea at spring tides.

297. The new Barracks for the 3rd Infantry Regiment were completed and handed over to the Military Department.

298. An expenditure of Rs. 10,000 on a Workshop was sanctioned, and with this sum the Chief Engineer hopes to establish a small place where ordinary repairs can be effected and where the local blacksmith may learn improved methods of manipulating iron and steel.

299. The widening of the old Vishwamitri Bridge was proceeded with at a cost of Rs. 16,438.

300. The most important work commenced during the year under report was the water works for the city of Baroda, which, when completed, will, for all time, attest the wisdom and munificence of His Highness the Maharaja. The first basket-load of the earth of the Dam was, as described above, laid with much ceremony by Mrs. Watson, now lady Watson, wife of the Agent to the Governor-General at Baroda, on 8th January 1885, in presence of His Highness the Maharaja, Her Highness the Maharani, and all the principal Sirdars, Darakdars, and officers of the State. The excavation of the puddle trench was at once vigorously pushed on, the work being done departmentally.

301. The portion of the survey which refers to the drainage of the northern portion of the district into the Khari River at Messana

and thence into the Rupen River, was prosecuted in detail. It has also been found from flying levels that the south-eastern portion of the district can be drained into the Sabarmati, as anticipated, by a drain near Jhulasan, situated altogether on the east side of the Rajputana-Málwa Railway, so that the drainage of the large and important area in this direction will be effected without interference with the Railway which the floods naturally cross. The detailed plans and estimates of this drain will be prepared as soon as those for the northern portion are completed.

I.—Improvement of the Muwal Tank near Saoli.

302. The survey of this is already completed, it having been made in connection with the supply of water to Baroda. The project for this improvement will be prepared after the inspection of the site by Mr. Harichand Gopal, whose services have been lately entertained for drainage and irrigation work.

II.—Survey of the Deo River.

303. Flying levels already taken show that a canal might be made to command considerable area of land on the right bank of the river. A detailed survey will be undertaken after the close of the monsoon.

304. The Messana-Vadnagar Railway project was prepared by the Railway authorities and is under consideration.

305. A pretty comprehensive scheme has been prepared for constructing roads throughout the territory. Some roads have already been completed, some are in progress of construction, some are being surveyed, and some have been only proposed.

PUBLIC PARK.

306. The Public Park has been maintained at a cost of Rs. 20,315. It is not found possible to maintain it in good condition all the year round owing to insufficient supply of water. This can only be accomplished satisfactorily by additional expenditure. The first portion of the Bechraji Road, which will, when completed, give easy access from the northern portion of the city to the Park, will contribute much to the popularity of this beautiful recreation ground.

MUNICIPALITIES.

307. The following is a comparative statement of expenditure incurred on account of Municipalities in the year under report and in the previous year:—

	1883-84.	1884-85.
1. Baroda City Municipality	2,60,432	2,78,317
2. Town Municipalities in the Districts.	74,739	67,517
Total.....Rs.	3,35,171	3,45,834

Baroda City Municipality.

308. The following statement shows the details of the expenses of the Baroda City Municipality :—

No.	Items.	1883-84.	1884-85.
		Rs.	Rs.
1	Office Establishment	19,779	18,243
2	Inspectors and Surveyors	7,407	7,881
3	Conservancy	67,799	71,518
4	Road Repairs	33,189	43,258
5	Watering Roads	29,533	29,135
6	Lighting	28,439	25,909
7	Fire Establishment	5,267	6,205
8	Clearing Wells and Tanks	2,234	3,212
9	Planting of Trees	3,571	2,809
10	Dead-stock and Live-stock	2,116	5,885
11	Buildings and Repairs	58,119	60,747
12	Miscellaneous	2,979	647
13	Garden Expenses	.....	2,868
	Total..... Rs.	2,60,432	2,78,317

309. The increase under the head of "Repairs" is mainly owing to the new road from Yakootpura to the Spinning and Weaving Mills with two culverts over it.

310. The principal articles of dead-stock maintained at the end of the year for the use of the City Municipality are shown in the following table. The articles that remained in the stores at the end

of 1883-84 and those that were purchased during the year under report are shown separately:—

No.	Items.	Dead-stock which remained on hand on 31st July 1884.	Dead-stock purchased during the year 1884-85.	Total.	Remarks.
1	Fire Engines	44	1	45	
2	Carts of all kinds	195	4	199	
*3	Lamp Posts (iron and others)	2,010	.....	1,856	* This difference is owing to 154 old wooden posts having been used in some work.
4	Bracket Lamps	†348	200	548	† The difference of 34 between the figure given here and that given in the last year's report is due to some lamps of more brackets having been separated.
‡5	Fire Tanks	47	.....	52	‡ There were 5 old tanks lying in Wadi Zilla which were not hitherto accounted for.
6	Dust-bins	609	.....	609	
7	Urinals	105	.....	105	
8	Rollers, stone and iron	11	.....	11	
9	Signboards	594	1	595	
10	Cages for trees (wooden and iron)	848	...	847	One was broken.
11	Mud Scrapers	60	.....	60	
12	Cast-iron Pipes	188	.....	188	
13	Porcelain Pipes	21	.....	21	
14	Jack Screw	1	.....	1	
15	Wheel-barrows	20	.....	20	
16	Fire Escape	1	.....	1	
17	Boats	.....	2	2	§These were treated as miscellaneous articles of dead-stock, but in this year they are separately shown.
18	Air Pumps§	2	.....	2	

311. In the year under report one hundred and ninety-four wells and nine tanks were cleaned out and seventy-two wells and tanks were repaired, the corresponding figures for the previous year being 128 wells and 29 tanks cleaned out and 40 wells and 2 tanks repaired.

312. There were in all 12 fires in the city during the year, causing damage to the extent of about Rs. 31,500 as against 20 fires resulting in damage worth about Rs. 16,000.

313. Roads of about 35 miles in length were watered during the year under report as against 25 miles of roads in the previous year.

314. The following is a comparative statement of expenditure incurred during the past five years under different service heads:—

Service Heads.	1880-81.	1881-82.	1882-83.	1883-84.	1884-85.
	Rs.	Rs.	Rs.	Rs.	Rs.
Public Health	88,021	92,351	89,631	1,00,232	1,14,678
Public Safety	25,269	36,420	28,868	36,753	35,703
Public Convenience	22,773	27,058	27,099	30,335	29,936
Public Communications	73,774	81,149	72,353	63,837	70,647
Establishment	20,224	22,756	25,685	27,797	26,853
Miscellaneous	9,899	.....	3,660	1,478	500
Total.....Rs.	2,37,960	2,59,734	2,47,296	2,60,432	2,78,317

315. The revenue of the City Municipality during the year under report and in the past nine years of the new administration is shown in the following table:—

1875-76.	1876-77	1877-78	1878-79	1879-80	1880-81	1881-82	1882-83	1883-84	1884-85
Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
3,864	4,545	4,249	10,097	9,982	8,434	14,841	17,190	15,882	12,936

316. This revenue is derived from the sale of land, fees for permission to erect new houses, privies, &c.

District Municipalities.

317. The total expenditure during the year under report on account of the town Municipalities in the districts is Rs. 67,517 ; that of the previous year was Rs. 74,739.

318. During the year under report two new Municipal Institutions were opened, one at Kathor and the other at Vyara in the Nowsari Division. The annual grant sanctioned for the former is Rs. 825-9-0, and that for the latter is Rs. 808-8-0.

319. The following statement shows the expenditure of the year on these town Municipalities :—

Name of Town.	Sanction.					Expenses.	
	Annual grant.	Special sanction.	Last year's saving.	Municipal Receipts.	Total.	1883-84.	1884-85.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

320. The above expenditure does not include any charges for schools, dispensaries, &c., which are defrayed directly by the State.

321. The following statement will show the expenditure for the past five years on account of Municipalities :—

Division.	1880-81.	1881-82.	1882-83.	1883-84.	1884-85.	Remarks.
	Rs.	Rs.	Rs.	Rs.	Rs.	
Kadi Division	27,936	31,238	36,290	36,446	32,411	
Baroda Division	10,951	14,397	15,515	15,024	13,417	
Nowsári Division	11,285	13,035	15,027	16,230	14,214	
Amroli Division	4,597	8,636	7,787	7,039	7,475	
Total...	54,769	67,306	74,619	74,739	67,517	

Railways.

322. The following lines of His Highness the Gaekwar's State Railways were at work during the year under review :—

		Miles approximately.
From Dabhoi to	Meagaum	20
,, ,,	Chandode	10¾
,, ,,	Bahadarpur	9¾
,, ,,	Vishwamitri Junction	19
	Total.....	59½ Miles.

323. The total capital authorizations up to the 30th June 1885 amounted to Rs. 14,86,066, and the actual expenditure up to that date was Rs. 12,87,261.

324. The total of the capital contributions up to the end of the calendar year 1884, after deducting the sum of Rs. 25,000 withdrawn by His Highness' Government (*vide* para. 329 of the last year's report), was Rs. 13,10,309 (including the sale proceeds of old materials amounting to Rs. 15,309), while the total expenditure on capital account was Rs. 12,63,896, thus leaving Rs. 46,413 as the balance available for further expenditure on 1st January 1885. This balance includes Rs. 16,111-9-0, the value of stores in the hands of the B. B. &. C. I. Railway Company.

325. The expenditure during the calendar year 1884 on capital account was Rs. 9,910, incurred principally on—

1. Construction of a Weir at Kelanpur;
2. Construction of a Culvert on the Chandode Branch;
3. Drain near Baroda Gate, Dabhoi;

4. Improving water supply at Meagaum, Chandode, Bahadarpur and Dabhoi;
5. Engine and Coal-shed at Chandode; and
6. Engine-shed at Bahadarpur.

326. The following statement shows the general results of the working of our open lines for the calendar year 1884 as compared with the figures for the years 1883 and 1882:—

	Totals for 1882, 59½ miles open.	Totals for 1883, 59½ miles open.	Totals for 1884, 59½ miles open.
	Rs.	Rs.	Rs.
Gross Earnings	1,44,022	1,46,969	1,49,091
Expenses	97,275	1,08,384	1,00,531
Net Profit	46,747	38,585	48,560
Return per annum on Capital invested.	3·73	3·07	3·84

327. There was thus an increase of Rs. 2,122, or about 1½ per cent. on the realizations for the preceding year, while there was a decrease of Rs. 7,853 in the cost of working, the result being an increase of Rs. 9,975, equivalent to 26 per cent. on the net earnings for the last year.

328. The following statement shows the gross earnings under their main heads as compared with those for 1883:—

No.	Main Heads.	1883.	1884.	1884.	
				Increase.	Decrease.
		Rs.	Rs.	Rs.	Rs.
1	Coaching Traffic	87,110	92,497	5,387	.....
2	Goods Traffic	59,475	55,776	.....	3,699
3	Telegraph Earnings	224	576	352	.....
4	Sundries	160	242	82	.....
	Total	1,46,969	1,49,091	5,821	3,699
	Net Increase in 1884	.....	.....	2,122	.....

329. The following statement shows the total number of passengers carried during the year 1884 and the two preceding years:—

Class.	Totals for 1882.	Totals for 1883.	Totals for 1884.
	Rs.	Rs.	Rs.
Upper	2,976	3,406	3,478
Lower	2,77,036	2,76,174	2,94,151
Total	2,80,012	2,79,580	2,97,629

330. The earnings derived from the above mentioned passengers are shown below:—

Class.	Totals for 1882.	Totals for 1883.	Totals for 1884.
	Rs.	Rs.	Rs.
Upper	2,113	2,482	2,529
Lower	83,335	81,958	87,102
Total	85,448	84,440	89,631

331. It will be observed from the above statements that there was an improvement in the Coaching Traffic as regards both the number of passengers carried and the earnings realized therefrom, and that the increase in the earnings occurred for the most part in the receipts from the lower class.

332. The following is a statement of the Goods Traffic for the year under review and the two preceding years:—

	Totals for 1882.	Totals for 1883.	Totals for 1884.
Tons	32,112	34,357	31,418
	Rs.	Rs.	Rs
Earnings therefrom	55,216	59,475	55,776

333. The decrease in the receipts from the Goods Traffic as compared with the figures for the last year was principally occasioned by the decrease in the quantities of grain, seeds, stone and sundries carried during the year under report. However, there was, to a small extent, an increase in firewood and mowra.

334. The telegraph and sundry earnings, it will appear, have increased slightly this year.

335. The working expenses for 1884 and the two preceding years are given in the following table:—

No.	Main Heads.	Totals for 1882.	Totals for 1883.	Totals for 1884.
		Rs.	Rs.	Rs.
1	Maintenance	43,355	44,470	33,710
2	Locomotive	25,403	31,717	30,124
3	Carriage and Waggon	4,608	5,390	7,363
4	Traffic	16,176	18,087	17,986
5	General	7,453	8,720	11,348
6	Special and Miscellaneous	280	.....	.....
	Total.....	97,275	1,08,384	1,00,531

336. The total working expenses amounted to about 67½ per cent. of the gross receipts against 73½ per cent. in 1883 and 67 per cent. in 1882.

337. It will be observed from the above statement that while there was an increase of Rs. 4,601 in the carriage and waggon and general expenses, there was a decrease of Rs. 12,454 in the other heads of expenditure as compared with those of the preceding year, the result being a net decrease of Rs. 7,853 in the total working expenses.

338. The maintenance charges show a considerable decrease this year. This was due to the fact that a large amount was spent for maintenance and renewal of permanent way and repairs of bridges, &c., on account of flood damages during the previous year.

339. The decrease in the locomotive expenses was made up principally by the reduction of expenditure on fuel, resulting from the substitution of wood for coal and from the low prices of coal.

340. The traffic expenses correspond very closely with those for the preceding year.

341. The increase in the carriage and waggon expenses was due to repairs and painting of coaching and goods vehicles.

342. The increase in the general charges was principally caused by electric telegraph expenses. This increase was due to the working of the telegraph for the whole year against some months in the preceding year and to the maintenance of the whole line of telegraph, a section of which only was opened in 1883.

343. The lines were worked as in the previous years by the B. B. &. C. I. Railway Company.

344. The following table shows the details of Rolling-stock :—

	Description.	Total Stock authorized.	Total Stock on the list at the end of 1884.	Actual Stock in running order on 31st December 1884.	Remarks.
	Engines	6	6	5	One engine was undergoing repairs at the end of the year.
Coaching Vehicles.	State Saloons	2	2	2	
	Upper Class	3	3	3	
	Lower Class	18	18	18	
	Open Waggons fitted with roofs and doors to carry passengers	4	4	4	
Goods Vehicles.	Open Waggons	155	155	155	
	Covered Waggons	26	26	26	
	Timber Trucks	6	6	6	
	Brake Vans	6	6	6	

345. The total outward and inward traffic dealt with in 1884 at each station, and also the cost of working each station, are shown in the subjoined table:—

No.	Stations and other sources of Revenue.	Outwards.			Inwards.			Total Outwards and Inwards.	Cost of working each Station.	Remarks.
		Coaching.	Merchandize.	Telegraph.	Coaching.	Merchandize.	Telegraph.			
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
1	Miagaum	2,892	51	12	2,700	1,995	1	7,654	3,125

20	Hire of Locomotives†	.....	61	...	.....	61	...	122	.....	† On capital account only.
	Total	92,497	54,579	576	92,497	‡54,579	576	2,95,304	14,832	‡ Exclusive of Rs. 1,197 charged for carriage of revenue stores.

346. The total interest, at 4½ and 4 per cent., on the capital outlay on the State Lines up to the end of the year under review amounted to Rs. 3,72,451; the total net revenue earned was Rs. 3,31,888, thus leaving a net deficit of Rs. 40,563 to be made good.

347. Appendix **Aj** will show the principal commodities carried on the State Railways during the year.

EDUCATION.

348. The following is a comparative statement of the total expenditure of the Educational Department during the year under report as compared with that of the two preceding years:—

	Expenditure in Local Currency.		
	1882-83.	1883-84.	1884-85.
	Rs.	Rs.	Rs.
Baroda High School and College	48,142	49,704	52,577
Sirdars' School	3,784	5,445	5,816
Contribution to Anglo-Indian Institution	2,784	996	1,835
Anglo-Vernacular Schools	5,757	9,408	10,021
Grants-in-Aid to the Nowsari Zartosti Madressa	2,600	2,600	3,200
Grants-in-aid to the Ghandevi School	840	840	British 840
Grants-in-aid to the D. C. T. A. V. School, Nowsari	300	350	British 600
Vernacular Schools	1,25,004	1,44,248	1,47,631
Educational Buildings	2,23,750	1,80,633	1,11,426
Total	4,12,961	3,94,224	3,33,946

349. Excluding the expenditure under the head of "Educational Buildings," the total expenditure for the year amounts to Rs. 2,22,520 as against Rs. 2,13,591.

Baroda College and High School.

350. The staff of the College and High School was the same as in the preceding year, viz.:—

1 Principal,
1 Vice-Principal,
17 Assistant Masters,
1 Gymnastic Master,
1 Writing Master,
1 Laboratory Assistant,
1 Drawing Master, and
1 Persian Teacher.

24 in all.

351. Of the Assistant Masters, 2 are M.A.s, 6 B.A.s, 2 F.E.A.s, and 7 are matriculated students.

352. The following table shows the number of students on the rolls for the month of July 1885 and for the corresponding months in the years 1876 to 1884:—

	1876.	1877.	1878.	1879.	1880.	1881.	1882.	1883.	1884.	1885.
College	...	...	...	...	...	...	28	44	41	42
Upper School...	56	85	102	100	105	143	180	219	243	217
Lower School...	172	241	225	273	270	284	416	430	238	217
Total	228	326	327	373	375	427	624	693	522	476

353. The decrease in the number of boys in 1884 and 1885 as compared with the number on the rolls in 1883 is partly due to the opening of the Anglo-Vernacular School, and also to the operation of a circular regulating new admissions and making the passing of the Vernacular Standard V. a necessary qualification for entrance. In referring to this subject at the annual distribution of prizes to the students of the College and High School on 7th August 1885, His Highness the Maharaja said:—

"In 1884 the Vernacular Standard for admission into English Schools was raised from the 4th to the 5th, a measure which has resulted in less admissions. This was not unexpected. It was with a view to furnish an adequate ground work of Vernacular education, which is looked upon both by masters and pupils as secondary, that the change to a higher Standard was made. Before pronouncing for or against the change, I think we may wait and see how the measure works."

354. The Acting Principal, Mr. H. Littledale, who submitted the Annual Report of the School and College during the temporary absence of Mr. Tait, refers to the increase in attendance up to 1883 and the subsequent decrease, and remarks:—

"The steady increase up to 1883 was due to a steadily increasing flow of pupils from the Vernacular and Anglo-Vernacular Schools of this State, and the steady falling off in our numbers since 1883 has been due to the diminution, and now to almost total cessation, of that flow of boys from those schools."

355. As the Baroda Anglo-Vernacular School was not founded till September 1883, it appears desirable to consider it as a part of the College and High School, so that the average cost may fairly be compared with the figures for 1882-83 and 1883-84. The total expenses and fee collections, including those on account of the Baroda

Anglo-Vernacular School during the year under review, compare as follows with the figures for 1882-83 and 1883-84:—

	1882-83.	1883-84.	1884-85.
	Rs.	Rs.	Rs.
Expenses.....	48,142	52,221	53,886
Fee Collections ...	3,861	5,718	5,699

356. Deducting the amount of collections from the total of ordinary expenses, the annual average cost of educating each pupil was Rs. 81-14-6 in 1882-83, Rs. 86-8-9 in 1883-84, and Rs. 97-4-3 in the year under review. In 1881-82 the average cost was Rs. 90-11-3, and in 1880-81 it was Rs. 109-8-10. The higher cost in 1883-84 and 1884-85 was evidently owing to the falling off in numbers. The cost of establishment remains the same, while the smaller numbers affect the average.

357. The High School sent up 26 students for the Matriculation Examination of the Bombay University, of whom 23 or nearly 88 per cent. were successful. This is a very gratifying result. In no previous year was the number so large as in the year under review, as will be seen from the following table:—

	1876.	1877.	1878.	1879.	1880.	1881.	1882.	1883.	1884.	Total.
Number Passed	2	4	4	10	6	10	10	8	23	77

358. Fourteen of the 23 successful students joined the Baroda College, and to each of the first five, scholarships worth Rs. 5 per mensem were awarded.

359. Twenty-two students were sent up for the Previous Examination of the University and 7 passed. In 1883 the number of passed was 14.

360. Of the old pupils of the School and College, 2 passed the B.A. Examination and 1 passed the Final Examination in Engineering in 1884.

361. There were, during the year, 5 students holding Sarkar Scholarships of Rs. 20 per mensem each, and prosecuting their studies at other Colleges affiliated to the University of Bombay.

362. The Melvill Memorial Scholarship, tenable for two years, continued to be held by the same student to whom it was awarded in 1883.

363. The Annual Prize distribution took place in the College on 7th August 1885, at which His Highness the Maharaja presided.

364. The following statement shows the number of students in the School and College, the nationalities of the students, the number

studying different languages, the average daily attendance and the monthly rate of school fee :—

Name of Institution.	Number of Pupils on the Roll at the end of the official year.				Daily Average attendance.	Number of Pupils studying in each Language at the end of the official year.					Monthly rate of Fees.
	Hindus.	Mahomedans.	Parsis.	Total.		English.	Marathi.	Gujarati.	Sanskrit.	Persian.	
1	2	3	4	5	6	7	8	9	10	11	12
Baroda College and High School.	College 39 / School 407 } 446	School 6	College 3 / School 21 } 24	College 42 / School 434 } 476	365·4	478	185	205	College 30 / School 183 } 213	College 13 / School 67 } 80	Rs. a. p. College.....2-8-0 Upper School 1-0-0 Lower School 0-8-0

365. The number of books in the School Library is shown by the following table :—

On 31st July,	Number of Books.
1881	596
1882	692
1883	760
1884	833
1885	918

366. The School Gymnasium is well attended. His Highness the Maharaja witnessed the athletic sports of the students on 16th March 1885.

367. One new branch of instruction has been added to the school course. In 1884 a drawing class was opened. Being a new thing, and although the attendance was voluntary, the novelty of the thing attracted a sufficiently large number. Still 10 boys appeared at the 1st grade Drawing Examination of the Bombay School of Art. Of these, 4 passed in all heads (*viz.*, free-hand drawing, model drawing and geometry), and obtained first grade certificates, and six gained prizes for proficiency in single subjects. These results are gratifying. It is in contemplation to make elementary drawing a compulsory subject to be taken up by all boys in the school except those of the 1st class, whose time is necessarily taken up by other subjects. The daily voluntary class for the art certificate will also continue.

368. A boarding-house* for the College students is in progress and will shortly be opened.

369. A fairly good laboratory was sanctioned for the School and College, and a large and varied collection of apparatus was obtained from England.

N.B.—It has been opened since, and appears a popular appendage to the College.

370. The Prize Fund and the State Scholarships awarded to students prosecuting their studies in the College and High School remained as before.

Sirdars' School.

371. This special Institution, opened exclusively for the education of the Sirdars and other higher classes, has completed the third year of its existence.

372. The staff of the school, as in the last year, consists of—

1 Head Master,
1 First Assistant Master,
1 Marathi Teacher,
1 Guzerathi Teacher,
1 Urdu Teacher,
1 Marathi Assistant Teacher.

373. Of these, the Head Master is a M.A. and the 1st Assistant a B.A. of the University of Bombay.

374. The following table gives the necessary details about the number of pupils, average attendance, and the charges on account of this school:—

Year.	Number of Pupils on the Rolls at the end of the official year.				Average Daily Attendance.	Charges.			Remarks.
	Hindus.	Mahomedans.	Others.	Total.		Ordinary.	Extraordinary.	Total.	
1884-85	36	19	...	55	35·16	5,666-6-8	150-0-0	5,816-6-8	
1883-84	33	17	...	50	36·8	5,411-13-11	33-7-0	5,445-4-11	

375. The total number at the end of 1882-83 was 46. This shows an increase in the number on the roll. The average attendance, it will be observed, has somewhat fallen. There are various difficulties in the way of securing good average attendance which is not necessary to mention here.

376. The falling off in the average attendance has necessarily caused an increase in the average annual cost per pupil, *viz*, from Rs. 165 against Rs. 148.

377. The boys continue to devote a portion of their time to athletic exercises.

378. The school was removed to the building built for it and referred to in para. 378 of the last year's report.

379. The prize distribution to the students of this school took place on 3rd November 1885.

Anglo-Vernacular Schools.

380. No new Anglo-Vernacular School was opened nor any old one closed during the year under report; so that the number of Anglo-Vernacular Schools in this territory remained the same as in the year 1883-84.

381. The following table gives particulars about the number of students and their average attendance, race, &c.:—

No.	Name of Institution.	Number of Pupils on Rolls at the end of the Official Year.				Average Daily Attendance.	Monthly rate of School Fee.	Receipts.		Disbursements.			Monthly rate of Establishment.	Annual cost of educating each Pupil.	Remarks.
		Hindus.	Mahomedans.	Parsis.	Total.			From Government.	From Fees sent to the Treasury.	Ordinary.	Extraordinary Prizes, Travelling Allowance	Total.

382. The above table shows a decline in the number of students. The number in 1883-84 was 445, or, deducting the Baroda Anglo-Vernacular School, 309 as against 425, or, exclusive of the Baroda Anglo-Vernacular School, 278 in the year under report. There is thus a falling off of 20 if we include, or of 31 if we omit, the Baroda Anglo-Vernacular School, which is a branch of the High School. The figures for 1883-84 also showed a decrease over those for 1882-83. This continuous decrease is due to the perceptibly less admissions from the Vernacular Schools in consequence of the raising of the standard for admission. The measure is an experimental one, and it is yet too soon to say that it threatens the existence of the Anglo-Vernacular Schools.

383. The annual average cost per pupil was Rs. 22-9-3 as against Rs. 19-9-3 in the previous year, and Rs. 17-5-6 in the year before the last. The falling off in attendance evidently affects the annual average cost, as the cost of the establishment remains the same and cannot be reduced owing to a smaller number of boys attending the classes.

384. The results of the annual examinations of the different Anglo-Vernacular Schools show that the schools at Baroda, Kadi, Patan, Sidhpore, Visnagar and Amreli have improved.

Aided Schools.

Sir Cowasji Jehangir Nowsari Zartosti Madressa.

385. As mentioned in para. 394 of the Report for 1883-84, the grant-in-aid given by the State to this school was raised from Rs. 2,600 to Rs. 3,200.

386. The staff at the end of the year under review consisted of—

1	M. A.,
1	B. A.,
2	F. E. As.,
1	Zend Master,
1	Matriculated Student,
1	Gymnastic Master.
Total 7,	the same as in the last year.

387. The following table gives the necessary details about the number of students, average attendance, rate of fee, and the cost of educating each pupil:—

Year.	Number of Students on the Rolls at the end of the year.					Average Daily Attendance.	Monthly rate of Fee.	Annual Cost.	Cost of educating each Pupil.
	Hindus.	Mahomedans.	Parsis.	Others.	Total.				
							As.	Rs.	Rs. a p.
1884-85	19	1	67	...	87	68·75	8	6,580	82 11 8
1883-84	25	...	59	...	84	69·	8	6,143	72 8 3

388. Though the total attendance has a little increased, the daily attendance has slightly fallen off; but, principally owing to an increase in the expenditure, the average annual cost has increased.

389. The school was inspected by Mr. Tait in November 1884.

Ghandevi English School.

390. This school is aided by an annual grant of Rs. 600, or Rs. 50 per month, to which is added another grant of Rs. 20 per mensem, conditional on a similar grant being made by the Desai of Ghandevi or the Trustees.

391. The staff consists of a Head Master and two Assistants.

392. The following table gives the usual details about the number of pupils, average attendance, race, rate of fee, and average annual cost per pupil:—

Year.	Number of Pupils on the Rolls at the end of the year.					Average Daily Attendance.	Monthly rate of Fee.	Annual Cost.	Average Annual Cost per Pupil.
	Hindus.	Mahomedans.	Parsis.	Others.	Total.				
								Rs. a. p.	Rs. a. p.
1884-85	27	...	34	...	55	48·3	Re. 1 As. 8 As. 4	1,435 12 0	29 11 7
1883-84	23	...	28	...	57	49	Do.	1,526 0 0	30 10 6

393. The school is gradually losing in numbers year after year, as the following shows:—

July 1882	69
„ 1883	60
„ 1884	57
„ 1885	55

394. The school was inspected by Mr. Tait in November 1884.

Dadabhai Cowasji Tata Anglo-Vernacular School at Nowsari.

395. This school receives a grant of Rs. 50 per mensem.

396. The strength of the staff was the same as in the year 1883-84, namely:—

1 Head Master, 3 Assistants in the Anglo-Vernacular Branch, and 3 Assistants in the Vernacular Branch.

397. The following table gives the necessary details about the number of pupils on the rolls, average attendance, &c:—

Year.	Number of Pupils on the Rolls at the end of the year.					Average Daily Attendance.	Monthly rate of Fee.	Annual Cost.	Annual Average Cost per Pupil.
	Hindus.	Mahomedans.	Parsis.	Others.	Total.				
								Rs.	Rs. a. p.
1884-85	6	2	211	...	219	200·6	As. 8	2,055	8 12 0
1883-84	5	3	194	...	202	178·8	As 8	1,858	10 6 6

398. The total attendance has increased by 17 and the average attendance by 22.

399. The permanent Endowment Fund now amounts to Rs. 11,400, of which Rs. 11,000 are represented by 4 per cent. Government Paper and Rs. 400 by a 4 per cent. Port Trust Bond. This last was an endowment received by the school in the year under report.

400. The condition of the school elicited favourable remarks from the Director of Anglo-Vernacular Instruction and from several other officers who visited it during the year.

Vernacular Schools.

401. The Vernacular Department is steadily expanding its operations. More schools are being annually added to the already fair list, and many more will still be added in the years to come. There is yet a wide scope for expansion, and His Highness the Maharaja has recently sanctioned a scheme under which about thirty new schools will be opened every year.

402. A glance at the following table will show the extent of the expansion above referred to. It will be seen that where in 1871-72 there were only five schools attended by 822 boys, for whose education the State then spent Rs. 13,303, there were at the end of the year 1884-85 no less than 241 schools attended by 24,359 scholars, on whose account the State spent Rs. 1,47,391. Thus the number of schools has increased 48 times, the number of scholars 30 times, and the expenditure 11 times:—

Year.	Number of Schools.	Number of Scholars.	Gross Expenditure without deducting Fees (Babashai).
1871-72	5	822	13,303
1872-73	34	2,268	15,350
1873-74	32	2,233	21,674
1874-75	55	4,599	26,560
1875-76	70	6,478	32,605
1876-77	104	11,172	63,190
1877-78	105	11,454	66,870
1878-79	105	10,691	70,606
1879-80	145	13,380	81,293
1880-81	180	17,465	96,805
1881-82	204	20,703	1,06,818
1882-83	224	23,646	1,25,004
1883-84	228	23,833	1,44,248
1884-85	241	24,359	1,47,631

403. About the close of the year under report the Director of Vernacular Instruction, Mr. Bhogilal Pranavallabhdass, retired on pension, and the Inspector, Mr. Hargovindass Dwarkadass, succeeded to the post. Mr. Bhogilal is well known in Guzerat as an old educationist, and it is needless to mention that he rendered good service to this State, and the Vernacular Education Department owes its development to him.

404. The following table shows the number of schools and the pupils attending them according to the classes of those schools:—

Class of Schools.	Number of Schools.		Number of Scholars.	
	1883-84.	1884-85.	1883-84.	1884-85.
Government	206	211	22,566	22,467
Funded	...	1	...	13
Aided Indigenous	22	29	1,267	1,879
Total	228	241	23,833	24,359

405. Of the 206 schools at the end of 1883-84, one is now entirely supported from the funds of the Bahucharaji Temple, and is thus classed as a funded school; to the remaining 205, eight new schools were added during the year under review and two were closed on account of want of attendance.

406. The number of indigenous schools which availed themselves of Sarkar aid was greater than in the previous year.

407. The number of girls' schools was the same as in the preceding year. The average attendance, however, in these schools seems to have fallen off by about 2 per cent. The average attendance last year was 1,616, while in the year under review it was 1,577.

408. The schools may be variously classified as follows:—

1st.—According to Grades.

Grade.	1883-84.		1884-85.	
	Number of Schools.	Number of Scholars.	Number of Schools.	Number of Scholars.
Superior	48	10,854	52	10,948
Middle	118	10,525	122	10,667
Inferior	62	2,454	67	2,744
Total	228	23,833	241	24,359

2nd.—According to the Languages taught.

Languages.	1883-84.		1884-85.	
	Number of Schools.	Number of Scholars.	Number of Schools.	Number of Scholars.
Guzerathi	186	20,937	200*	21,396
Marathi	20	1,044	20	1,047
Sanskrit	11	243	11	259
Urdu	11	1,009	10	1,057
Total	228	23,833	241	24,359

3rd.—According to the Districts in which they are situated.

Districts.		1883-84		1884-85.	
		Number of Schools.	Number of Scholars.	Number of Schools.	Number of Scholars.
Kadi Division		74	8,087	77	7,935
Baroda Division	Baroda City	27	2,850	31	3,176
	Do. Division	66	7,931	67	7,938
Nowsari Division		29	2,932	32	3,074
Amreli Division	Amreli	19	1,310	21	1,456
	Okhamandal	13	723	13	780
Total		228	23,833	241	24,359

* Inclusive of the Guzerathi Training School for boys and the Female Training class.

409. The following table gives details regarding the 31 schools in the Baroda City :—

Schools.	1883-84.		1884-85.	
	Number of Schools.	Number of Scholars.	Number of Schools.	Number of Scholars.
Training Institutions	.....	.....	2	42
Sanskrit	9	198	9	201
Marathi	7	991	7	1,024
Guzerathi	5	1,160	8	1,445
Urdu	1	117	1	75
Girls' Schools	5	384	4	389
Total	27	2,850	31	3,176

410. The Female Training School which was shown as a girls' school in the report of the preceding year is now shown as a training institution, hence the apparent diminution in the number of girls' schools. The number of pupils in the remaining four schools in the year under report was larger than in the five schools in the preceding year.

411. The average number of scholars throughout the year was 24,249·1 as against 23,942 in the preceding year and 22,367 in the year before the last.

412. The following table shows the numbers and percentages of pupils belonging to each community :—

Section of the Community.	1883-84.		1884-85.	
	Average Number of Pupils.	Percentage.	Average Number of Pupils.	Percentage.
Brahmans	5,735	23·9	5,820	24
Banias	4,373	18·2	4,466	18·4
Kunbis	4,230	17·7	4,185	17·2
Kolies, Bhils, &c.	1,049	4·4	1,261	5·2
Dheds, Chamars, &c.	100	·4	284	1·2
Other Hindus	6,020	25·2	5,748	23·7
Mahomedans	2,317	9·7	2,331	9·6
Other Creeds	118	·5	154	·7
Total	23,942	100	24,249	100

413. As regards expenditure the following statement compares the figures of the year under review with those of the preceding year:—

Heads of Expenditure.	1883-84.		1884-85.	
	Amount of Grant.	Amount expended.	Amount of Grant.	Amount expended.
	Rs.	Rs.	Rs.	Rs.
Direction	11,748	11,602	11,662	11,005
Inspection Deputy Inspection	8,440	8,245	8,250	8,156
Special Examiners	124	124	.....	.....
Sanskrit Supervision	1,248	1,248	1,248	1,248
Sanskrit Library	528	526	528	528
Baroda Central Book Depôt	1,104	1,104	1,104	1,104
Instruction, Travelling Allowance, &c.	1,16,001	1,08,366	1,19,954	1,13,595
Contingencies	11,468	11,215	9,787	8,849
Grants-in-aid	700	639	700	770
Special Scholarships	394	321	723	683
Assignment for the purchase of new Vernacular Books published, by way of encouraging literature	1,000	858	1,608	1,593
Total.....	1,52,755	1,44,248	1,55,564	1,47,631

414. Thus the total expenditure was in excess of that in the preceding year by Rs. 3,383 and of that in the year before the last by Rs. 22,627.

415. Rupees 3,157 were spent on account of prizes as against Rs. 3,299 in the preceding year. Besides this, prizes and sweetmeats of the value of Rs. 2,247 were distributed to the various schools by private visitors.

416. The fee collections during the year amounted to Rs. 17,530 as against Rs. 17,004 in the previous year. The particulars of the collections are as follows:—

District.	Amount in 1883-84.	Amount in 1884-85.
	Rs.	Rs.
Baroda City	1,617	1,853
Baroda Division	5,986	6,446
Nowsari do.	1,854	1,914
Kadi do.	6,291	6,036
Amreli do.	817	840
Okhamandal Division	439	441
Total.....	17,004	17,530

417. The rates of fees in the Vernacular schools are 1 and 2 annas, and the average cost per pupil is Rs. 4-8.

418. The total expenses may be summed up as follows:—

No.	Item.	1883-84. Expenditure.	1884-85. Expenditure.
		Rs.	Rs.
1	Instruction, Direction, &c.	1,44,248	1,47,631
2	School-houses	1,80,622	1,11,426
	Total	3,24,870	2,59,057
	Deduct amount of Fees	17,004	17,530
	Net Total	3,07,866	2,41,527

419. The experiment regarding the *Antyaj* schools, or schools for the use of the children of the Dheds and other cognate classes referred to in para. 421 of last year's report, having proved fairly successful, six more schools of this description were opened in the year under report. The number of boys in these schools thus rose from 82 at the end of 1883-84 to 290 at the end of the year under review.

420. Special encouragements in the shape of supply of books, slates, and other things usually required by school-going children, and exemption from school fees, were resorted to, so as to attract the children of the above classes and of Bhils, Kolis, and cognate classes. The results, however, though favourable on the whole, were rather fitful, as the following table will show:—

Years.	Kolies.	Bhils.	Vaghris.	Dhankas.	Waghers.	Dublas.	Naikas.	Machhis.	Dheds, Chamars, and such others.	Total.
1884-85	758	29	24	20	9	68	8	211	290	1,417
1883-84	878	32	39	50	7	46	8	206	82	1,348
Increase	...	...	...	...	2	22	...	5	208	69
Decrease	120	3	15	30	...	...	...	...	.....	.....

421. One of the schools opened for the instruction of children of the Bhil and cognate tribes has been provided with a boarding-house with accommodation for fifty boys. It is hoped that the various measures thus adopted for encouraging education among lower classes will in time yield good results.

Book Depôt.

422. A sum of Rs. 7,000 was at the disposal of the Director of Vernacular Instruction as a permanent advance towards the purchase of books to be kept in stock in the Depôt.

423. The following table compares the stock in hand on the last day of the year under report with that on the corresponding date in the preceding year:—

	Number of Books in stock.	Price. Rs.	a.	p.
On the 31st July 1885	1,07,407	18,966	7	11
Do. do. 1884	1,01,611	17,566	2	2½

424. The following table shows the number and value of books sold during the year under review and the six preceding years:—

Years.	Number of Books sold.	Value of Books sold. Rs.	a.	p.
1878-79	28,099	6,455	5	9
1879-80	26,307	5,825	11	1
1880-81	33,796	8,219	2	11
1881-82	44,498	10,433	12	1
1882-83	62,961	13,616	11	1
1883-84	68,711	14,728	2	2½
1884-85	73,214	12,927	5	4½

Baroda State Library.

425. During the year under report there was no change in the constitution and management of this Institution.

426. A fresh donation of Rs. 500 for the purchase of books was granted during the year by His Highness' Government.

427. On 31st July 1885 there were in the Library

1,599 English books,
553 Marathi books,
676 Guzerati books,
151 Hindustani books, and
224 Sanskrit books.

3,203 in all, that is 242 books more than those on the last day of the preceding year.

428. In addition to the papers and periodicals subscribed for by the Library, the State continued to it several newspapers, journals, &c., ordered on Sarkar account.

The Government Printing Press.

429. The total expenditure incurred during the year 1884-85 was Rs. 25,854 against Rs. 23,799 in 1883-84, showing an increase of

Rs. 2,055 over the expenditure of the last year. The particulars of the expenditure are as follows:—

	1884-85. Rs.	1883-84. Rs.
Establishment	7,996	7,150
Contingencies	812	1,475
Printing Paper	14,601	12,548
Machinery, Types, &c	2,423	2,260
Repairs to Buildings, &c	22	366
Total	25,854	23,799

430. The work of the Printing Press has been, as observed before, steadily growing. It was to cope with this increase that an addition to the existing establishment was sanctioned during the latter part of the preceding year. The full strength of the establishment was, however, only entertained from the commencement of the official year under notice, and hence an increase of Rs. 846 over the last year's expenditure in this item.

431. The decrease of Rs. 663 in the item of *Contingencies* is nominal.

432. The Railway freight and other incidental charges on account of the carriage of paper and other articles required for the Press used to be included heretofore under this head. During the year under report these charges have been added to the prime cost of the articles for which they had been incurred.

433. The increase of Rs. 2,053 in the charges of *Printing Paper* is partly due to the above transfer of carriage charges and partly to the increased consumption of paper owing to a larger amount of work done.

434. The decrease of Rs. 344 in the amount of Petty Repairs is due to the works connected with the institution having been debited this year to the Public Works Department, as the work was executed through the agency of that Department.

435. The work done in the Press during the year consisted as usual of Judicial, Revenue and other forms, circulars, notices, registers, &c. The new Survey and Settlement Department has caused a considerable addition to the work.

Medical Department.

436. The total strength of the Department on the 31st of July 1885 consisted of 11 officers, 52, Hospital Assistants of all grades, 41 Medical Pupils, 1 Midwife, 2 Veterinary Surgeons and 1 Veterinary pupil against 11, 52, 41, 1, 1 and 1 respectively in the previous year.

437. The following statement will show the strength and cost of the Medical Establishment as it stood at the close of the year under report.

Division.	Establishment.	Monthly Cost. Rs.	a.	p.	Annual Cost. Rs.	a.	p.
Baroda City.	Head Office	1,023	7	11	12,281	15	0
	Midwife	91	1	3	1,092	15	0
	General Duty	911	14	8	10,942	11	0
	Jamnabai Civil Hospital	601	3	9	7,214	13	0
	State Hospital	551	0	0	6,612	0	0
	Sayajirao Military Hospital	559	10	6	6,715	14	0

	Total	1,456	13	0	17,481	12	0
	GRAND TOTAL	9,401	0	9	1,12,812	9	0

438. The above amount of Rs. 1,12,812-9-0 was exclusive of the cost of medicines, instruments, furniture, buildings and pensions.

439. The total actual cost during the year as compared with that of the previous year may be summarized as follows:—

	Mixed Currencies, 1883-84.	Mixed Currencies, 1884-85.
	Rs. a. p.	Rs. a. p.
Establishment	94,108 7 1	1,01,305 12 4
Medicines and Instruments	18,569 2 6	15,552 11 8
Dead-stock and Contingencies	23,182 10 10	21,067 0 9
Buildings and Repairs	97,105 0 0	82,569 8 1
Total	2,32,965 4 5	2,20,495 0 10

440. Excluding the expenditure under the head of *Medical Buildings* the total expenditure during the year comes to Rs. 1,37,925-8-9, thus showing an increase of Rs. 2,065-4-4 over the expenditure in the last year.

441. The increase under *Establishment* may be chiefly attributed to

(1) Increase to the salary of 8 medical officers.
(2) Allowance to Dr. Shamsudin when on special duty in England.
(3) The temporary appointment of Dr. Dhume for one year, of which two months had elapsed in the preceding year and the remaining ten months in the year under report.

442. The total number of permanent institutions that were in full working order in the year under review was very nearly the same as in the preceding year, viz., 12 Hospitals and 29 Dispensaries, with the addition of one Veterinary Hospital at Deesa.

443. During the year under review a temporary Dispensary was opened for four months in the town of Velachha owing to the prevalence of fever, as in the preceding year.

444. The building for the Okha Battalion Hospital, which was under construction last year, was completed and handed over to the Department during the year.

445. The building for the State Hospital and the Dispensaries at Songarh, Kathore, Ghandevi, and Vyara were still under construction. Those at Saoli, Sankheda, and Mohwa have not yet been commenced. Sites have, however, been selected for them.

134769

446. The Lunatic Asylum and Leper Hospital at Ansuya are still under consideration.

447. The additional rooms sanctioned for the Pharmaceutical Laboratory have been completed, but the boiler and furnaces remain to be put up.

448. The value of Medical stores on hand at the close of the preceding year was as follows:—

	Rs.	a.	p.
Medicines	9,008	1	3
Instruments and Necessaries	7,091	10	6
Dead-stock	226	8	3
Total	16,326	4	0

449. That of stores purchased during the year was:—

	Rs.	a.	p.
Medicines	17,002	3	4
Instruments and Necessaries	1,870	14	7
Dead-stock	236	4	10
Total	19,109	6	9

450. The value of medicines, instruments and necessaries and articles of dead-stock issued from the Stores' depôt was:—

	Rs.	a.	p.
Medicines	14,628	5	1
Instruments and Necessaries	924	6	7
Articles of Dead-stock	188	6	6
Total	15,741	2	2

against Rs. 18,838-7-0 in the preceding year.

451. The stores available on 31st July 1885 were worth:—

	Rs.	a.	p.
Medicines	11,156	13	4
Instruments and Necessaries	7,847	10	9
Articles of Dead-stock	274	6	7
Total	19,278	14	8

452. The total expenditure on account of the establishment attached to the stores and contingencies was Rs. 3,378-8-6 against Rs. 3,461-10-5 in 1883-84.

453. The results of the work of the various Medical agencies are shown below :—

Name of Institution.	1883-84.			1884-85.			Increase.	Decrease.

454. The following table shows the number of in-door and out-door patients treated in all the institutions in the year under report as compared with that in the two previous years:—

Years.	In-door Patients.	Out-door Patients.	Total.
1882-83	6,843	1,75,090	1,81,933
1883-84	6,995	1,92,175	1,99,170
1884-85	7,356	2,14,938	2,22,294
Increase in 1884-85 over 1883-84	361	22,763	23,124

455. The increase in the number of patients shows the growing popularity of the Institutions.

456. Of the total number treated, there were:—

	1883-84.	1884-85.
Cured	1,80,969	2,03,185
Absented	15,456	15,912
Died	253	204
Remained	2,492	2,993
Total...	1,99,170	2,22,294

457. The ratio of death to the total number treated was 1·5 against 2·1 in 1883-84 among in-door, and ·04 against ·05 in 1883-84 among out-door patients.

458. The daily average attendance was 240·3 in-door and 2,772·09 out-door patients against 249·27 and 2,434·65 respectively in the previous year.

459. Of the total number of patients treated, there were:—

	1883-84.	1884-85.
From the Civil Population	1,84,726	2,06,950
,, ,, Jail	1,956	2,253
,, ,, Military	9,067	8,981
,, ,, Police	3,421	4,110

460. The total number of persons treated may be variously classified as follows:—

1*st*.—According to religion—

	1883-84.	1884-85.
Hindus	1,55,174	1,71,347
Mahomedans	29,763	32,759
Parsis	12,478	15,126
Christians	206	222
Others	1,549	2,840
Total..	1,99,170	2,22,294

2*nd*.—According to sex—

	1883-84.	1884-85.
Males	1,07,744	1,17,767
Females	35,410	39,477
Children	56,016	65,050
Total...	1,99,170	2,22,294

461. The surgical operations performed at the various institutions were:—

YEARS.	Major.	Minor.	Total.
1882-83	133	7,583	7,716
1883-84	645	7,916	8,561
1884-85	921	9,189	10,110

462. Taking the total cost of the Medical Department to be Babashai Rs. 1,47,582-8-9 and the total number of patients treated 2,22,294, the average cost per patient, in-door and out-door, was:—

	Rs.	a.	p.
In the year under report	0	10	7
In the preceding year	0	11	8

463. The strength of the Vaccination Department remained the same as in the preceding year. It consisted of 3 full-timed Inspectors, 31 Vaccinators of all grades, 8 Probationers and 34 Peons.

464. The work done by the Vaccination establishment is shown in the following table as compared with that of the three preceding years:—

YEARS.	Number of Vaccinators employed.	Total number of Persons vaccinated and re-vaccinated.	Number of Persons successfully vaccinated.	Average number vaccinated by each Vaccinator.	Percentage of successful Vaccinations to total number vaccinated.	Average number vaccinated per 1,000 of population.
1881-82	31	66,934	64,777	2,159	96·7	30·6
1882-83	31	69,450	66,907	2,240·3	96·3	31·7
1883-84	31	70,492	67,457	2,273·9	95·6	32·2
1884-85	31	66,645	63,896	2,149·8	95·9	30·5

465. The classification of persons vaccinated was according to sex as follows:—

Years.	Males.	Females.	Percentage of Males to Females.
1882-83	36,556	32,894	89·9
1883-84	37,391	33,101	89·1
1884-85	35,211	31,434	89·8

466. According to religion it was as follows:—

Years.	Hindus.	Mahomedans.	Parsis.	Christians.	Others.	Total Primary Vaccinations.
1882-83	58,942	5,421	186	17	4,533	69,099
1883-84	61,058	5,039	42	15	3,941	70,095
1884-85	57,972	4,617	62	14	3,652	66,317

467. The subjoined table shows the ages of the persons primarily vaccinated as compared with the preceding year:—

Years.	Total number of Primary Vaccinations.	Ages.			Ratio per cent.		
		Under 1 year.	Between 1 and 6 years.	Above 6 years.	Under 1 year.	Between 1 and 6 years.	Above 6 years.
1883-84	70,095	56,984	12,524	587	81·2	17·9	·9
1884-85	66,317	56,579	9,391	347	85·3	14·2	·5

468. The total cost of the Vaccination establishment was as follows:—

Years.	Number of Persons vaccinated and re-vaccinated.	Total Cost in Babashai Currency.	Total successful operations.	Average cost per successful operation.
		Rs.		Rs. a. p.
1883-84	70,492	13,571	67,457	0 3 0
1884-85	66,645	13,789	63,896	0 3 3
Increase	.....	218	.....	0 0 3
Decrease	3,847	.....	3,561	.....

469. The midwife attended 74 labour cases during the year under review against 53 in 1883-84, 77 in 1882-83 and 69 in 1881-82. Of these, 28 were cases of natural labour, 6 of unnatural, 33 of tedious, 4 of difficult and 3 of premature labour. In 4 of these cases operation for turning was performed by the midwife, and in an equal number of cases craniotomy was resorted to.

470. The total number of sick horses treated during the year in the Veterinary Hospital was 1,000. Of these, 907 were cured, 19 relieved, 29 absented, 1 pronounced incurable, 20 died and 24 remained under treatment at the close of the year.

471. The percentage of deaths to total treated was 2 against 2·1 and 4·4 respectively in the years 1883-84 and 1882-83.

472. The total number of horses treated by the *Salootri* during the year was 1,219. Of these, 1,171 were cured, 15 died, 2 were relieved, 3 pronounced incurable and 28 remained under treatment.

473. The total number of cases received for chemical analysis by the Chemical Analyser was 128, and the number of articles received in connection with them was 540, being 48 more than those of the previous year.

474. The articles are classed as follows:—

Names of Items examined chemically.	Their number in 1884-85.
Human Viscera	121
Articles of clothing	126
Weapons, Sticks, &c., with stains on	80
Articles of Food	30
Samples of Water	84
„ Liquor	3
„ Roots, Seeds, &c.	3
„ Silver	1
„ Stones and Crystals	7
Bones	1
Miscellaneous articles, such as Powders, Pills, &c.	84
Total	540

475. Six hundred and one works of reference were available in the Office Library on 31st July 1884. The works purchased during the year under review number 239, thus making a total number of 840 works available.

476. One weekly and three monthly publications were subscribed for in the year 1885 commencing from January, and three other publications, which were subscribed for in the previous year, were discontinued.

477. Cholera prevailed in a mild form in the Baroda City from 5th June 1885 to the beginning of July, when it assumed a severe aspect, and lasted till the beginning of September. It raged very violently among the men employed on the water-works at Ajwa.

478. Of the total number of cases, viz. 308, reported in the Baroda City, 168 were cured, 135 proved fatal and 5 absented.

479. The epidemic also prevailed to some extent in the Nowsari, Kadi, and Amreli districts, but in a very mild form in the two latter districts.

480. Small-pox prevailed during the year under report in the Baroda City and Sankheda Taluka in a very mild form. Chicken-pox was confined to the town of Nowsari, where out of 17 cases 1 proved fatal.

481. The usual statistical details will be found in the Appendices.

PALACE.

482. The ordinary expenditure of the palace for the year 1884-85 was Rs. 18,23,208 against Rs. 21,53,719 for 1883-84, showing on the whole a decrease of Rs. 3,30,511.

483. The following is a comparative statement of the figures for the year under report and of those for the last year under the principal heads:—

No.	Head of Expenditure.	Expenditure for the year 1884-85.	Expenditure for the year 1883-84.	Increase.	Decrease.
1	2	3	4	5	6
		Rs.	Rs.	Rs.	Rs.
1	Household	5,43,893	9,23,452	.....	3,79,559
2	Karkhanas	6,45,444	7,25,831	.....	80,387
3	Gardens	34,830	35,850	.....	1,020
4	Devasthans.....	2,07,949	58,860	1,49,089	.....
5	Dharmadaya	3,28,342	3,13,234	15,108	.....
6	Sowari.....	62,750	96,492	.....	33,742
	Total.....	18,23,008	21,53,719	1,64,197	4,94,708
				Deduct Increase Rs....	1,64,197
				Net Decrease Rs....	3,30,511

484. The large decrease in the household is due to the transfer of allowances of Ashrits to Devasthans and also to there being no extraordinary expenditure as in last year on account of the birth of the son and heir to His Highness the Maharaja.

Revenue Department.

485. No change of any importance was introduced during the year in the constitution of the Department. The separation of the financial from the fiscal department was given effect to during the year under report. A year's experience of this measure has not only given no cause for regret, but has afforded satisfactory grounds to strengthen and confirm the belief that it was indispensable in the best interests of the public service.

486. The *personnel* of the Sir Subha's office remained unchanged, except that an officer from the British service was appointed to the post of Assistant Sir Subha. Mr. Ramchandra Vithoba Dhamnaskar, the officer appointed, joined his appointment on the 27th August 1884.

487. In the district official staff there were two fresh accessions to the Department. Mr. Raghunath S. Dali, B.A., LL.B., for some time Shirastedar at Sangli, was attached to the office of the Naib Subha, Vyara Sub-Division (Nowsari District), to assist Mr. Anant Gangadhar Khote, whose services were transferred permanently from the Police to this Department, and who had, in addition to the Revenue and Magisterial work of the sub-division, to look after the important and valuable forests in that district, and was, besides, entrusted with the work of detecting the frauds in the forest administration, of which mention is made in last year's report. Mr. Manecklal S. Desai, M.A., of the Educational Department, Cutch State, was appointed a Probationer in the Revenue Department.

488. The Sir Subha was on tour in the districts altogether for 111 days and he travelled 950 miles.

489. The Assistant Sir Subha travelled 1,335 miles during the 108 days he was out in the districts.

490. The work of inspection was done in addition to the usual work of the Sir Subha's office. In addition to the very heavy work done in the correspondence branch, extending to about twenty thousand outward and eighteen thousand inward numbers, 72 appeals were heard and decided and 505 memoranda were submitted to His Highness the Maharaja on various important subjects.

491 The district officers, in their own turn, have to do a good deal of inspection work. The system of land tenures in vogue in His Highness' territories is for the most part ryotwari. This system, as is well known, imposes a deal of detail work, requiring the utmost care and watchfulness in the Government agency. As a necessary conse-

quence, an elaborate system of checks and counter-checks becomes necessary to safeguard the mutual interests of the Government and the ryot. This means a minute examination of the work of the subordinate officials by the superior District officers. A good deal of the efficiency of the system, therefore, depends upon how these officers do their duties, and without doubt, the work of these superior District officers is mainly responsible for the success or otherwise of the department.

492. The Subhas have travelled as follows:—

	Days.
Baroda	102
Kadi	167
Nowsari	155
Amreli	126

493. Mention has been made in last year's report of some measures passed recently in the Revenue Department. The present year has not been without more of them. First and foremost among these was the work of revising in a systematic form the circular orders of this Department. In the course of the present decade numerous circulars and rules have been issued regarding matters appertaining to this Department, but in many cases they were framed to meet difficulties as they arose. Nor, perhaps, could it have been otherwise. The Department was comparatively young. Many difficulties could not be anticipated, and it could hardly have been convenient to attempt a systematic legislation before a few years' experience had prepared the ground for it. But stray circular orders gave rise to inconvenience in their own turn. Their very number was bewildering. There were orders on the same subject, sometimes conflicting and often redundant. That they confused, instead of helping, Government officers in the disposal of Government business, goes without saying. The necessity, therefore, was strongly felt of putting them together in a systematic form. The urgency of the work required its being taken in hand almost without delay. But the preliminary work alone took up a good deal of time. All the circular orders had to be collected, collated and classified under proper heads. This done, such of them as had become obsolete were eliminated. All this process, simple as it might appear, took up a good portion of the last year, and it is only in the year of this report that the work could be said to have launched with its apparatus all complete. Many circulars have already appeared in their new garb, having been approved and passed by His Highness.

494. Some of the measures recently inaugurated under His Highness' orders in the interests of the ryot are being increasingly taken advantage of. For instance, the anomaly that "the names of the occupants of Government land entered in the Government records differed from those actually in possession" is gradually disappearing.

The following figures will show the transfers of land made in the year under report as contrasted with those of the previous year:—

	Baroda.		Kadi.		Nowsari.		Amreli.		Total.	
	1883-84.	1884-85.	1883-84.	1884-85.	1883-84.	1884-85.	1883-84.	1884-85.	1883-84.	1884-85.
Number of persons whose lands were transferred	2,225	2,539	1,583	1,593	1,152	1,517	...	...	4,960	5,649
Number of bighas transferred	5,247-19-10¾	2,373-4½	19,767-10-11	2,039-4-11	16,445-2-19¼	20,604-6-19	...	...	41,460-13-1	43,377-2-11
Number of kumbhas transferred	14,142-37-0	27,202-13-4	.....	.....	.....	.....	...	...	14,142-37-0	27,202-13-4
Assessment on the above.....	1,97,741-14-3	2,59,847-8-3	41,740-0-9	47,987-8-3	58,616-1-0	71,233-9-0	...	...	2,98,098	3,79,068-11-1

495. Thus the number of persons who transferred their lands increased by 689, showing that the measure is gaining in popularity. 1,917-2-11 more bighas and 13,060-13-4 kumbhas, representing Rs. 80,970-10-1 assessment, have changed hands. The measure could not be applied to Amreli as it was not necessary there, owing to the Bhagavatai system of land tenure which prevailed in that Division.

496. So also another measure, viz., the permission given to occupants of Government land to relinquish a survey number or a recognized portion thereof, is working its legitimate effects. The ryot no longer finds itself handicapped in the matter of throwing up such land as he does not want. The following statement shows how much land was relinquished in the year of report :—

Division.	Number of persons who relinquished Land.	Land relinquished.		Assessment.
		1884-85.		
	1884-85.	Bighas.	Kumbhas.	1884-85.
				Rs. a. p.
Baroda	2,389	1,107 15 1	6,696 47 15¾	58,406 13 3
Kadi	3,200	23,334 0 0	.....	39,957 10 0
Nowsari	333	3,127 12 2	.....	8,446 13 0
Amreli	123	3,274 3 3	.....	2,116 11 11
Total.....	6,045	30,843 10 6	6,696 47 15¾	1,08,928 0 2

497. That the measure has proved a boon to the ryot is beyond doubt. It has struck at the root of a very undesirable state of things. The above figures show that land fetching upwards of a lac of rupees was given up during the year under report. It would not be correct, however, to suppose that the whole of this land remained uncultivated, inflicting loss upon Government revenue to the amount of the assessment. Land thrown up by one occupant is often taken up by another. A good deal of the land is thus taken up every year.

498. The new waste land rules, promulgated with the approval and sanction of His Highness, offer liberal inducements to break up waste land. The rules came into force from the 15th May 1884. The results of this measure belong to future years, but the following

figures will show the work done under them in the year under report:—

Class of Officer.	Land granted for cultivation.								
	On full assessment.			On lease.			Total.		
	Bighas.	Kumbhas.	Assessment.	Bighas.	Kumbhas.	Assessment.	Bighas.	Kumbhas.	Assessment.
			Rs.			Rs.			Rs.
Wahiwatdars	24,552	2,305	46,180	4,397	338	3,144	28,949	2,643	49,324
Naib Subhas	417	...	847	325	58	738	742	58	1,585
Subhas	2,635	150	2,589	975	...	800	3,610	150	3,389
Total.....	27,604	2,455	49,616	5,697	396	4,682	33,301	2,851	54,298

The Huzur Treasury.

499. The Revenue Department has control of the Huzur or Central Treasury at Baroda, as also of the District and Taluka Treasuries, which are supervised by the several Subhas. The following information relates to the working of the Huzur Treasury.

500. The actual cash transactions of the Treasury, including Debt and Remittance Heads and exchange of coins during the year of report and in the previous year, were as under:—

	Receipts.			Payments.		
	Rs.	a.	p.	Rs.	a.	p.
1884-85	1,19,48,949	0	1¼	85,96,972	5	3½
1883-84	1,02,85,480	8	3½	85,65,705	2	6½

501. The transactions were accordingly heavier in the year under report than in the previous year, and the receipts exceeded the payments of the year by Rs. 33,51,976-10-10.

502. The system of payments to the several Departments continued the same as in the previous year, except that the cheque system was introduced for payments to the City Municipality from 1st November 1884.

503. The actual cost of the establishment during the year under report amounted to Baroda Rs. 38,798 against Rs. 37,583 in the previous year, showing an increase of Rs. 1,215, which is owing partly to payment of acting and travelling allowances in the year of report and partly to larger savings in the preceding year.

504. The chief items of revenue which come in the province of the Revenue Department are the following:—

1. Land Revenue proper.
2. Tributes, Ghasdana, &c.
3. Forests.
4. Abkari.
5. Opium:
   (*a*). Monopoly of manufacturing opium.
   (*b*). Retail sale monopoly.
6. Cesses.
7. Customs.
8. Salt.
9. Stamps.
10. Miscellaneous.

505. Of these items, No. 2 is only partially collected by the agency of this Department. Tributes and Ghasdana and imposts of a similar nature levied from Chiefs and Mewasis of Kattywar, the Mahi Kantha, and the Rewa Kantha are, under treaties, collected on behalf of the Baroda State by the British Government. The Fadnis Department furnishes the Revenue Department with the account of demands, collections, and balances of these items, which it receives from the Residency.

506. The following figures show the demand, collection and balances under this head for the year under review as compared with those of the previous year:—

Items.	Demand in Babashai.		Collection.		Balances.	
	1883-84.	1884-85.	1883-84.	1884-85.	1883-84.	1884-85.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Ghasdana	6,25,971 9 9	6,25,971 9 9	5,88,941 0 10½	5,58,498 2 2	37,030 8 10½	67,473 7 7
Jamabandi	1,21,382 5 10	1,21,382 5 10	1,12,055 5 10	1,15,426 13 1	9,327 0 0	5,955 8 9
Salami	3,197 0 0	3,197 0 0	3,197 0 0	3,197 0 0	.....	.....
Miscellaneous	283 12 10	429 11 0	283 12 10	429 11 0	.....	.....
Total.....	7,50,834 12 5	7,50,980 10 7	7,04,477 3 6½	6,77,511 10 3	46,357 8 10½	73,429 0 4

507. The most important, as being the largest, source of revenue is the land revenue proper. Of the 20,86,016 people who live permanently in His Highness' territories, 3,10,808 are returned, in the Census of 1881, as following the occupation of agriculture and 2,95,347 more as following the same partially. Anything that affects this population, therefore, must *pro tanto* affect the land revenue of the State. If the seasons are favourable and the public health good, the harvest is abundant, the ryot pays the Government demand willingly, and the work of the Revenue Collector is of the lightest. The Guzerath ryot is very sensible to deal with, especially when his labours in the field are rewarded with plenty; but in less favourable circumstances, he is naturally somewhat sullen and tries to avoid the sight of the Revenue Collector. Then the relations between the two are not of the pleasantest, but they are rarely, if ever, bitter; for in Native States we are elastic and accommodate ourselves to times and circumstances. In hard times the ryot receives remissions commensurate with his distress, though, when he has done prosperously, we never ask him to pay more than the settled demand.

Season and Rainfall.

508. The year under report was, on the whole, an average one so far as the seasons and rainfall were concerned. The rainfall in the Nowsari Division was about 4 inches less than in the preceding year, but about 14 inches more than the average fall for the last five years, which was 55 inches 53 cents. The crops on the whole were good.

	Ins.	Cents.
1883-84.....	73	96
1884-85.....	69	84

509. In the Kadi Division the rainfall was about 27 inches more than that of the previous year, and about 16 inches more than the average local fall, which, according to the last five years' average, was 26·24 inches. Excessive rain at the end of the season considerably injured the jowar and bajri crops, the loss being at eight annas in the rupee. The other crops suffered little damage. The rice crops, which had nearly failed last year, were particularly good during the year under report.

510. In the Amreli Division the rainfall exceeded that of the previous year by nearly five inches, and the last five years' average, which was 20 inches and 19 cents., by upwards of 10 inches. Here, also, excessive rain at the end of the season caused damage to crops. Bajri suffered to the extent of six annas in the rupee, cotton and rice to eight annas, teel or sisamum seed to six annas, jowar four annas, and wheat three annas. The Subha states that, as compared with last year, the season under report was less favourable.

511. In the Baroda Division the rainfall was greater by 4 inches than that of the last year, and by upwards of 9 inches than the average fall for 5 years, which was 43 inches 21 cents. Owing to excessive rain at the end of the season, cotton suffered loss to the extent of eight annas in the rupee. Bajri, jowar and toor four to five annas in the rupee. Wheat and other crops suffered little damage. The season was more favourable to wheat and rice than to other crops.

512. The following statement compares the rain-fall at the head-quarter towns of the several Divisions with that of the previous year:—

Divisions.	Year.				Normal average.
	1883-84.		1884-85.		
	Ins.	Cents.	Ins.	Cents.	
1. Nowsari	73	96	69	84	48
2. Baroda	48	86 7/11	52	89 3/11	32
3. Kadi	16	50 8/13	42	86 6/13	32
4. Amreli	25	38	30	7 1/4	25

513. The average prices of food-grains for the two years are given below:—

	1883-84.	1884-85.
	Seers per British Rupee.	Seers per British Rupee.
(1) BARODA DIVISION.		
Wheat	22 1/4	26 5/8
Bajri	28 5/16	28 1/2
Jowar	33 5/8	31 1/2
Rice (common)	22 9/10	25 3/16
Kodra	49 3/8	47 5/16
(2) KADI DIVISION.		
Wheat	31 1/4	36 1/2
Bajri	33	41 1/2
Jowar	36 3/4	44
Rice (common)	19 1/3	20 3/4
Kodra	50	57 1/4
(3) NOWSARI DIVISION.		
Wheat	28 1/4	35 1/4
Bajri	30 1/4	32
Jowar	38 1/4	37 1/2
Rice (common)	30 3/4	26 5/8
Kodra	85	72 1/2
(4) AMRELI DIVISION.		
Wheat	28 1/2	34 3/8
Bajri	32 1/4	34 1/16
Jowar	42 3/4	48 3/4
Rice (common)	18	16 3/4

514. In the City of Baroda the following prices ruled during the year as compared with those in the previous year:—

	Average prices in lbs. per Baroda Rupee.	
	1883-84.	1884-85.
Bajri	$26\frac{1}{16}$ to $27\frac{1}{8}$	25 to $28\frac{3}{4}$
Jowar	$26\frac{7}{8}$	$30\frac{3}{8}$
Rice	$20\frac{9}{16}$	$19\frac{1}{8}$
Dal	$25\frac{5}{8}$	$22\frac{1}{4}$
Wheat	$18\frac{7}{8}$	$23\frac{1}{4}$
Grain	$25\frac{1}{2}$	30

515. The water supply for both men and cattle was generally good in all the Divisions. Sanctions to the extent of Rs. 4,000 for deepening tanks were given.

516. Public health was also good. No elaborate statistics on this head have yet been attempted in the Baroda State. But general results can nearly always be gathered without much difficulty. Cholera prevailed slightly in the Kadi and Baroda Divisions. In the Baroda City, out of 308 cases reported 135 proved fatal, but the epidemic did not prevail during the year under report to such an extent as to affect agricultural interests.

Land Revenue.

517. The statement given in the margin will show that the number of villages of which the Jamabundi was settled during the year under report was 2,883 against 2,822 during the previous year, and that the latest date on which Jamabundi in the former case was completed was 11th October 1885, while in the latter it was 10th September 1884.

Year.	Number of Villages of which Jamabundi was to be made.	Number of Villages of which Jamabundi was made.	Latest date on which Jamabundi was completed.
1883-84.....	2,822	2,822	10th Sept. 1884.
1884-85.....	2,883	2,883	11th Oct. 1885.

518. The following statement shows the gross land revenue, the remissions, and the net amount for collections for the year under report.

To facilitate comparison, it also gives figures for the same items for last year:—

Year.	Land Revenue proper (Babashai Currency).	Miscellaneous Land Revenue (Babashai Currency).	Total (Babashai Rupees).	Remission (Babashai. Rupees).	Amount for collection or net demand (Babashai Rupees).
1883-84	86,93,749	13,54,691	1,00,48,440	12,323	1,00,36,117
1884-85	85,33,229	13,35,255	98,68,484	16,497	98,51,987
Increase	.....	.....	.....	4,174	.....
Decrease	1,60,520	19,436	1,79,956	.....	1,84,130

519. The above statement shows a net decrease of Rs. 1,84,130 for the whole territory. Statement No. An. given in the Appendices, and of which the above is an abstract, gives increases and decreases for each Division. A glance at that statement will show that the Kadi and Nowsari Divisions show an increase of Rs. 51,525 and Rs. 1,06,896, respectively, while the Baroda and Amreli Divisions show a decrease of Rs. 25,582 and Rs. 3,12,795, respectively.

520. The increase of land revenue in Kadi and Nowsari is principally owing to increased cultivation, especially in the Rani Mahals of the latter Division, while the large decrease in Amreli is owing to the following causes:—

	Rs.
1. Decrease in cotton cultivation	1,43,000
2. Decrease in produce in villages subject to Bhagvatai system	1,19,000
3. Decrease in sugar-cane cultivation.....	10,000
4. Reduction of Babtis, &c., in Damnagar consequent on the introduction of the Surevey Settlement ...	28,000
5. Decrease in the sale proceeds of Mapa Izara	12,000
6. Decrease in other miscellaneous Babtis	795
	3,12,795

521. Remissions were granted in deserving cases. In the Baroda Division the amount of remissions of current year's revenue came to Rs. 3,236-4-10, in the Kadi Division to Rs. 10,495-7-10, in the Nowsari Division to Rs. 2,928-2-9, in the Amreli Division to Rs. 46-9-2—the total amount of remissions being Rs. 16,706-7-9.

522. The following is an abstract of Appendix **Ao.**

	Amount for Collection.	Collection exclusive of excess payment or Fazil.	Outstanding Balances.
	Babashai Rs.	Babashai Rs.	Babashai Rs.
1883-84	1,00,36,117	95,12,173	5,23,944
1884-85	98,51,987	95,15,617	3,36,370
More	.....	3,444	.....
Less	1,84,130	.....	1,87,574

523. Although the revenue for collection shows a deficit of Rs. 1,84,130, the actual realizations show a slight increase.

524. The outstanding balance at the end of the year under report is less than that at the end of the preceding year by nearly two lacs, but this is owing to a nearly equal decrease in the amount for collection.

525. In connection with the outstanding balances the following statistics may prove of interest:—

Samvat.	Government Demand, exclusive of current year's Remissions.	Collections exclusive of "Fazil."	Balances.	Remarks.
	Rs.	Rs.	Rs.	
1934	93,12,788	81,62,771	11,50,017	
1935	94,29,001	82,64,826	11,64,175	
1936	97,88,297	91,34,967	6,53,330	
1937	97,09,905	92,45,467	4,64,438	
1938	98,21,519	92,79,379	5,42,140	
1939	99,34,484	94,87,102	4,47,382	
1940	(a) 1,00,36,117	95,12,173	5,23,944	
1941	98,51,987	(b) 95,15,617	(c) 3,36,370	(a) The highest figure of land revenue. (b) The highest figure of collection. (c) The lowest figure of balances.

526. It is hardly necessary to remark that the collections have steadily increased during the present decade, and that the present amount of collections is about 15 lacs in excess of that which existed 8 or 9 years ago.

527. Advances were made to ryots to enable them to effect improvements in agriculture or to tide over difficulties not of their own making. From the statement in the margin, it will be seen that during the year under report Rs. 18,762, or Rs. 8,719 more than in the previous year, were granted as Tuccavi. The amount of Tuccavi entered in column 3 is mostly for sinking wells for purposes of irrigation. The sum of Rs. 6,255 under Miscellaneous is solely on account of loss by fire in the village of Maroli in the Nowsari District, where about 80 houses were accidentally burnt by fire, causing a total loss of Rs. 40,162.

Year.	Opium.	Cultivation and sinking wells.	Miscellaneous.	Total.
	Rs.	Rs.	Rs.	Rs.
1883-84	1,020	7,957	1,066	10,043
1884-85	2,082	9,825	6,255	18,762.

Former Years' Balances.

528. Past years' outstandings have been mentioned in last year's report. These outstandings are not of the land revenue alone, they include outstandings on account of all kinds of State demands, allowed to accumulate for some years. They have threatened to clog the work of accounts. Efforts have, however, been persistently made to reduce them to a manageable shape.

529. At the end of 1879-80 these balances amounted to the large sum of Rs. 73,26,864. At the end of 1880-81 they were reduced to Rs. 69,55,234. At the end of 1881-82 they were still further reduced to Rs. 65,94,109; since then, moreover, a special agency has been at work, and in the year 1882-83 balances amounting to Rs. 4,45,213 were enquired into, reducing them at the close of the year to Rs. 61,48,896.

530. Along with the question of outstanding balances may be mentioned the kindred subject of unadjusted "Advances" and "Deposits." The work done under this head in all the Divisions in the year was as follows:—

Advances.

Division.	Amount remaining unadjusted at the end of 1883-84.	Amount adjusted in 1884-85.	Amount remaining unadjusted at the end of 1884-85.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
Baroda	8,16,161 11 6	1,14,822 0 0	8,37,029 14 9
Kadi	8,51,296 14 2½	87,736 4 10½	7,63,560 9 4
Nowsari.....	4,03,848 10 2	25,237 11 6	3,78,610 14 8
Amreli	2,39,771 10 0	9,601 0 3	2,30,170 9 9
Total.....	23,11,078 13 10½	2,37,397 0 7½	22,09,372 0 6

Deposits.

Division.	Amount remaining unadjusted at the end of 1883-84.	Amount adjusted in 1884-85.	Amount remaining unadjusted at the end of 1884-85.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
Baroda	4,77,133 14 0	9,228 9 3	4,67,905 4 9
Kadi	5,50,272 8 7½	85,817 5 8	4,64,455 2 11½
Nowsari	1,49,568 8 10½	27,115 3 10½	1,22,553 5 0
Amreli	94,816 11 8½	31,332 1 8½	1,09,086 9 4
Total.....	12,71,791 11 2½	1,53,393 1 6	11,64,000 6 0½

Revenue Survey and Settlement.

531. The Department was under the charge of Mr. F. A. H. Elliot, C.S., C.I.E., during the whole year, except for a few weeks during the rains, *i.e.*, from the 4th August to 28th September 1885.

532. Mr. C. E. Biddulph, the Assistant Survey Commissioner, whose services were lent to this State by the British Government for two years, took 18 months' furlough in March last. The term for which his services were lent expired in November 1885, and his work was entrusted to two Native Assistant Commissioners, Messrs. Ramling Ganling and Atmaram Joitaram Patel.

533. The post of Daftardar became vacant in August last in consequence of the death of the late lamented Mr. Kallianji Bhulabhai. The deceased was an experienced officer of Government and had rendered conspicuous services to the Department.

534. During the previous year there were 4 Survey and 2 Classing parties. Two Survey parties and one Classing party were added to the Department during the year under report.

535. In lieu of the cross-staff system of survey a trial was made of what is styled the chain survey, the system of survey com-

monly followed in England and other countries in Europe as well as in a large portion of India. Mr. H. H. Parkinson, a young Engineer, was placed in charge of a special party drawn from the other parties, which he instructed in the new mode of surveying, actually measuring the fields of 8 villages in the Dabhoi Taluka and commencing 4 villages in the Padra Taluka. It is sufficient to say here that the experiment proved that by the new mode men could turn out more work than by the cross-staff system with sufficient accuracy for all practical purposes. It is even claimed by Mr. Elliot that the measurements are on the whole more correct than they had been, though the margin of error in excessively small numbers may be larger owing to the difficulty experienced in reading the planimeter. Mr. Ramchandra Narayan Ambegavkar was, later on in the season, instructed to impart the new system to the *I* Party, and he performed the task with marked ability. During the rains all the measurers and the surveyors were taught how to measure by the new mode, and in the year 1885-86 the chain survey was universally adopted in this Department as the mode of measurement.

536. It was ruled by Government that the work of measuring and classing lands required for the Surya Tank should be done by the Survey Department. Eight villages were found either wholly or partially situated in the limits of the tank. A special party of the measurers taken out of the regular measuring parties was formed and sent to work in Ajwa and the neighbouring villages under a Nimtandar. This party is designated in this report as the Ajwa party.

537. The subjoined statement gives the details of the work done by each measuring party during the year, and these details are compared with the last year's results:—

No.	Parties.	Number of Villages measured field by field.							Measuring work field by field.						Traversed.			
		1884-85.				1883-84.			Survey Numbers.		Area measured.				1884-85.		1883-84.

Total of the field by field and traversed work.						Difference between the work of the two years.				Remarks.
1884-85.			1883-84.			In the work field by field.		In the work traversed.		
Number of Villages.	Area.		Number of Villages.	Area.						
40	61,568	1	37	52,750	...	+3,532	16	+5,296	5	(1) Two complete and some incomplete villages whose work was not counted in the last year's report because the Tapasni of that work was not finished, have been shown in this report to belong to the year 1883-84; hence the difference in the figures given in columns 7, 8, 11, 12, 14, and 15 as compared with the corresponding figures in the last year's report.
44	70,816	8	25	37,236	18	+18,188	4	+24,391	6	
35	59,541	16	23	54,528	7	+14,451	18	—9,438	9	
45	61,472	15	23	61,139	14	+2,074	13	—1,741	12	(2) Last year the number of villages was wrongly put down at 30. It ought to be 28. The number of bighas was, however, correct.
18	46,822	5	...	...	...	+43,978	7	+2,843	18	(3) The area measured of the village of Venkatpur is not given in the Kamdar's report, while the Survey Numbers are only shown; see Appendix Aq.
30	78,641	1	...	...	...	+60,333	13	+18,307	8	
13	28,912	12	...	...	...	+28,121	13	+790	14	(4) Three villages in Dabhoi are partly traversed, but as they are Inam villages, and the major portion is traversed, they are so entered here.
8	14,407	3	...	...	...	+9,712	16	+4,694	7	(5) In Rampura and Karamsin some portion was traversed, but they are Khalsa villages, and are put down under field by field work; hence the traversed portion is only shown in column 17.
...	...	...	34	1,27,199	17	—78,547	14	—48,652	3	
						+1,80,304	5	—59,832	4	
233	4,31,182	1	142	3,32,863	16	—78,547	14	+55,323	18	
						+1,01,846	11	— 4,508	6	
332	7,64,045				17	After deducting the last year's incomplete villages, as they are already in the year of the report.				

538. Thus 38 villages were taken up from the last year and completed, 126 were freshly begun and completely measured field by field, and 39 were left incomplete. The total survey numbers measured in these villages were 89,442, comprising an area of 3,60,459 bighas 10 vasas. Besides this, there were 28 villages traversed, which contained an area of 70,722 bighas 11 vasas.

539. The cost of the measurement of each bigha is, if any thing, a little in excess of last year. This is because last year a part of Dhari had to be measured. In the present year almost all the area surveyed was divided into minute holdings. The larger outturn can only be appreciated by comparing the total of survey numbers this year with the total of last year, 89,442 numbers as compared with 45,417 numbers.

540. Taking the work of the previous year into consideration, it will be found that during the two years the Survey Department measured, field by field, 249 villages completely, and the villages partially completed numbered 39; all these contained a measured area of 6,19,072 bighas 9 vasas and 1,34,859 survey numbers. The total villages traversed numbered 44, all of them Inami except one, and the total area 1,44,973 bighas and 8 vasas. These details are given in Appendix Aq., which also gives the name of each village measured. The following abstract of the statement shows how much measuring work was done in each taluka:—

No.	Talukas.	Number of Villages measured field by field.	Survey Numbers	Area in Bighas.		Villages traversed.	Area traversed.		Total Area.	
1	Dhari	28	1,117	78,547	14	6	48,652	3	1,27,199	17
2	Dabhoi	75	38,426	1,61,703	9	11	34,409	13	1,96,113	2
3	Padra	65	45,233	1,42,929	15	15	27,235	4	1,70,164	19
4	Jarod	46	21,198	95,398	11	8	28,883	...	1,24,281	11

6	Sankheda	15	2,238	15,426	8	...	.....	...	15,426	8
7	Baroda	1	1,268	4,195	15	2	2,323	17	6,519	12
8	Vyara	19	3,504	18,594	...	...	.....	...	18,594	...
	Total.....	288	1,34,859	6,19,072	9	44	1,44,973	8	7,64,045	17

541. The measuring work mentioned above was supervised by the Assistant Survey Commissioners in general and the Survey Kamdars and Nimtandars in particular.

542. As a general rule, the Survey Kamdars and the Nimtandars have to test 10 per cent. of the numbers measured by the measurers under them, and the Survey Kamdars, in addition, have to retest the numbers tested by the Nimtandars at the rate of 2 per cent.

543. In addition to the work of measurement and testing, the Survey Kamdars are required to attend to the investigation and the disposal of the disputes, if there be any, regarding the boundaries of the villages their parties have to measure. The following is a table of the boundary disputes which were presented to the Survey Kamdars and of those disposed of by them during the year under report:—

Parties.	Total number of Boundary Cases presented.	Cases disposed of.				Number of Cases remaining undisposed of at the end of the year.
		Between Government Villages.	Between a Government and an Inami Village.	Between Inami Villages.	Total.	
A	24	4	5	...	9	15
B	38	13	9	7	29	9
C	8	1	3	...	4	4
D	7	2	...	...	2	5
H	4	4	...	...	4	...
I	9	1	3	...	4	5
F	2	1	...	1	2	...
Totals..	92	26	20	8	54	38

544. Thus of 92 cases that were on the file, 54, *i.e.* 59 per cent., were disposed of.

545. In Appendix **Ar.** is given a detailed list of the boundary cases disposed of by the Survey Kamdars, giving the names of the villages regarding the boundaries of which the disputes arose, and the manner in which the cases were investigated or disposed of, *i.e.*, by Razinamas, or after a regular investigation and award. Of the total number of cases disposed, 30 were struck off the file after Razinamas were passed therein, and in 24 the Survey Kamdars had to follow the long process of a regular judicial investigation.

546. Of the cases disposed of by the Survey Kamdars, 23 were submitted to the Survey and Settlement Commissioner for confirmation; in 13 the decisions of the Kamdars were confirmed; and in 6 they were set aside, the remaining 4 being in arrears at the end of the year.

547. The appeals on boundary decisions of the Survey Kamdars made to the Survey and Settlement Commissioner amounted to 4 in the year. All of them were disposed of during the year.

548. As stated in para. 534 the three classing parties were working in the Amreli, Kodinar and Dhari Talukas, all of which were completed at the end of the season. The following is the outturn of work of these parties:—

Parties.	Number of Villages classed.	Taluka.	Area classed in Bighas.				Last year's work in Bighas.	Difference between the two years' work.
			Bagayet.	Jirayet.	Culturable unassessed waste.	Total.		
E	28	Kodinar...	11,718·15	39,753·13	1,931·14	53,404·2		
	31	Dhari.....	6,758·12	92,798·5	17,575·8	1,17,132·5		
	59		18,477·7	1,32,551·18	19,507·2	1,70,536·7	1,34,053·15	36,482·12
F	30	Kodinar...	6,469·1	73,916·3	.....	80,385·4		
	32	Dhari.....	4,853·4	1,04,480·8	.....	1,09,333·12		
	62		11,322·5	1,78,396·11	.....	1,89,718·16	60,271·2	1,29,447·14
G	30	Amreli ...	17,996·3	1,22,746·3	.....	1,40,742·6		
	12	Dhari.....	3,317·17	38,482·13	....	41,800·10		
	42		21,314·0	1,61,228·16	.....	1,82,542·16	.....	1,82,542·16
	163		51,113·12	4,72,177·5	19,507·2	5,42,797·19	1,94,324·17	3,48,473·2

549. If taken Talukawar the results are as follows :—

Talukas.	Number of Villages.	Area classed in Bighas.						Remarks.
		Bagayet.		Jirayet.		Unassessed culturable waste.	Total.	
Kodinar	58	18,187	16	1,13,669	16	1,931 14	1,33,789 6	
Dhari	75	14,929	13	2,35,761	6	17,575 8	2,68,266 7	
Amreli.....	30	17,996	3	1,22,746	3	....	1,40,742 6	
Total ...	163	51,113	12	4,72,177	5	19,507 2	5,42,797 19	

550. Statement **As.** gives the names and areas of the villages classed during the year under advertence and of those in the previous year. From this statement it will be seen that 214 villages and 7,87,122-16 bighas of land were classed in the four talukas of the Amreli District :—

Talukas.	Villages.	Total Area, including Kharabo.		Area classed.		Remarks.
Damnagar	29	1,42,996	1	1,12,572	4	
Amreli.....	52	2,46,569	18½	2,22,494	19	
Dhari	75	3,59,719	10	2,68,266	7	
Kodinar	58	1,74,419	16	1,33,789	6	
Total.....	214	9,23,705	5½	7,87,122	16	

551. Thus the classification, as well as the survey work, in the Kattiawar provinces is finished, as the Okhamandal Taluka is not to be taken. The first two talukas, Damnagar and Amreli, have been settled, as will be mentioned below.

552. The Survey Kamdars in charge of the classing parties tested the above work, and the result was as follows :—

Parties.	Number of Villages tested.	Survey Numbers tested.	Area tested in Bighas.		Survey Numbers tested having no difference.	Survey Numbers in which there was difference.	Total amount of the difference in Rupees.			Average difference per Bigha in pies.	Remarks.
							Rs.	a.	p.		
E	59	2,075	15,565	9	796	1,279	66	8	2	8	
F	68	1,809	21,497	16	674	1,135	41	0	4	7	
G	42	1,137	23,930	15	379	758	22	13	0	6	
Total.....	169	5,021	60,994	...	1,849	3,172	130	5	6	7	

553. During the year under notice 13 villages of the Damnagar and 52 of the Amreli Taluka, as mentioned in Appendix **At.**, were settled, and the new settlement was introduced therein from the 1st of August 1885. In the preceding year 13 villages of Damnagar were

already settled, thus making up 78 villages in all. By the close of the year under report the whole of the Amreli and of the Damnagar Talukas were finished except 3 Bhagdari villages in the latter (1 Ganeshgad, 2 Rupawati, and 3 Sakhpur).

554. The new settlement adopts the Bighoti, or cash payment, system and supersedes the time-honoured custom of Bhagvatai. It remains to be seen how the new system, which hitherto promises to give great relief to the people, will affect the people, who are accustomed to the old way of assessment which, along with some evils and shortcomings, had its own advantages.

555. The question of settlement was the more perplexing as some Girasias possessed vested rights in the villages of 1 Siyanagar, 2 Ratanpur, 3 Nawagam, 4 Shahapur, 5 Italia, 6 Mewasa, and 7 Khijdia, and shared the revenues thereof with the Sarkar. It is now decided that the Girasias shall receive cash payments in proportion to their old share in produce.

556. Along with the benefits which the Sarkar conferred on the ryots of Kattiawar by the introduction of the new settlement, the Government granted them full rights in the houses in which they lived and in the trees which are situated in their Khata lands. How far the acquisition of rights in houses renders the occupants more open to distraint for debt is a question still to be ascertained.

557. The total expenditure of the Department for the year under report amounted to Rs. 1,59,091-13-0 as against Rs. 1,14,533-13-1½ of the previous year. It is classified under the following heads:—

No.	Heads.	1884-85.			1883-84.			Difference.		
		Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.
1	Direction (Commissioner's pay and Travelling Allowance)	25,257	5	2	20,583	9	5	+ 4,673	11	9
2	Supervision (Assistants', Survey Kamdars' and Nimtandars' pays)	34,205	11	2	21,038	7	2	+13,167	4	0
3	Measuring (the Measurers' and their Peons' salaries).....	38,692	4	2	25,731	8	10½	+12,960	11	3½
4	Classing (Classers' and their Peons' salaries)	11,808	10	1	5,417	1	11	+6,391	8	2
5	Settlement (Settlement Assistant, his Clerk and Peons' salaries)...	1,486	5	6	...	...	...	+1,486	5	6
6	Office (Clerk and Peons of the Officers abovementioned).....	20,037	12	11	14,830	7	9	+5,207	5	2
7	Training (Probationers', Umedwars', and Survey School)	2,111	5	2	4,565	12	7	—2,454	7	5
8	Outfit	9,429	8	6	11,400	12	6	—1,971	4	0
9	Contingencies.....	14,825	11	6	10,013	8	5	+4,812	3	1
10	Boundary-marks.....	1,237	2	10	952	8	6	+ 284	10	4
								+48,983	11	3½
								— 4,425	11	5
	Total Rs.....	1,59,091	13	0	1,14,533	13	1½	+44,557	15	10½

558. When this expenditure is distributed on the Commissioner's, the Assistant Commissioners', and the Survey Kamdars' offices, the items stand thus :—

No.	Offices.	1884-85.	1883-84.	Difference.	Remarks.
		Rs.	Rs.	Rs.	
1	Survey Settlement Commissioner's Office	42,600	33,787	+ 8,813	
2	Assistant Commissioners' Office	13,168	7,938	+ 5,230	
3	Extra Nimtandar	602	40	+ 562	
4	A. Party Survey Kamdar's Office	12,096	13,328	— 1,232	
5	B. Do. do.	11,493	11,871	— 378	
6	C. Do. do.	12,081	11,998	+ 83	
7	D. Do. do.	10,815	10,683	+ 132	
8	H. Do. do.	11,000	.....	+11,000	
9	I. Do. do.	10,134	.....	+10,134	
10	E. Do. do.	8,308	7,233	+ 1,075	
11	F. Do. do.	9,036	4,120	+ 4,916	
12	G. Do. do.	6,623	.....	+ 6,623	
13	Settlement Assistant	1,486	.....	+ 1,486	
14	Probationers' and Survey School	220	2,135	— 1,915	
15	Outfit	9,430	11,401	— 1,971	
				+50,054	
				— 5,496	
	Total Rs.	1,59,092	1,14,534	+44,558	

559. Deducting from the total expenditure Rs. 25,453, the amount on account of the three classing parties and that of settlement, there remained Rs. 1,33,639; this when divided by the total number (4,31,182) of bighas measured, the cost per bigha of measurement comes to 4 annas 11 pies as against 4 annas 10 pies of the preceding year. If the outfit charges be deducted, the average per bigha comes to 4 annas 8 pies as against 4 annas 4 pies. The charges on account of classing amount to Rs. 23,967, and the area classed was 5,42,798 bighas. This gives an average cost of 8 pies per bigha as against 9 pies of the last year.

560. The classification cost per bigha is a little cheaper, while that of the measurement is a little higher this year. The fact should, however, be borne in mind that the area this year and the area last year represent a different proportion of numbers. Twice as many numbers were surveyed as last year. In other words, the measurement had to be more minute, and hence became more costly.

561. From the above table it will be seen that there was increased expenditure in almost all the heads during the year under advertence owing to the increase of the Department.

562. The charges under direction were not, however, affected by this cause. In the previous year, *i.e.*, 1883-84, Mr. Elliot was on furlough for more than 7 months, and there was necessarily some saving in the expenditure.

CUSTOMS.

563. As the marginal entries will show, the Government demand under this head for the year under report exceeds that of the last year by upwards of half a lac of rupees, and most of this increase has been realized.

Items.	1883-84.	1884-85.	Increase.	Decrease.

Outstanding Balance	150	32	.....	118
AMRELI.				
Government Demand	81,884	1,13,565	31,681	.....
Realizations	80,159	1,03,537	23,378	.....
Outstanding Balance	1,725	10,028	8,303	.....

565. It will thus be seen that a total increase of Rs. 1,21,001 has taken place in Kadi and Amreli Divisions, which, after covering the total deficit of Rs. 66,404 in the Baroda and Nowsari Divisions, gives a net increase of Rs. 54,597.

566. The increase of Rs. 89,320 in Kadi is principally owing to a more abundant harvest of rape seed and castor-oil seed, and consequent larger exportations of those products.

567. The increase of Rs. 31,681 in Amreli is mainly due to larger imports into Okhamandal in consequence of the *Chhapan Bhog* ceremony which took place during the year under report and to the collection of the customs duties in Kodinar by departmental agency instead of by contract.

568. The Baroda Subha ascribes the decrease of Rs. 56,568 in Baroda to the year being a *Sinhast* year, during which the performance of marriage ceremonies is prohibited by the usage of the country, thus lessening imports from abroad and causing loss of Customs revenue.

569. The Nowsari Subha attributes the falling off of Rs. 9,836 in the Customs revenue to the following causes:—

		Rs.
1.	Less traffic	3,600
2.	Absence of items, such as receipts of Yeshwantpura Bargaum, which were held in deposit but were finally credited in the Accounts last year	5,000
3.	Decrease in miscellaneous Babtis.....	1,236
	Total.....	9,836

ABKARI.

570. The State derives a considerable revenue from Abkari. For the past seven years the revenue, in round numbers, from this source was as follows:—

	Rs.
1877-78	2,37,993
1878-79	2,23,802
1879-80	2,31,106
1880-81	2,39,438
1881-82	3,02,725
1882-83	3,46,722
1883-84	3,74,825
Total for 7 years	19,56,611
Average for 1 year.....	2,79,516

571. In 1880 the arrangements about the sale of liquor at Variav underwent a change. The liquor required for consumption there was, it was agreed, to be taken from the British Distillery at Surat on payment by the liquor contractor of the gallon fee fixed for the Surat City, the British Government agreeing to refund it to the Baroda State. In the year 1881-82, what is known in the Bombay Presidency as the Sudder Distillery system was introduced in parts of the Nowsari Division. Two distilleries were established, one at Nowsari and the other at Kathor. The still-head duty on each gallon of liquor of a strength of 25 U. P. is fixed at Rs. 1-8 at the former place and Re. 1 at the latter; that of 60 U. P. is fixed at annas 11 and 9 respectively.

572. The quantity of liquor (in gallons) distilled since the introduction of the Sudder Distillery system was as follows :—

Year.	Nowsari.		Kathor.		Total Gallons 25 U. P.	Total Gallons 60 U. P.
	25 U. P.	60 U. P.	25 U. P.	60 U. P.		
1881-82	38,511	.....	13,074	.....	51,585	.....
1882-83	54,728	.....	14,653	.....	69,381	.....
1883-84	49,430	2,024	16,169	1,049	65,599	3,073
1884-85	27,817	1,49,446	10,949	37,714	38,766	1,87,160
Total.....	1,70,486	1,51,470	54,845	38,763	2,25,331	1,90,233

573. The income for the year under this head in the several districts was as follows as compared with that for the previous year:—

Name of District.	1883-84.	1884-85.	Increase.	Decrease.
	Rs. a. p.	Rs. a. p.	Rs. a. p	
Baroda	1,14,992 12 6	1,25,576 1 0	10,583 4 6	.....
Kadi	59,930 9 4	77,899 14 10	17,969 5 6	.....
Nowsari	1,96,314 11 0	4,69,479 6 4	2,73,164 11 4	.....
Amreli	3,587 7 2	4,023 0 0	435 8 10	.....
Total.....	3,74,825 8 0	6,76,978 6 2	3,02,152 14 2	.....

574. The year under report shows an increase in the Abkari revenue of upwards of three lacs of rupees. The highest increase is in the Nowsari Division. It is due to better bids at the auction sale of the farm of the right to sell liquor. How the bid could go up from nearly two lacs for the previous year to upwards of four lacs requires explanation. The distillery system was not well understood by the farmers. They were, therefore, naturally cautious the first two or three years. In the year under report, with a better knowledge of the working of the system, the competition became keener, with the result indicated above.

575. It was expected that the adoption of the distillery system would lessen the opportunities for smuggling. But the necessity of a strict supervision over the consumption of liquor became all the greater. In order to grapple with it, the existing Abkari and Customs Departments in Nowsari were amalgamated, and the staff was strengthened at the annual cost to the State of Rs. 5,042.

576. The expenditure of the year on account of the Abkari Department was Rs. 19,497-12-9 (Babashai), that for 1883-84 was Rs. 5,940-12-8 (Babashai). This shows a sudden increase in the

expenses in connection with the Abkari Department of Rs. 13,557-0-1. This increase is made up principally of the amount of compensation given to certain Inamdars for the right to sell liquor in their villages. It is slightly due also to a portion of the salary of the Customs Superintendent having been charged to this head.

OPIUM.

577. The State derives revenue also from the manufacture and sale of opium. Under the arrangements introduced by the late Minister, in the interests of the British opium revenue, two State monopolies have been created:—

1. The monopoly of opium production, which is confined to the Kadi Division, except the Dehegaum Mahal; and
2. The monopoly of retail sale of opium for home consumption.

578. It may be remarked that the increase or decrease in the cultivation of the poppy depends on the price which the Sarkar offers per lb. of juice produced and delivered, and this offer is regulated by the prices ruling in China. For the past few years the prices have fallen very considerably, and thus it is not in the interest of the State to offer higher rates and encourage the poppy cultivation.

579. The cultivation of the year under report compares as follows with that of the previous year:—

	Acres.	Juice in lbs.
1883-84	334-0-0	3,461
1884-85	564-28-13	7,127-39½

Thus, it will be seen, the area for these two years has fallen much below the average of the first five years since the monopoly came into working. The year's yield in juice was, on an average, 13 lbs. per acre, decidedly a very poor return. Of the total quantity of juice, lbs. 7,119 tolas 24¾ were good juice, the rest was unserviceable.

580. About 3 acres were cultivated without license. Twelve persons were concerned in this illegal cultivation, and they were prosecuted.

581. The purchasing price of juice was fixed at Rs. 2-4-0 per pound of 42½ tolas. The total amount which the ryots received for the year's produce was Rs. 15,076-13-3. Bad juice was, of course, not paid for.

582. The following particulars relate to the quantity of juice on hand at the beginning of the year and that purchased during the year:—

	Dyage included in accounts along with juice on hand.	Juice on hand out of the purchase of 1882-83.	Juice of the yield of 1883-84.				Chepi Juice, *i. e.*, obtained of Gunny Bags, &c.	Juice of the yield of 1884-85.			Total of columns 1,2,6, 7 and 10.
			Purchased in 1883-84.	Purchased in 1884-85.	Destroyed.	Total Juice of 1883-84.		Good Juice.	Unserviceable.	Total.	
	lbs. t.	lbs. t.	lbs. t.	lbs. t.	lbs. t.	lbs. t.	lbs. t.	lbs. t.	lbs. t.	lbs. t.	
	1	2	3	4	5	6	7	8	9	10	11
Stock on hand at the beginning of the year	2709 26	31 7½	3,330 37	.....	.....	3330 37	.....	.....	.....	.....	6,071 30¾
Purchased during the year	.....	.....	.....	117 0½	.....	117 0½	1,351 30	7,119 24½	8 14¾	7,127 39½	8,596 29¾
Total.....	2709 26½	31 7½	3,330 37	117 0½	.....	3447 37½	1,351 30	7,119 24½	8 14¾	7,127 39½	14,668 20½
Destroyed but included in Accounts	.....	.....	.....	.....	13 2¾	13 2¾	.....	.....	.....	.....	13 2¾
Grand Total.....	2709 26½	31 7½	3,330 37	117 0½	13 2¾	3,461	1,351 30	7,119 24½	8 14¾	7,127 39½	14,681 23¼

583. The quantity of net juice in the depôt at Sidhpur was:—

Quantity as shown in column 11 of the foregoing statement	lbs.	14,681-23¼
Deduct—		
Dryage as shown in column 1...	lbs.	2,709-26½
Juice destroyed as shown in column 5	lbs.	13- 2¾
		2,722-29¼
Net Juice lbs.		11,958-34

584. The quantity of juice utilized in the manufacture of opium in the year was lbs. 7,021-39¾ and of that remaining on hand at the end of the year was lbs. 7,646-21.

585. The financial results of the sale of opium sent to China in 1883-84 were as follows:—

Cost—

	Rs.	a:	p.
Chests 150-123-13½ at Rs. 532-3-3 per chest...	80,299	7	11
British Government fees.....	99,450	0	0
Transit charges	5,805	6	0
Commission, &c.....	3,420	10	5
Total.....Rs.	1,88,975	8	4
Deduct—			
Amount realized..... Rs.	1,82,988	12	2
Loss.....Rs.	5,986	12	2

586. The cost of opium given above includes the price of juice, expenses of manufacture, establishment charges (including those of Regimental and Police Guards), and interest at 6 per cent. per annum.

587. The loss shown above is not peculiar to the year under report as will be seen from the following figures :—

Year.		Loss in sale.
1881-82.....	Rs.	587
1882-83.....	,,	41,388
1883-84.....	,,	24,837

588. With regard to the retail sale monopoly, the following particulars will show the operations under this head:—

Balance of opium from the previous year	lbs.	60,613-25
Opium confiscated.....	,,	62-25
Received from the Sidhpur store	,,	45,990- 0
Received back from Government shops closed.	,,	16- 5
Total.....	lbs.	1,06,682-15

Deduct—

Issued to licensed vendors	lbs.	63,308- 1
Dryage	,,	627-36
Total.....	lbs.	63,935-37
Balance on hand on 31st July 1885.....	,,	42,746-18

589. The quantity of opium actually sold by retailers was as follows:—

Division.	Opium sold by Vendors (in lbs.)		Population per last census.	Consumption per head of population (in tolas).	
	1883-84.	1884-85.		1883-84.	1884-85.
Nowsari	2,506	2,636-12	2,87,549	·34	·36
Baroda.....	27,914	28,861-24	7,56,807	1·47	1·52
Kadi	17,588	22,326-18	9,88,487	·71	·90
Amreli	12,486	9,048-26	1,47,468	3·38	2·45
Total.....	60,494	62,873	21,80,311	1·10	1·15

590. The retail system, which has been in force for some years past, is working satisfactorily, thereby cheapening the selling price of opium and minimizing at the same time the introduction of smuggled opium into His Highness' territory.

591. The financial results of the retail sale monopoly were as follows:—

	Rs.	a.	p.
Cost of lbs. 63,308-4.....	3,18,699	15	9
Cost of opium lost by dryage	3,335	12	11
Establishments	4,165	9	3
Contingencies	2,692	6	2
Total.....Rs.	3,28,893	11	1

592. The realizations were:—

	Rs.	a.	p.
Price of opium, lbs. 63,308-4, issued to licensed vendors.	6,49,759	5	0
License fees	45,359	11	2
Miscellaneous	1,684	2	1
Total ..... Rs.	6,96,803	5	3
Net Profit..... ,,	3,67,909	11	2

593. The foregoing figures show a net profit of Rs. 3,67,909-11-2 as against Rs. 3,36,881 of the previous year.

594. The following details relate to offences against the opium law:—

Year.	Cases on hand from previous years.	Cases brought up during the year.	Total number of cases for disposal.	Cases disposed of during the year.		Cases pending at the end of the year.	Number of persons convicted.	Quantity of Opium or Opium Juice confiscated.
				Cases in which convictions were obtained.	Cases in which the accused were discharged or acquitted.			
1878-79	...	82	82	61	20	1	81	663
1879-80	1	41	42	32	7	3	50	263
1880-81	3	50	53	40	11	2	53	205-2-0
1881-82	2	52	54	32	12	10	43	673
1882-83	10	64	74	53	19	2	67	230
1883-84	2	74	76	64	10	2	79	182
1884-85	2	30	32	20	10	2	22	17-21 0

595. The falling off in the number of offences may be due to better working of the retail system as stated in para. 590 above.

STAMPS.

596. The total receipts under this head amounted to Rs. 3,09,456 in the year under report as against Rs. 2,29,437 in 1883-84.

597. The increase of Rs. 80,019 is mainly due to a greater sale of Court Fee Stamps owing to an increased number of suits filed in the year and to the recoveries of Stamps fees in pauper suits or suits in which the Court fees had for special reasons been suspended at their commencement. There was also an increase in the sale of ordinary stamps, which is probably due to increased money transactions.

598. The expenditure of the Department amounted to Rs. 27,192 against Rs. 13,000 in the previous year, thus showing an increase of Rs. 14,192.

599. This increase in expenditure is mainly due to the cost of the water-mark paper ordered from Messrs. Waterlow and Sons of London, and also to an increase in the cost of establishment and dead-stock articles in connection with the execution of new stamps.

600. The ratio between income and expenditure was about 8·78 per cent. in the year as against 5·65 in the past year.

Forests.

601. The operations of the Forest Department are still limited to the Nowsari Division. The small establishment sanctioned last year for the preservation of the forests in the Dhari and Kodinar Mahals of the Amreli Division has commenced its operations, the result of which belongs to future years.

602. The total realizations (in British currency) during the year under report compare as follows :—

1883-84	Rs.	37,466	5 8
1884-85	,,	1,12,496	2 10

(including Rs. 7 "recovered.")

603. The revenue shown above consisted of the following items as compared with those of the previous year :—

	1883-84. Rs.	a.	p.	1884-85. Rs.	a.	p.
Timber	15,413	6	9	83,880	9	6
Bamboo	6,985	5	2	7,476	13	4
Firewood ...	5,919	4	7	8,341	14	10
Miscellaneous.	9,148	5	2	12,796	13	2
	37,466	5	8	1,12,496	2	10

604. Details of the realizations, balance, &c., are as follows :—

	Rs.	a.	p.
Current year's revenue	73,099	11	3
Balance of the previous year.....	64,524	15	0
	1,37,624	10	3
Deduct—			
Realizations	1,12,496	2	10
Balance written off	270	5	8
	1,12,766	8	6
Balance to be recovered next year ...	24,858	1	9

605. The increase in the receipts from timber was due to the following causes :—

1*st*.—Some timber had remained to be measured through the negligence of the Darogas and others at the end of the previous year. It was measured this year, and the amount due thereon was recovered from the Izardars.

2*nd*.—During the year under report the farmers having declined to take farms, the sale of timber was effected departmentally according to the rates sanctioned by the Huzur. The amount realized was Rs. 8,003-7-4.

606. The increase in the receipts from bamboo was due to increased sale during the year under notice.

607. The increase in the receipts from firewood was not due to increased sale, but there being a great demand for Kanti and Kher wood for the use of certain cotton-ginning factories, a pretty good price was realized, and so greater fee was levied on carts loaded with the same.

608. The increase in the miscellaneous item was due to the fact that the wood attached was sold by auction, which realized nearly Rs. 4,500.

609. The total expenditure (in British currency) of the Forest Department as compared with the past year was as follows:—

Item.	1883-84.	1884-85.	Increase.	Decrease.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Conservancy and Working...	301 7 11	837 5 10	535 13 11	.....
Pay of Establishment.....	22,552 15 6	20,861 3 3	.....	1,691 12 3
Batta of Establishment	2,120 9 7	.....	.....	2,120 9 7
Amount to be paid to the Inamdar of Yashwantpura Bargaum	9,434 10 2	.....	.....	9,434 10 2
Contingencies	1,233 9 3	3,747 8 3	2,513 15 0	.....
Total.....	35,643 4 5	25,446 1 4	3,049 12 11	13,247 0 0

610. It will be seen that there was in the expenditure a net decrease of Rs. 10,197. This decrease was due to the amount of pay and batta of the late Conservator of Forests not having been disbursed since November, 1884, and to the fact that during the year under report the Inamdar of Yashwantpura Bargaum was not paid the revenue on account of his patch of forest as had been the case in the previous year, as also because the pay of the Officer in charge Conservator's Office was charged to the Land Revenue Department.

611. Deducting the expenditure from the receipts the net revenue was Rs. 87,050 against Rs. 1,824 of the preceding year.

612. Free grants of forest produce of the estimated value of Rs. 31,071 against Rs. 35,307 of the preceding year were made to the ryots of the Rani Mahals.

613. The marginal statement will show the offences against forest laws as compared with those in the preceding year. There is an increase in the number of offences committed. This increase in the offences might suggest the inference of want of attention to forest conservancy. But the fact was quite the contrary. Increased attention in this regard led to increased detection of crime. Measures were adopted to avoid delays in bringing the offenders to justice.

Year.	Total number of offences	Convicted.	Acquitted.	Balance on hand.
1883-84. ...	41	7	10	24
1884-85. ...	93	34	11	48

614. The offences above alluded to do not include those investigated by the special Forest Commission.

615. The following statement will show the receipts and expenditure in British currency (in round numbers) of the Forest Department since its organization:—

	Receipts. Rs.	Expenditure. Rs.
1877-78	2,314	13,000
1878-79.....	14,713	16,925
1879-80.....	42,558	26,437
1880-81.....	69,568	28,293
1881-82.....	65,234	31,485
1882-83.....	90,702	25,037
1883-84.....	37,467	35,643
1884-85.....	1,12,496	25,446

616. The precautions against jungle fires continued to be taken as before. There was only one jungle fire of some magnitude in the year under report. It happened in the Nanchhal range, committing damage to the extent of Rs. 1,700. An inquiry into the cause of the fire brought to light that it was the doing of certain men and not the result of natural causes. These men were apprehended and committed for trial, which resulted in their conviction on the charge laid against them.

617. No new plantations were made during the year under report. The old ones were looked after. It is proposed to have babul plantations along the banks of the Mindola, the Purna, and the Ambika rivers. The subject is under consideration.

618. A thorough reform was introduced in the system of keeping the accounts of the Forest Department. New forms were adopted, and the accounts were assimilated to the general system of the accounts of the Revenue Department. The Forest Department will henceforth be regarded as if it were a taluka by itself for purposes of accounts.

TAXES ABOLISHED.

619. The following will give an idea of the nature of the axes abolished in the year:—

Kadi Division.—*Kanta Tolai,* or a cess on the right of weighing articles imported into Vadnagar, *Maniara Vero,* or a tax on *Maniaras* (glass beads and ivory bangles makers) in Visnagar.

Baroda Division.—*Dholl Vero,* or a cess on the privilege of supplying drummers, pipers, &c., to the public in the towns of Saoli, Sojitra, Dabhoi and Sankheda.

Nowsari Division.—Petty Babtis, or cesses about 50 in number, with an average income of about 2,000 rupees, were abolished in the year. It is hardly necessary to mention them in details here, especially as they are given in Appendix **Ap.**

Amreli Division.—The introduction of the survey and settlement in some of the Mahals of this Division brought on the abolition of certain cesses with an aggregate revenue of about 3,000 rupees.

MINT.

620. This year, also, the rate of exchange was unfavourable, and coining operations could not be undertaken. However, in November and December 1884, a contractor came forward to coin 5 lacs of Rupees, but as he failed to carry out the contract, his agreement was cancelled and a penalty of Rs. 1,250 recovered from him. Another contract for 10 lacs was made, but silver sufficient to coin 8,03,208 Rupees could only be supplied by him owing to high rate of exchange.

621. The details of the work done during the year are as follows:—

	Rs.	a.	p.
Total quantity of silver melted in tolas	7,26,124	14	0
„ Total coinage in Rupees.....	8,03,473	0	0
Gross profit and Hakshai realized during the year.....	10,546	3	6
Deduct Establishment and Contingencies.....	3,206	15	3
Net Profit.....Rs.	7,339	4	3

622. The net profit of the last year being Rs. 10,203-1-0, the decrease in the year under report was Rs. 2,863-12-9, and was due to less work.

623. In addition to the above receipts of Rs. 10,546-3-6, Rs. 1,990-8-6 on account of penalty for not carrying out the condi-

tions of the agreements and Rs. 13-4-6 miscellaneous receipts were received during the year.

624. Counterfeit Bahashai coin to the extent of Rs. 2,591-4-0 was tendered at the Treasuries during the year under report against Rs. 2,212-4-0 of the previous year.

625. The following work was done during the year in connection with the copper currency :—

	Rs.	a.	p.
Quarter-anna pieces or pice coined worth	19,085	11	9
Half-anna pieces or dhuboos coined worth	7,396	15	0
Sundry Receipts	0	7	0
Total Receipts...Rs.	26,483	1	9

Deduct Expenditure :—	Rs.	a.	p.			
Purchase of copper sheets (less price of clippings realized by sale)	15,404	7	9			
Establishment Charges and Contingencies	5,247	6	6			
				20,651	14	3
Net Profit, or 28-3-9 per cent.....Rs.				5,831	3	6

626. The increase of profit is due to increased work.

627. Measures for improving both the silver and copper coins are in progress.

628. The following table shows the rate of exchange between Baroda and British Rupees in the Baroda city market on the 1st of every month of the year under report and the two preceding years :—

Months.	100 British Rupees equal to Babashai Rupees						Remarks.
	1882-83.			1883-84.			1884-85.

AUDIT AND ACCOUNTS.

629. One of the most desirable changes, viz., the separation of the Audit and Account Department from the Revenue, was effected during the year under report, and the Huzur Auditor was raised to the position of the Head of a Department. The Public Works Audit Branch was also placed under his control, and thus he is now responsible for the audit of all the accounts of the State. These changes were sanctioned by His Highness on 7th October 1884, and introduced accordingly.

630. The Huzur Auditor was in charge of all the establishments and accounts mentioned in paras. 570 and 571 of the last year's report.

631. The bills, accounts, &c., disposed of during the year by all branches of the Department were 36,616, some of which belonged to former years.

632. The arrears of work in the Audit Office is being brought up by a temporary establishment costing Rs. 474 per mensem.

633. Over and erroneous payments to the extent of Rs. 7,623-3-5 were discovered during the year under report.

634. The monthly and annual accounts for the whole State have been prepared by the compilation branch of the Audit Office.

635. As regards the old State Bank accounts, Rs. 7,35,620 were recovered and Rs. 48,685 paid during the year. There was an overpayment of Rs. 1,806-15-0, and it is to be adjusted at the time of disbursing the amount due up to Samvat 1935.

636. The work of bringing up the arrears of accounts from 1913 could not be rapidly proceeded with, chiefly owing to the necessity of searching old records for information.

637. The work of auditing the accounts of the Military Department was transferred to the Huzur Auditor from 14th October 1884, and out of 3,738 bills received, 2,650 were audited and disposed of and 1,088 were awaiting explanations.

638. A circular order has been issued regarding the periodical examination of the Huzur Offices, and, in compliance with that circular, Mr. Balkrishna Hari Karve examined the accounts kept in the office of the Special Huzur Police Officer, Captain Nissen, and a portion of those of the office of the Extra Huzur Assistant, Police Department.

639. The cost of the entire Audit Department was Rs. 49,189 against Rs. 43,731 of the previous year. The increase was on account of temporary establishments, charges for printed forms which were not hitherto adjusted by debit to the Audit Department, promotions, &c.

FINANCIAL.

640. The subjoined statement shows the receipts and disbursements of the State in the Baroda currency for the year as compared with those of the previous year:—

No.	DESCRIPTION OF ITEMS.	Amount in Baroda Rupees for 1883-84.	Amount in Baroda Rupees for 1884-85.	Increase.	Decrease

	Grand Total.....Rs.	1,64,60,683	1,61,54,720	11,70,421	14,76,384

641. The method in which the above statements have been prepared is detailed in paras. 579 and 580 of the Administration Report for the previous year, and it is, therefore, unnecessary to recapitulate the same here.

642. The principal causes of increase and decrease in both the receipts and expenditure, as compared with the previous year's transactions, may briefly be explained as follows:—

RECEIPTS.

643.—*Land Revenue.*—The increase of Rs. 2,15,314 is chiefly on account of outstandings collected during the year.

644. *Tribute.*—The decrease of Rs. 20,331 is due to non-receipt of the full amount, less collections of arrears of previous years.

645. *Abkari.*—The increase of Rs. 2,17,857 is due to better bids at the auction sale.

646. *Miscellaneous Taxes.*—The amount collected on account of the current year was less than that in the previous year by Rs. 14,624, from which Rs. 4,768 on account of increased collection for the previous year being deducted, the net decrease amounts to Rs. 9,856.

647. *Customs.*—The total increase on account of the current year is Rs. 48,812, but deducting decrease on account of previous year, the net increase is Rs. 22,731.

648. *Opium.*—The increase of Rs. 7,26,898 is nominal, mainly owing to certain adjustment of former year's accounts.

649. *Stamps.*—The increase of Rs. 79,224 is in the sale of court fee and non-judicial stamps, and also in the recovery of stamps on plaints filed on plain paper in the first instance.

650. *Mint.*—There was an increase of Rs. 12,435 in the profits of copper coinage. But in silver coinage there was a decrease of Rs. 6,026. Hence the net increase of Rs. 6,409.

651. *Judicial Fees, Fines, &c.*—The decrease is very trifling.

652. *Education.*—The increase of Rs. 292 calls for no remarks.

653. *Interest.*—The increase was mainly due to interest on Government securities.

654. *Railways.*—Although, as in the previous year, the amount received in the year under report was on account of the earnings for 12 months only, there was an increase of Rs. 11,386. This increase is due to the fact that the net profits for the calendar year 1884 were greater than those for the previous year; and the causes of this increase have been explained in the chapter on Railways.

655. *Miscellaneous.*—Increase Rs. 10,99,132. This consists of several items, such as Forest receipts, Jail factory receipts, Printing Press receipts, Nazarana, Peshkasi and Giras Kapat, adjustments, &c. Against this there is a decrease of Rs. 1,60,730 in the receipts from the Military, Municipal, Khangi and other Departments.

DISBURSEMENTS.

656. *Huzur Kutcherry Establishments.*—The increase of Rs. 58,277 is mainly due to creation of new offices, payment of arrears, and promotions. Rs. 16,446 out of this represent pay of officers transferred from other Departments.

657. *Land Revenue Department.*—The total increase of Rs. 2,48,104 consists of Rs. 38,919 on account of Survey Establishment, Rs. 13,674 on account of Naib Subhas, Rs. 14,908 on account of pay of officers transferred from other Departments, Rs. 1,33,324 on account of arrears paid to Desais and Mujumdars, and Rs. 47,279 on account of contingent, dead-stock, and miscellaneous charges. Against this there was a decrease of Rs. 49,570 on account of village expenses less paid; so the net increase is Rs. 1,98,534.

658. *Opium Department.*—The decrease of Rs. 7,36,071 is nominal, and mainly due to the causes mentioned in para. 648 *supra*.

659. *Other Civil Establishments.*—The net increase is small and requires no explanation.

660. *Judicial Establishments.*—The increase under this head is due to promotions, acting allowances, payment of arrears, contingencies, &c.

661. *Police.*—The decrease of Rs. 38,164 is owing to the absorption of certain supernumeraries, &c., in the regular Police force, or abolition of extra appointments, and also owing to less expenditure in the purchase of arms and accoutrements.

662. *Jails.*—The increase of Rs. 4,652 is in rations, clothing, &c.

663. *Military.*—The decrease in expenditure was due to the reduction of the Contingent.

664. *Assamdars, &c.*—The total increase under this head is Rs. 1,00,258, consisting of payment of arrears, adjustments, pensions, &c. But deducting Rs. 66,978, less paid on account of Assamdars, the net increase remains at Rs. 33,280.

665. *Public Works.*—The increase under this head is on account of the new Palace, buildings for public offices, doctor's quarters, &c.

666. *Education.*—Of the increase of Rs. 89,058, Rs. 75,742 are on account of the students studying in England, Rs. 6,876 for new schools, and the rest for miscellaneous expenses.

667. *Medical Department.*—Increase of Rs. 6,785 in pay and purchase of instruments, less decrease in contingencies of Rs. 2,261; hence net increase of Rs. 4,524.

668. *Municipalities.*—The increase of Rs. 26,787 consists of promotions and payment of arrears, less non-disbursements of full pay of establishments.

669. *Religious and Charitable Allowances.*—The decrease Varshasan and other allowances amounts to Rs. 60,726, but deducti the increase of Rs. 18,442 by the transfer of Gyarmi expenses fro the Palace Department to this head and other petty charges, the n decrease is Rs. 42,284.

670. *Miscellaneous.*—The gross decrease is Rs. 3,28,155, which Rs. 2,69,216 were on account of the transference of the Cott Mill and Printing Press expenses to the head of Advances, t transference of the Faraskhana to the Khangi, and the supernumerari to the different departments. Against this, there is an increase Rs. 3,03,773; in adjustments Rs. 64,735; payment of arrea Rs. 28,239; exchange of coin Rs. 39,600; outstandings written Rs. 1,27,773; Minister's tour Rs. 12,054; Refunds Rs. 14,220; a Miscellaneous items Rs. 17,152. Net decrease Rs. 24,382.

671. *Extraordinary Charges.*—The net decrease of Rs. 1,41,8 is due to the inclusion of certain items under this head in the accou of the previous year, and their consequent non-appearance in t year's account.

672. *Tour Expenses.*—Decrease of Rs. 37,579 is due to no adjustment of the full expenditure on this account as yet.

673. The Appendices hereto attached contain the us statistical details regarding the various Departments.

LAXAMAN JAGANNATH,
Dewan.

Appendix A.

GENERAL STATEMENT No. I.

JUDICIAL, CIVIL, AND CRIMINAL.

General Statement showing the various Judicial Tribunals existing in the Territory of His Highness the Gaekwar in the year 1884-85, together with their Location, Territorial Jurisdiction, present Establishments, Income, Expenditure and Work done during the year.

Serial No.	Name of Tribunal.	Name of Judge or Magistrate.	Location.	Territorial Jurisdiction.	Judicial Powers.	Executive or other functions.	Decrees in Subordinate Regions. Appendix A.

STATEMENT No. IV.

List of Villages settled during the year 1884-85.

Taluka Damnagar.

1. Siyanagar.
2. Italia.
3. Ratanpur.
4. Mewasa.
5. Nawagam.
6. Shahapur.
7. Chavand.
8. Ambardi.
9. Rajkote.
10. Hirana.
11. Karkolia.
12. Virpur.
13. Khijdia.

Taluka Amreli.

1. Malila.
2. Chadia.
3. Sajiawadar.
4. Keriachad.
5. Devrajia.
6. Tarak Talao.
7. Pithwajal.
8. Shambhupura.
9. Sonaria.
10. Lapalia.
11. Chandgad.
12. Mota Gokharwala.
13. Nana Gokharwala.
14. Kerala (Devlia).
15. Kami.
16. Mota Bhandaria.
17. Jalia.
18. Thordi.
19. Sanasra.
20. Rangpur.

21. Mandawada.
22. Kerala (Jalia).
23. Khijdia Khari.
24. Kamighad.
25. Dholarwa.
26. Medhi.
27. Tarwada.
28. Vankia.
29. Babapur.
30. Gawadka.
31. Vithalpur.
32. Chapathal.
33. Devlia.
34. Chakragad.
35. Amreli.
36. Phattepur.
37. Giria.
38. Baxipur or Bhutia.
39. Amarpur or Warudi.
40. Ishwaria.
41. Sangaderi.
42. Ladawadar.
43. Varasda.
44. Keria Nagas.
45. Nana Machiala.
46. Mota Machiala.
47. Nana Akdia.
48. Khijdia Rathadia.
49. Mota Akdia.
50. Nana Bhandarja.
51. Katma.
52. Malwan.

Total villages 65.
